Bishop Richardson's Address.

Before the presentation of the prizes, Bishop Richardson addressed the gathering, and took an opportunity to congratulate the boys on their excellent work, and the teaching staff on the very efficient manner in which they had instructed the young men. He expressed himself as most pleased with the fact that plans for enlarging the school had been adopted, and added that with the growth and development of the province the time was ripe for expansion. He congratulated the parents of the boys and those closely interested in the school on the good work that had been done by them and remarked that if there had been any prejudice against the school in former days it was now "dead, deeply buried and on the road to be forgotten."

Bishop Richardson made mention of the fact that plans had been made for the accommodation of forty per cent more boys; and urged upon those present the necessity of seeing that these rooms are occupied.

In conclusion he congratulated Rev. W. R. Hibbard on having so efficiently carried on his work during the five years he has held the position of head master of Rothsay College.

Lieutenant Governor Wood.

Governor Wood was then called upon for an address.

He thanked the head of the college for the invitation to be present at the closing exercises and remarked that it was the first time he had the pleasure of visiting the school. He expressed himself as deeply impressed with the general appearance of the grounds and buildings and said that he was very glad to hear of the prosperity that was reported by the head master. He pointed out to the boys the great opportunity they had for learning and contrasted with the present time schools of the school of forty years ago, which he himself attended. He impressed upon the boys the necessity of availing themselves of every opportunity offered them to acquire knowledge.

A Successful Year.

The report of Rev. Mr. Hibbard was then read, after which the prizes were presented. In his report the head master said in part:

"The general work of the school has been satisfactory."

"In athletics we had about an average year. We secured only second place in the interscholastic meet. This event was held for the second time in succession on our grounds, and though the events were not nearly so good as last year yet we had a very successful and pleasant meet."

"Our Cadet Corps was inspected on June 10 by Major Outbly, who commended its work very highly and congratulated the officers on the efficiency displayed by the corps in marching and drill. Owing to unfavorable weather we were only able to send two shooting teams to practice on the St. John rifle ranges. We expect, nevertheless, to send a team to Sussex in August to compete for the cadet trophy."

Plans for Future.

"This year we are launching out again in the building line and by the opening of next term we expect to have completed new and greatly improved kitchen and offices, together with considerable available space, as the new addition will be half a story higher than the old one, which it replaces; also early in January we expect to have finished a large extension replacing the old wing of the North House, giving us space for 22 more boys. The whole North House will be considerably remodelled and we shall have a much larger reading room and library, while the domestic arrangements will be brought thoroughly up-to-date. All this, with the painting of all the buildings, will cost in the neighborhood of \$15,000."

"It seems to me, therefore, that we might rightly expect a little more active support from the immediate community."

"Our clientele is rapidly growing, and I have no doubt that with the advantages we have here to offer, we could eventually fill the vacancies which will be created by our addition even without the support of this community, but at the same time that is not altogether what we want to do, because we want to make this school of more benefit to New Brunswick."

"It seems to me that here indeed we have a goodly heritage, if we can only take full advantage of what nature has

endowed us with. Hence, we can make this school one of the largest and best in the whole Dominion."

The prizes were then presented, after which refreshments were served on the lawn.

In the evening the final closing was held when a dance was given in the school hall by the students. A large number was present and enjoyed a well chosen programme of dances. Light refreshments were served during the evening.

BIGGEST VESSEL AFLOAT

New York, June 19.—The steamship Emperor, the biggest ship afloat, bathed her keel in the Hudson the first time today. With pennants flying from bow to stern, her playing lively airs, and river traffic following a hoarse salute, the giant of the seas was warped into pier at Hoboken by a fleet of tugboats. Thousands of persons saw her start on her maiden voyage at low tide. The Emperor reached quarantine on her maiden voyage at low tide night, and anchored there till to a floating city, with many twinkling lights. She brought with her 3,000 passengers, although she had accommodations for 5,000. Her displacement is 50,000 tons, her length 450 feet, her beam 66 feet, her height 100 feet, her cost \$6,500,000, and her average speed across the Atlantic knots an hour. She left Cherbourg June 12.

So great is her height, compared with other craft, that it was necessary to remove a portion of the roof of the pier before she could get alongside.

ELEVEN HOURS IN OPEN BOAT

Charlottetown, P. E. I., June 19.—Eleven hours in an open boat with food and insufficiently clad, was the experience of Capt. Walter Dalrymple and his crew—Francis Mackenzie and Joseph Spencer, of North Sydney—after they left their schooner, Francis Robert, twenty miles east of Point, just before she was about to sink on Tuesday. They landed Basin Head early yesterday morning, almost exhausted. They sailed from Glace Bay, C. B., on the sixth of June, for Carleton Place, with a cargo of coal. On the 17th, about 7 o'clock a. m., when 50 miles north-northeast of Point, P. E. I., the vessel sprung a leak. All hands were ordered to pumps. They tried to reach Southport, the nearest port, but on Tuesday about 2:35 p. m., when within two
