London, Sunday, June 1.—(Corre-
spondence of the Associated Press.)—
For four months Sidney Meredith, an
attractive musician of twenty-two,
dressed like a prince and threw money
to the winds in fashionable hotels on
the \$2,000 to \$2,500 a week he ac-
quired through the daring theft of
automobiles in London. He finally
came to grief, however, and has been
sentenced to three years' imprison-
ment.

Meredith has a thorough driving
knowledge of cars, and this, together
with his appearance, was his stock-in-
trade. He would not attract atten-
tion as he climbed into a big car
standing in front of club or hotel and
drove away, and he confined himself
largely to this method. He confessed,
the police say, to stealing thirty ma-
chines in the four months he oper-
ated.

Meredith is credited with saying he
sold each car quickly to a syndicate
of wealthy men who, he believes, offer
made from 400 to 700 per cent. profit
after repainting the machines and
otherwise changing their identity.

The entertainment given by the

presented the "Gypsies' Festival."
The cast for "Rosemary" was:

Medicine Man of Local Government

Was Called on by Mrs. H.
Hornbeam Yesterday—
Says He Could Do a Lot if
He Had That Mysterious
Million.

"I saw the Medicine Man of the
local government," said Mrs. H. Horn-
beam, "and I asked him what he knew
about that mysterious million."
"A million! What couldn't I do
with a million," said he. "I had great
ideas, immense plans for the people."
"I know it," said I. "But you've
made a great mistake. Talking about
you to Hiram I've often said, now
I know how you feel. But they got
your goat, Doctor, and made you Min-
ister of Health, and tied your hands
with red tape, so that you have to
creep before you walk. And mean-
time, I ask you where are all your
roads of Health, and what you have
made you a minister you have had to
keep quiet about them, and content
yourself with publishing those pathetic
little booklets which tell us the sad
and moving stories of the lives of
microbes. If you had only remained
a bold free lance, how you might have
ministered to the public weal."
"Great reforms should never put
their necks in the noose of office. Think of it. Here's the government
has a million and nobody knows what
they are going to do with it—and you
only allowed a paltry ten thousand to
save us all from the dread enemies of
disease, death and starvation. Sad
saw how my pay when I think of it.
It. It were sure Mr. Veniot would
spend that million it wouldn't be as
bad. You'd have the consolation of
knowing that something was being
done for the public health, and being
else is good for the health, and travel-
ling Mr. Veniot's permanent roads is
said to be the finest exercise available
for the good people of this province.
But that million, I am told, is for tem-
porary purposes, and Mr. Veniot only
spends money for permanent purposes,
and the only temporary purposes pos-
sessed by the government that any-
body knows about is to have another
investigation into the question be-
tween the N. B. Power Company and
the city of St. John. I don't know
whether that will cost a million, but I
suppose the Premier figures it may do
so before it is finally decided. I don't
know, but I don't suppose he's worrying
about a few dollars more or less, as
he calculates to make the city and the
power company a good deal of money.
I suppose, thinking that neither of these
bodies know how to spend money,
which so far as the commission form
of government is concerned, he may be
right. Because an unqualified spender
like Mr. Veniot couldn't learn much
about spending money on permanent
purposes. He would be going on in
St. John. Nevertheless you, Mr. King,
of Health ought to have money enough
to buy a postage stamp to mail a let-
ter to inform the commission form of
government that the way corporations
would be a popular sight upon the
dusty streets."

THE FIGHT THAT FAILED.

Two young chaps, one slightly taller
than the other, were busily engaged
in a miniature Willard and Dempsey
argument along the King street
Square bandstand yesterday afternoon,
when they were forcibly interrupted
by a middle-aged lady, who took the
part of a peace conference of the
kind. The lady, who was all "set" to
propose the knock-out punch, took the
interruption good-naturedly and sauntered
off for other material.

RED SHIELD ENTERTAINMENT.

