The public fear that the government can be forced to suspend gold payments increases daily. This would be the crowning achievement of the revolutionists, who are satisfied that with the attending financial crash the whole house would come tumbling down.

At Kharkhoff it is reported that 5,000 soldiers have agreed not to fire on the people, and at Rostoff the Third grenadier artillery, consisting of 400 men, have held a meeting and formulated service demands. Similar action it is rumored, has been taken by the military engineers at Odessa and by troops in several places in the Baltic

Another Crisis at Hand. St. Petersburg, Dec. 10.—Another crisis is at hand involving the indefinite prolongation of the strike, the probable precipitation of a general strike throughout Russia and the possible final struggle betwen the government and the proletariat

This comes from the first shedding of blood in the telegraph strike and the arrest of M. Krustale, president of the workingmen's council. He is regarded as the brains of the revolutionary movement and it is considered that his arrest was due to the determina ion of the government to precipitate a crisis.

General Strike Imminent. St. Petersburg, Dec. 10.-Morningvia Eydtkuhnen, Dec. 11.-There is every indication to-day that the govment's challenge will be accepted, and that within forty-eight hours a general strike throughout Russia will be ordered. A terrible storm has been raised by the arrest of M. Krustaleff, president of the executive con of the workmen's council, which was followed during the night of the imprisonment of the members of the workmen's council and a number of Socialistic leaders. "The reaction has come," were the words of everybody, and in the Liberal extremists cam there was only one opinion, namely that it must be resisted to the bitter

At all the meetings last night, som of which lasted until morning, the opinion was unanimous that the government had forced the hands of the proletariat and the supreme weapon a general strike must be invoked.

The newspaper editors at yesterday evening's meeting decided that the temporary press law forbidding the discussion of vital questions affecting the welfare of the nation violated the principles of freedom of speech, and of the press guaranteed by the imperial manifesto, and that it must be defied. The result was that the editions of the Russ and half a dozen more radical papers were confiscated The employees of the Riga-Orel rail-way have declared a strike on account of the declaration of martial law in Livonia, and have sent an appeal to the other roads to join. Last night the railway men of the Baltic lines decid ed to follow the example of the Riga-Orel men. The situation in Livonia is frightful. Absolute anarchy prevails A messenger who arrived here today declared the streets of Riga were flowing with blood. After a meeting the railway men of Riga were mowed down by the fire of machine guns and

Collecting Funds.

New York, Dec. 10.-M. Gourevich, one of the leaders of the revolutionary organization in Russia, known as the Bunde, has just arrived in this city from that country, where he was recently released from prison after serving two years for his revolutionary tendencies. His mission in this country is to collect funds for the cause from the sympathizers with the Bunde.

He said: notwithstanding the vigilance of the authorities we are enable to carry on our work without detection or hindrance. Of course, now and then one of our members is arrested.

"There are about 100,000 members of the Bunde in Russia and double that number are associated with us. We publish our proclamations and circulate them despite the long search which presses. To circulate our proclamathem about their persons and carry them from place to place.

Ernest Deason Ends His Life With Rifle-New Banks For Edmonton.

Saskatoon, Sask., Dec. 7.—Ernest Deason, a young Englishman twenty years of age, living with Frank Frudd 7 miles from Saskatoon, shot himself through the head some time between Friday and Tuesday last. He was seen alive by Frudd on Friday in charge of the homestead. On Tuesday he was found dead. Seeing blood upon the pillow and thinking something was wrong he brought his brother and neighbors. They broke in the back door with an axe, and on trying to open the bedroom door found a weight against it which proved to be the body of young Deason frozen stiff.

POLITICAL SITUATION. Report That Sir Henry Campbell-Bannerman May Be Elevated to

the Peerage.

London, Dec. 7 .- It is understood in the best informed quarters that Sir Henry Campbell-Bannerman will be elevated to the perrage so that he may become the leader of his party in the House of Lords. In such an event, Herbert Henry Asquith will become first lord of the treasury and leader of the party in the House of Commons. The only matter as yet undecided is whether these changes shall be made before or after the general election. There is a strong feeling in the Liberal party against Sir Henry Campbell Bannerman entering the House of Lords until after the election. If Sir Henry should go to the upper house, it is probable that he would take the portfolio of foreign affairs which, it is ointed out, he could do if relieved of

that there is every probability that Winston Churchill will be given a post in the new government. According to the Times this morning, Sir Henry Campbell-Bannerman has ecided to remain in the lower house as long as his health and strength will permit: and that in consequence of this decision Sir Edward Grey, who is a strong partizan of Lord Rosebery, has refused to become a member of the cabinet, which otherwise he would have been willing to do had Sir Henry gone to the House of Lords, leaving Mr. Asquith to lead the Commons.

WE WILL BUY

You a Bottle of Liquozone, and Give It to You to Try.

We make few claims of what Liquozone will do. And no testimonials are published to show what it has done. We prefer that each sick one should learn its power by a test. That is the quickest way to convince you.

So we offer to buy the first bottle and give it to you to try. Compare it with common remedies; see how much more it does. Don't cling to the old treatments blindly. The scores of diseases which are due to germs call for a germicide. Please learn what Liquozone can do.

Where It Applies

What Liquozone Is

The virtues of Liquozone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry into the system a powerful tonic-germicide.

Where It Applies

These are the diseases in which Liquozone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny. Asthma
