MOROS BESIEGE TOWN

Thirty-Two Americans Known To Be Wounded, Some Seriously

Manila, March 4.—The town of Jolo has undergone an incessant attack by the Moros for the last two weeks. Details of the operations are difficult to obtain as the censorship is most rigid. All the letters sent by officers and men defending the town are subjected to the minutest scrutiny. That the fighting has been serious, however, is obvious from the fact of the arrival of a batch of thirty-two wounded Americans, seventeen of whom were suffering from serious injuries. The Moros, it is reported, continually fling taunts at the defenders of the town, calling on them to "come out and fight in American fashion and not like pigs." The troops are chafing greatly at their inaction and many complaints are heard among both officers and men. Brigadier General Pershing, commander of the department of Mindanao, denies the report that arms are being smuggled into Jolo.

FRANK CORR TAKES AWAY TOKENS OF GOOD WILL

A pleasant surprise was last night accorded Frank J. Corr in the Dufferin Hotel when friends assembled there and in their behalf W. J. Mahoney presented to him a handsome gold watch as a token of their esteem and friendship. Regret was expressed at his pending departure from the city and best wishes were expressed for his success. Mr. Corr replied thanking his friends for their kindly and substantial expressions of good-will. He will leave this evening for Montreal to take up commercial life. Mr. Corr has been a valued member of the Times-Star reporterial staff and his severance of connection with the office caused much regret amongst his associates. Before leaving he was made the recipient of a valuable souvenir by those of the editorial department of the paper.

URGES PEACE PARK IN DETROIT RIVER

Suggestion For Memorial of Peace Between the Nations

Windsor, Ont., March 4.—Purchase of one of the islands in the Detroit river by the governments of the United States and Canada jointly, to be converted into an international convention park with an international convention hall as its principal architectural feature will probably be suggested as a suitable memorial for the hundred years of peace between representatives of the two nations meet in New York in April.

The plan was outlined by O. E. Fleming, president of Windsor board of trade, at a meeting of the Canadian peace centenary association in Ottawa and met with such favor that it is expected it will be brought before the international body by representatives of the Canadian association.

Mr. Fleming, who is a member of the Canadian peace centenary association, urged that no plan for commemorating the anniversary would be complete without the establishment of peace memorials along the Detroit river, where the first blood was shed in the war of 1812.

In connection with his proposal for an international park, he suggested the erection on it of an international peace convention hall to serve much the same purpose for Canada and the United States as the international arbitration hall at The Hague.

Another suggestion discussed by the Canadian association, which will probably be recommended, is that at some fixed time during the celebration five minutes of absolute silence be observed in every English speaking country of the world, and that suitable religious services be conducted.

BUSY IN THE HARBOR

Nine Steamers in Port—Mt. Temple Arrives With 485 Passengers

Today is a busy one around the harbor, there being no less than nine steamers now in port. The Hesperia and Pomerania of the Allan line; Empress of Ireland and Mount Temple, of the C. P. R. line; Saturnia, of the Donaldson line; Manchester Miller and Manchester shipper of the Manchester Lines; more Head, of the Head Line, and Ninian of the Elder-Dempster line. All are at Sand Point with the exception of the Manchester Shipper and the Pomerania, which are docked at the I. C. R. pier, Long Wharf.

Donaldson liner Cassandra, is due tomorrow with 101 cabin and 100 third-class passengers. She also brings eleven horses.

The Donaldson line has chartered the Bryn Head of the Head Line to take their passengers from Glasgow for St. John on March 15.

Pickford & Black steamer Ocaso sailed today at noon for the West Indies via Halifax with a large general cargo.

Pickford & Black liner Braviante sailed yesterday from Miramichi for St. John direct.

C. P. R. liner Mount Temple arrived this morning about 5 o'clock direct from Antwerp. She brought 485 passengers. A great number of them are French.

The Allan liner Hesperia, Capt. Main, docked at No. 1 berth yesterday afternoon with 177 second class and 248 stowage passengers. The William Holbert, of the C. P. R., was established an Austrian-American service with Canada.

It is now stated on the authority of the Berlin Tagblatt that the Hamburg-American Company has practically obtained the sanction of the Austrian government to run a line from Trieste to Boston and that the North German Lloyd is petitioning for a concession for Trieste for their Buenos Ayres line.

"This organ," says that organ, "that the Canadian company's ambition is affecting wider circles than was originally thought of."

The paper adds:—"The position of the C. P. R. may be slightly endangered by the combined efforts of the pool against the steamship company's scheme."

