had much difficulty in reaching the shore.

The Miramichi telephone company have had considerable difficulty in locating a break in the cable which connects Middle Island with the north side of the river, but on Saturday a working party dug through nearly three feet of ice on the island shore and found that the cable had been broken completely through by the action of the ice piling up and running on the beach. Connection is being made with the town system by a through line to Tracadie and soon as the poles are erected on the Burnt Church and Neguac road.

A rumor has been prevalent in town for a day or two to the effect that some gentlemen are here examining into locating a break in the cable which connects Middle Island with the north side of the river, but on Saturday a working party dug through nearly three feet of ice on the island shore and found that the cable had been broken completely through by the action of the ice piling up and running on the beach. Connection is being made with the town system by a through line to Tracadie and soon as the poles are erected on the Burnt Church and Neguac road.

Considerable interest was taken in the town elections last month, and many stories are told about the various combinations, all of which were supposed to advance the interest of some one or other of the candidates. Great fun is being made of the alleged victualer of Henderson street, who deposited a prescription in the ballot box, the drug store to have filled. His candidate got his medicine all the same. The new alderman, Mr. Bentley, made a most favorable impression upon the electors.

Edward Whitty, who recently returned from Bermuda on a visit to his home, brought some beautiful specimens of the Easter lily of the tropics. They are larger and more graceful in proportion than those grown here, beside having a most delicate and agreeable odor.

Major Templeton and wife intend to take a trip to the West Indies in the near future, which will include Demerara, Barbados, and several other important points, including Antigua, which last island is Mrs. Templeton's native place, but which she has not seen for forty years. Mr. Templeton has resigned his position as keeper of the alms house, and upon his return will occupy a house on Church street which he has recently purchased. The trip is in the nature of a return in improved health, which is the main object of their projected trip.

Very little building operation is apparent as yet in town, and not much is contemplated.

Some of the workmen for the cathedral have arrived, but the main body has not yet reached here. It is supposed that considerable progress will be made upon the walls of the main building during the summer. The want of a suitable boarding house for the workmen is much regretted.

SACKVILLE, April 26.—Dr. and Mrs. Huestis of Halifax spent two days at the Ladies' College last week on their return from the West Indies, where they were visiting friends.

The first base ball game of the season was played Monday afternoon on the college campus. The Ladies' College students as spectators. There has been no weary interval between sports this year. There is still comparatively good ice to see the rink, and hockey players and skaters have been enjoying it.

Dr. Borden has received already a number of applications from students for next year.

The concert given last Friday evening.

Mr. George W. Ford, Henry Anderson, S. W. Copp and S. Edgar Dixon.

SOUTHAMPTON, April 25.—Geo. Davidson of the Valley Hotel this morning received intelligence of the death of his only sister, Mrs. Mahon, Port-au-Pique. She has been ill all spring, and Mrs. Davidson spent several weeks with her in the hospital.

Mr. and Mrs. Mahon are a native of New Brunswick, and spent her early years there, coming to this village when the original valley mill was in operation. She resided till a few years before her marriage.

She was postmistress for a number of years. About the time she was married, and in her adopted village, as well as here made many friends, who will sorrow over her demise. She was about 50 years of age.

Through a kindly friend, Mrs. Mahon was an active member of the Baptist church wherever she has lived, and in that capacity was greatly missed. Mr. and Mrs. Davidson leave tomorrow to attend the funeral. Mrs. Davidson will remain with the bereaved family a few weeks.

Mr. and Mrs. W. H. Reid have returned to their home in Austin, Me., after having spent the winter here.

McKenzie Hunter, who was so seriously injured by the pit last week, as reported, was operated upon by four doctors on Saturday. He is still living this morning, but so low that the most hopeful can see no chance of recovery.

Frank Addison is again suffering from appendicitis. This is the third attack he has had. As soon as he recovers sufficiently, he will be removed to Halifax for an operation.

In Springfield Mines shares are being taken rapidly in the proposed woolen mills, and there is no doubt but that the value will rise to an important industry this spring.

HALIFAX INSURANCE.

HALIFAX, N. S., April 26.—A meeting of the fire insurance agents of the tariff companies in Halifax was held today regarding an increase in the rates for this city. It is proposed by the head office to advance the rates about 75 per cent within the confederation district of Halifax. The agents here, knowing that this would not be popular and might be unwise from a business point of view and to head off such an order from the head office, have put up a question. They discussed a memorial to the city council to have the city fire department improved in order possibly to save the city from the proposed rates. No final action was taken and the meeting adjourned to meet on Friday forenoon.

GUILITY OF THEFT.

PORTLAND, Me., April 27.—Wm. Hutton, on trial in the U. S. circuit court on the charge of robbing the post office at Southwest Harbor, was found guilty by the jury this evening on the count of the indictment. The jury was instructed to return a verdict of guilty on the count of robbing the post office on Monday morning.

## We will buy you a bottle of Liquezone, if you are sick—we'll pay your druggist ourselves for it and show you how to get well.

We paid \$100,000 for the American rights for Liquezone. And we have spent \$500,000 in the past four months to pay a million bottles and give them to a million sick ones. Don't you realize that this product must be of wonderful worth to humanity? Won't you see what it means to you?

### Acts Like Oxygen.

Liquezone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process which requires immense apparatus and 14 days' time. Each cubic inch of Liquezone represents the virtue of 100 cubic inches of the gas. The process by which these virtues are concentrated into liquid, stable form, has been the constant subject of scientific and chemical research for more than 20 years.

The result is a product which does what oxygen does. Oxygen is a gas, and unstable; while Liquezone is fixed and concentrated. It gets into the blood, and it gets into the blood, to go wherever the blood goes. The result is a vitalizing tonic with which no other known product can compare.

**Kills Inside Germs.**

But the great value of Liquezone lies in the fact that it kills germs in the body without killing the tissues, too.

John A. Bowser, Capt. Fred Egan and Albert Palmer have been credited for Vancouver, B. C.

George Palmer, son of Station Master Palmer, who has been spending a few weeks with his parents, returns next week to Glace Bay, where he is in the employ of the Warren Bros. company, street pavers.