What is known as the "In-Gathering"
of the Salvation Army, Red Shield
band work was held last night at the
Citadel, Charlotte street, under the
direction of Brigadier and Mrs.
Edwards. The band, which was com-
posed of the members of the
division, which embraces the
Fundy coast of Nova Scotia, Prince
Edward Island and New Brunswick,
were announced on the scene, with
pictures of the commanders of each
corps.

FAIRVILLE IMPROVEMENT LEAGUE.

The officers of the Fairville Improve-
ment League have approached Com-
missioner Bullock in the matter of a
longer lease for "Firemen's Park" than
one year, and it is understood the
commissioner is favorable to giving
this lot to the park as a playground.

tions. The bonds are twenty year

ture in the course to the St. John men
yesterday afternoon. Later it is in-
tended to hold competitions with other
classes.

was given a trial trip around Par-
tridge Island yesterday morning and

up.

World's Record Is Broken By Tanlac

Bottles Sold in Four Years
Would Form Track of Tan-
lac That Would Reach from
New York to Denver, Colo.

This is an age of big business, and
although the public has become ac-
customed to big figures, the story of
the marvelous growth and develop-
ment of Tanlac forms one of the most
interesting chapters of America's lat-
ter day commercial history.
Four years ago very few people had
ever heard of Tanlac. Today it un-
questionably has the largest sale of
any medicine in the world. In the
brief period of only four years' time
this now famous remedy has leaped
from obscurity to the very pinnacle
of success. Its fame, in fact, has long
since spread beyond the limits of the
continent, and numerous inquiries re-
garding it are now being received
from many foreign countries.
Very few people, however, fully re-
alize what a really wonderful record
Tanlac has made. Indeed, if it were
not for the unquestionable facts and
figures given out by the largest and
best known drug firms of the country
the story of its success would be hard
to believe.

Up to January first, the total sales
of Tanlac amounted to approximately
twelve million bottles. The demand
however, is increasing, for during the
first ten weeks of this year over one
million bottles were sold and distrib-
uted in the United States and Canada,
the exact figure being 1,306,186 in
three months.

At this rate, therefore, the sales
for the present year will amount to
more than five million bottles. This
means that the 17,000 bottles of Tanlac
will be sold during every day of the
year, or 2,100 bottles for every hour
of the average working day.

These figures are too stupendous for
the average mind to grasp, but one
may visualize what twelve million
bottles means by imagining them laid
out in a single file end to end. This
line would make a track of Tanlac
from New York to Chicago, and
on to Denver, Colorado; or they would
form a double track of Tanlac from
the Gulf of Mexico to the Gulf of
California, and on and on they would
tower 135 times as high as Pike's
Peak, or rise 13,333 times higher
than the Woolworth building in New
York, the tallest building in the world.
The demand for Tanlac has become
so great that its sales instead of be-
ing measured by the gross as other
drugs are, are now being measured by
the net. The well known drug firm of
H. C. Pined and Co. of St. John, who
sell the most famous of Tanlac, have
sold more than 180,000 bottles at re-
tail, which surpasses the remarkable
record of the Jacobs Pharmacy
Company of Atlantic City, who have sold
approximately 80,000 bottles at retail.
These enormous sales mean but one
thing, and that is—Merit.

Tanlac is widely advertised. It is
true, but such an unprecedented and
rapidly growing demand could not be
brought about by advertising alone.
One bottle is at hand in a neighborhood
throughout advertising, but ten more
bottles are sold in that community
after the first bottle produces re-
sults. People are always willing to
talk about their ailments, but they
are more than willing to tell others
of the medicine that helps them.

Tanlac is composed of the most
beneficial and health giving ingredi-
ents. It is a formula of science
combined with all national and state
pure food and health laws of both
the United States and Canada; and abso-
lutely reliable, and it is responsible
for its phenomenal and un-
precedented success.

Tanlac is sold in St. John by Ross
Drug Co., and F. W. Munro, who have
the personal direction of a special Tanlac
representative—Advt.

