Miss Wigmore To Sail
For China March 10

Has Accepted Responsible Position as Librarian With Rockefeller Foundation.

Miss Ethel G. Wigmore, daughter of Hon. R. W. Wigmore, Minister of Customs, will sail on March 10 for Peking, China, where she has accepted an important appointment as librarian with the Rockefeller Foundation.

Miss Wigmore, who graduated from Acadia University in 1914, took a course in library science at Simmons University and afterwards went to the University of Chicago.

She was afterwards attached to the library of the State University of Maine and later went to New York and Washington, where she engaged in research work for the Rockefeller Foundation. Miss Wigmore will go to Ottawa in a few days and spend some time with her parents before sailing for China.

Another noted Canadian, Dr. A. R. MacCallum, formerly administrative chairman of the honorary and advisory council for scientific and industrial research, will also sail for China at the same time to engage in chemical research for the Rockefeller Foundation.

Measuring Spoon.
Inside the lid of a new food container is hinged a measuring spoon which brings out a level spoonful of the contents of the device when the lid is removed.

Glass of Salts If
Your Kidneys Hurt

Eat less meat if you feel Back-
achy or have Bladder
trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poisons, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, begin to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste eat about four ounces of Jod Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then filter fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jod Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus averting serious kidney and bladder diseases.

Interesting Talk
On New Republic

Rev. Hunter Boyd Delightful-
ly Entertained and Instructed
at the Peace Conference.

The Rev. T. Hunter Boyd delivered an interesting lecture before a large audience in the First Presbyterian church last evening. The speaker, who is of the overseas department of the Presbyterian church in Canada, spoke of the new Republic of Europe and their aspirations, or the ancient homes of our new Canadians. He paid particular attention to Bohemia, and illustrated his lecture by many maps that had been prepared for the Peace Conference.

The interest the English had in Bohemia dated as far back, he said, as the marriage of Richard the Second, with Anne of Bohemia, and had never since been lost. The Bohemians, he said, under their new form of government were fully justifying the confidence placed in them by the delegates at the Peace Conference.

Moncton Ladies
Defeat Sussex

Beavers of Railway Town
Won from Sussex Blue
Birds by Score of 3 to 1.

Special to The Standard.
Sussex, N. B., Feb. 22.—The Beavers ladies' hockey team of Moncton defeated the Blue Birds ladies' hockey team of Sussex at the rink here to-night by a score of 3 to 1.

The ladies of both teams put up a good brand of hockey and the game was fast and interesting. There was a good attendance of fans and at times excitement ran high. The line-up was as follows: Beavers Goal A. Stevens; Blanche Berry Point M. Legere; Julia Keith C. Poth; Sarah Perkins C. Poth; E. Legere; Centre M. Walker; Adeline Keith L. Wing; P. Samson R. Wing; R. Hopey; L. Legere; Blue Birds spaces—Miss Harrison; Miss Waltham; Mrs. Jones and Mrs. Vickers. Beavers, scorers—B. McLeod, L. McLeod and Mrs. Bell.

The score by periods: First, Beavers, 1; Blue Birds 0. Second, Beavers, 2; Blue Birds 1. Third, Beavers, 1; Blue Birds 0. Referee John Leclair.

HOLY WAR DECLARED

London, Feb. 22.—A wireless message from Berlin says that according to Sains reports the Montenegrins have declared a holy war against the Serbians. Two Serbian regiments have occupied Cetinje, Montenegro, and the situation is grave, the message says.

Fun For Women
To Diamond Dye

Old, Faded Garments, Draper-
ies, Everything Made New
for Few Cents.

St. John women can do wonders with a package of Diamond Dyes. An old, worn coat, skirt, waist, sweater, kimono, dress or faded stockings, gloves, draperies, portieres, chair covers—anything, whether wool, silk, linen, cotton or mixed goods, can be diamond-dyed to look like new. Easy directions in each package guarantee perfect results. Druggist has Color Card showing actual materials diamond-dyed in a wondrous range of rich, fadeless colors. Don't risk your material in a poor dye.

I. O. D. E. SCHOLARSHIPS.

The Imperial Order Daughters of the Empire is offering in every Province in Canada a University Scholarship worth \$250.00 a year for four years to the children of deceased or permanently disabled soldiers, sailors or airmen.

The holder may attend any Canadian University. Competitors in New Brunswick must stand the Provincial Examinations for Matriculation at the University of New Brunswick, held in June.

Applications should be made before April 1st to the I. O. D. E. Educational Secretary for New Brunswick. Apply to—Mrs. Barton C. Foster, Educ. Secy., I. O. D. E., 253 Church St., Fredericton, N. B.

In an emergency, a rubber bathing cap will make an excellent ice hat. Close the opening with a rubber band.

CORN

Lift Off with Fingers

Telling of the resources of Labrador, Dr. Padden pointed out that Dr. A. P. Lowe had surveyed the country from an economic and industrial standpoint and had found iron ore, near almost limitless water power. There are wonderful possibilities in the raising of reindeer and judging by what has been done in Alaska the same opportunities exist in Labrador and could be developed. "It has been called a God forsaken wilderness," the speaker remarked, "but I call it a heaven-sent grazing ground." The timber supply also could be largely developed as there are immense tracts of land containing 80 per cent of black spruce.

There are about two score white families. One trapper recited some \$8,000 in one winter and while that was exceptional, from \$3,000 to \$6,000 is not unusual. The Indians and half breeds support themselves on game and fish, but rarely can lay by any surplus. At present the Eskimos are derelictly poor. There are wonderful possibilities in the raising of reindeer and judging by what has been done in Alaska the same opportunities exist in Labrador and could be developed. "It has been called a God forsaken wilderness," the speaker remarked, "but I call it a heaven-sent grazing ground." Dr. Grenfell And His
Labrador Work

Most Interesting and Vivid
Description Given by Dr.
H. L. Padden.

