EARLY TOURIST PARTIES SHOW LARGE INCREASE

Cars Crossing Border Are Three Times Last Year's Figures

ST. STEPHEN GAIN OVER HUNDRED

Total to Last Checking This Month Is 479, Compared With 134.

More than three times as many United States cars have entered the province of New Brunswick this year as had done so last year up to this time and enquiries are being received by the score every day for particulars as to routes and road conditions, it was said this morning by J. Charlton Berrie, secretary of the New Brunswick Automobile Association.

Another interesting feature of the tourist travel this year, Mr. Berrie said, was the number of enquiries received from local people about routes for trips to Quebec, Ontario and the Atlantic states of the United States. Already at least five parties had left here bound to Toronto and Hamilton and on down to New York and many more were planning similar trips. Last year it was the week only before local parties began these long trips.

YEARS COMPARED
Following will be found a list of the number of permits issued to United States cars in the province for the 24 hours or more, at the several points of entry for the years 1924-25, up to May 25th of this year, compared with the corresponding figures for 1924.

MUCH REPAIR WORK ON CITY BUILDINGS

Permits From Inspector in Saint John, Numbering 105, Establish Record.

The value of building permits issued in Saint John during May 1924 was much in excess of the value of those issued during this month of this year, a record breaker in the number of permits issued for repairs and alterations were given out by the building inspector. The largest number issued in any month previous to this was 101. The value of new buildings for the first five months of this year is well ahead of the value of those issued during the same period of 1924.

During the last month two permits amounting to \$5,000 were issued. The value of new buildings for the first five months of this year is \$851,500 and last year for the same period it was \$120,450.

Louis W. Simus, president of the Saint John Board of Trade, said yesterday that he expected some further definite word in connection with the proposal to erect a flour mill here within the next week. He had received a letter from the Canadian Manufacturers' Association offering him the data at their disposal and intended to write for H. Get 'Em Now At Lily Lake

HERE'S trout fishing right at the door. For the first time anglers will be allowed during next month to fish with fly from boats at Lily Lake. The managing committee of the Horticultural Association announces today that surface fly fishing from boats will be permitted there on the evenings of June between 7 and 9 o'clock, with a view to eliminating some of the larger trout, which they believe are devouring the smaller fish. Fishing from the shore will be free, as heretofore, but there will be a charge of 50 cents a rod an hour for the boat fishing, including use of a boat. The catch will be limited to half a dozen fish to each rod.

As Hiram Sees It

"I see," said Mr. Hiram Hornbeam to The Times reporter, "four has gone away up."

"The price has certainly advanced," said the reporter.

"An' they got so much wheat waitin' fer ships up to Montreal that they don't know what to do with it," said Hiram.

"It is so reported," said the reporter.

"I s'pose that's why flour has gone up," said Hiram.

"My dear sir," said the reporter, "you don't know the first rudiments of price-fixing."

"No, I guess I don't," said Hiram, "I can't even fix the price of what I got to sell—an' when it comes to buyin' I'm mighty tight—By Hen! Now, if somebody'd jump the price of potatoes up a little I wouldn't mind, takes care to her enough staff to fill the sullen air the pantry for our own use summer and winter. Thank the Lord—Nobility kin put up the price of sunshine an' rain. They're about all they is left that we don't hev to pay taxes on—yes, sir."