ARRESTED IN HALIFAX; IS SAID TO BELONG HERE

Warren Gaetz, aged twenty-four, was arrested by Detective Harshman and Police Officer O'Halloran late on Saturday night on a charge of robbing several of the crew of the steamer Anolis in Halifax.

Leo King, punser, Basil Knight, steward and David Dixon, cook, all members of the crew were, on Friday night, the victims of robbery on board their steamer. At a late hour when all on board were asleep, someone made an entrance into the cabin, fished money from the pockets of the sleeping punser, cook and steward and made a clean getaway. The steward had \$40 in his trousers pocket and when he awoke found that \$20 had disappeared. The cook had \$80 in his clothes, all of which was gone. Other money was stolen.

It is said that Gaetz belongs to St. John.

ST. STEPHEN BANK CASE

St. Stephen, N. B., March 4.—The St. Stephen Bank case came up for hearing this morning before police magistrate, J. W. Whitlock, cashier, of making false returns to the government on two separate occasions. Counsel for the shareholders is J. B. M. Baxter, St. John, and H. A. Powell, K.C., is for Mr. Whitlock.

Thos. McCullough, of St. John, was appointed stenographer.

Geoffrey G. Howthorn, accountant, who examined the books, was called. A copy of returns of the bank for 1909 was offered in evidence, but objected to by Mr. Powell. Mr. Baxter said the original returns would reach here from Ottawa by Wednesday.

Mr. Baxter elicited the statement that there were many notes and drafts placed in the bank as collateral which were practically valueless.

Stories of children are generally amusing. Here is one of a small boy's first visit to a blacksmith's. "Mamma," he said, "I saw a man making a horse." "Mamma—You must be mistaken, surely." "No, I am not, mamma." He had the horse nearly finished when I came away. He was just nailing on the feet."

It often happens that new kid gloves split the first time they are tried on. To prevent this, place them between the folds of a damp towel for about an hour before they are to be worn. The damp will stretch the kid, so that the gloves give to the required shape without splitting.

GEO. R. PRICE DEAD; ONCE PROPRIETOR OF HOTEL HERE

Moncton, N. B., March 4.—George Rix Price, of Havelock, died this morning at home of his son, Beverly in Salisbury. He was nearly ninety-one years of age. He leaves a wife, who was Miss Cliff, of Fredericton, also three sons, John, of Havelock, B. J., of Salisbury, and George, of Fredericton; also two daughters, Margaret and Beatrice, of St. John. Mr. Price was coroner and ran twice as a candidate for the legislature. For some years he kept a hotel in St. John.

STEEPLEJACK KILLED

Lawrence, March 4.—Edward McDonough, aged eighteen years, of Methuen, employed as a steeple-jack, fell from the tower of the Arlington mill at the Paris street entrance a distance of about 100 feet and was instantly killed.

He was engaged with John and Patrick Jennings pointing up the brick work of the tower and the trio were on the coping stage when he lost his footing. His body struck near the edge of the roof of the mill about thirty feet below and bounded off to the ground, seventy-five feet more. The wheel of a hydrant in the mill yard was broken by the force of the impact and the body struck it.

The victim is survived by a widowed mother and three sisters.

MUCH ADO ABOUT NOTHING

Men usually tremble Before the mighty power That holds a tyrant's reins. Upon their day and hour, But queer is human nature And wonderful to view. For they will shake and shiver Before a cipher, too.

The child will enter in them And freeze their very bones. Their very teeth will chatter And mock their bravest tones. This hapless state befall them And turn them stiff and stark When on a winter morning They see the zero mark.

—M. Landburgh Wilson.

KNOW HIS BUSINESS

The organist of a country church having been taken ill just before a festival at the church, asked a friend of his an accomplished musician, to play in his stead.

The friend consented, and, on the festival day, chose the "Hallelujah Chorus" playing full chords where the regular organist played only single notes. The former, of course, required far more wind.

Presently in the middle of the piece, the wind gave out. The organist waited a few moments; then, finding it did not come and find, he went round to the blower and found him just going home.

"Blowing!" said the organist. "Blowing!" said the blower. "Why, you're finished! Do you think I've been blowing all these years and don't know how many puffs the 'Hallelujah Chorus' takes? You can't get over me."—Weekly Telegraph.

C. B. Mason, of Sheffield, Pa., has received a letter from his son-in-law, who lives in Cordova, Alaska, which took fifty-nine days to reach him. The letter was mailed on December 29 and contained Christmas greetings, together with a description of an Arctic camp. It travelled 10,000 miles before reaching Sheffield.

If every woman in America were mated to a man there would still be left over more men than there are people in the entire State of Missouri. There are more than 3,000,000 more men than women in America.