EXCITEMENT ON THE GOVERNOR CARLETON

While on Voyage in the Bay
Yesterday What Was
Thought to be Conning
Tower of U-Boat Proved a
Floating Beer Barrel.

"Ahoy, Ahoy! On deck there."
The cry came from the foretop of
the good ship Governor Carleton as
she ploughed the weary waves yester-
day morning, bearing the city fathers
on a voyage of exploration around
the rockbound coast of Partridge
Island.

"Where away?" was the stentorian
shout from the flying bridge.
Three points on the weather bow.
There she rolls!" the cry came.
"What do you make it?" roared the
stentorian voice.

"It looks like the sea serpent," hailed
the lookout. "No sir, I think it's
a submarine."
Turning her brave bows towards
the object of these remarks the good
ship put her best foot forward, and
sped on her way, the city fathers
in the rear, if so it should prove.
Meantime the city fathers had as-
sembled in solemn conclave on the
wind-swept decks determined to wait
and see what was going to happen.

"Look out," cried the lookout in a
voice of alarm, as he rolled the chew
of tobacco to his laboured cheek.
A sudden excitement pervaded the
gallant ship. All hands perceived
the underside commotion of two shapes
rushing beneath the waves towards the
ship, trembling as her propellers thrust
like mad. Swift and straight the
came on.

"By George," said Mr. George Waring,
the genial superintendent, as he
stood shoulder to shoulder with the
devoted captain, facing the onrush
of those sinister shapes coming
through the sea.

If they strike us what will hap-
pen?"
While they pondered upon this lost
in thought the captain executed a
masterly manoeuvre, and the good
ship, which groined with the sudden
strain put upon her rails as the city
fathers leaned over to watch more
closely the sinister shapes speering
towards them. That skillful man-
oeuvre brought the ship out of the
way of being hit, and all hands
breathed a sigh of relief as the two
perplexed spees by chasing some fish
in the sea that apparently appealed
to their appetites.

By that time the good ship had
drawn near to the spot, where the
lookout thought he had seen a U-boat
in demiplunge, showing her conning
tower above the waves.

"What do you make it now?" hailed
the deck.
"It's a beer barrel—no, it's a whisky
barrel," cried the lookout.

And the good ship turned back to
John with the city fathers well
pleased to have escaped so easily
from the adventure, and all the tarry
handed sailors who accompanied
them telling yarns of their adventures
of other days, recalled by the sight of
a whiskey barrel bobbing forlornly
upon the desolate sea.

VON BERNHARDI IN DEFENCE OF EX-KAISER

Says His Only Guilt Was in
Not Beginning the War
Early Enough.

Berlin, Saturday, May 17.—(Corre-
spondence of the Associated Press.)—
General Friedrich von Bernhardi, the
military "warrior" of the Kaiser,
Kaiser Wilhelm and Responsibility
for the War," declares that the former
Emperor's only guilt was in not begin-
ning the war early enough, when his
opponents were not equipped. He says
of the Kaiser:
"To the last moment he believed
Russia would surrender its imperial
intentions, and England would not
take part in the fighting. In this belief
he negotiated to that end and only
with difficulty could be induced to take
up the game which had been thrown
down to him."
General von Bernhardi admits, how-
ever, that certain personalities influ-
enced the Kaiser's assumption of the
game.

DETROIT SEEKS

REMEDY FOR ITS
CITY TROUBLES

Municipal Ownership Viewed
as Only Solution of Long
Standing Traction Trouble.

Detroit, Mich., June 9.—Municipal
ownership is Mayor Cousin's solution
of the long standing controversy with
the Detroit United Railway Company,

which reached its climax late Satur-
day night in a strike of carmen who
had been refused wage increases be-
cause the city would not permit the
company to make a charge for trans-
fers in addition to a flat five cent fare
on all city lines.

With the complete tie-up of all
services continuing today Mayor
Cousin's asked the city council to
ask a special election, within twenty
days, and submit a proposal to bond
the city for \$10,000,000 with which to
build a municipally owned traction
system.

The council will act on the request
tomorrow night.