That the work of the Grenfell Mission had been well worth while was felt by those listening to the account given by Dr. H. L. Padden who, in a vivid way, described life in Labrador and showed by a series of excellent pictures the country and the kind of people who have benefited from the social service done by Dr. Grenfell and his helpers. Trinity school room was filled to the doors last evening and much interest was shown by the large audience in the future of Labrador as a land of great resources and opportunity. Dr. Murray MacLaren presided and introduced the speaker as a "comrade of Dr. Grenfell who is greatly admired in St. John."

Dr. Grenfell's Work.
Dr. Padden, who is a delightfully frank speaker and has been nine years in the work, gave a short history of Dr. Grenfell and the fine pioneer work which he has done in Labrador where he has preached the Gospel, healed the sick and cared for the orphans. The co-operation of the medical service to religion has been exemplified, and Dr. Padden pointed out that Dr. Grenfell was one of the first to see that no form of clean social service can be excluded from a programme of Christian service.

In describing the people of Labrador, Dr. Padden said that there are some Canadian subjects, some Newfoundlander, and two native races, the Eskimos and Indians. Moravian missionaries have for some one hundred and forty years taught the Eskimos. The Indians and Eskimos never mingle, their ways of life are entirely different.

Labrador's Resources.

Telling of the resources of Labrador, Dr. Padden pointed out that Dr. A. P. Lowe had surveyed the country from an economic and industrial standpoint and had found iron ore, near almost limitless water power. There are wonderful possibilities in the raising of reindeer and judging by what has been done in Alaska the same opportunities exist in Labrador and could be developed. "It has been called a God forsaken wilderness," the speaker remarked, "but I call it a heaven-sent grazing ground." THE HOSPITAL NEEDS

February 21, 1921.
To the Editor of The Standard:
The publication of a recent newspaper article entitled a "Sensible View of Hospital Problem" has impressed the staff of the hospital with the necessity of presenting to the public certain facts in regard to the hospital situation.

In the first place, as a general proposition, certain things should be kept in mind. In the construction or extension of a hospital, as in any construction of an industrial plant, accommodation for yearly increase of business cannot be added from year to year. The probable requirements for a period of years must be considered and provided for. The increasing use of hospitals by all classes of the public is one of the phases of our modern life. It is a question of efficiency and very often of economy. The advent of the modern flat and the edict of domestic help are social factors which will certainly enlarge this use, quite apart from the medical aspect of the question.

There are certain details of hospital administration which are apt to escape the notice of the layman. Absolute cleanliness is the first principle of good hospital administration. But hospital house-cleaning cannot be done dwelling at a time and manner to suit the convenience of the occupant. Bed patients cannot be turned out into the halls and corridors as a housewife does furniture. There should be a percentage of empty beds practically at all times to allow for this necessity. It is impossible to keep a hospital, crowded as ours, clean and sanitary.

It is obvious that the bed accommodation must be divided into at least three classes—male, female and children. These classes cannot be mixed together in units of accommodation. At any given moment one or two of these departments may show a considerable margin of empty beds, whilst the third might be at many beds short of the demand. It is common practice in hospitals to keep in each department emergency beds, which stand empty and made up ready to receive cases at a moment's notice. To fill these beds with cases that are not classified as emergencies is not permitted as ours, clean and sanitary.

A desire on the part of all connected with the hospital to do better by the children's department than we have been able to do in the past has suggested that a new children's department be included in new construction. These four things constitute the proposed new unit.

(Signed) The Attending Staff,
General Public Hospital,
J. H. ALLINGHAM, Secy.

The Morning After
The Big Night

The Wise Precaution of a Stuart's Dyspepsia Tablet After the Banquet Brings Pleasant Memories With the Morning Coffee.

If it hadn't been for Stuart's Dyspepsia Tablets like as not I'd have a headache this morning.

If you ever feel distressed after eating, be sure to take a Stuart's Dyspepsia Tablet. For no matter what you eat there will be no gas, no sour risings, no lump in your throat, no bloating, no dark brown taste in the morning. And should you now be troubled, eat a tablet as soon as possible and relief will come promptly. These tablets, correct at once the faults of a weak or overworked stomach, they do the work while the stomach rests and recovers itself. Particularly effective are they for languid and those whose environment brings them in contact with the rich food most apt to cause stomach derangement. Relief in these cases always brings the glad smile. Get a box of Stuart's Dyspepsia Tablets, 60 cents, in any drug store. Be good to your stomach.

TO BE DYSPEPTIC
IS TO BE MISERABLE

The poor dyspeptic suffers agony after every meal, and as one who has dyspepsia knows what it is, it would give to eat three square meals a day and not be punished for it. Nearly everything that enters the weak stomach acts as an irritant and even the little that is eaten causes such torture and is digested so imperfectly that it does little good.

Before you can eat heartily, you must put your stomach into such a condition that it will manufacture its own digestive ferments.

For over forty years Burdock Blood Bitters has been tending up and restoring weak stomachs to a normal healthy condition, so that the food no longer causes distress, but is thoroughly digested and assimilated, and enables one to partake of all the wholesome food required without fear of any unpleasant after effects.

Mrs. Alice Beckwith, Fredericton, Ont., writes: "I have been a great sufferer from indigestion and dyspepsia for several years. I could not eat anything without almost dying from the pain in the pit of my stomach. Seeing Burdock Blood Bitters highly recommended, I tried a bottle, and can gladly say it relieved me. I can eat anything now, and am in perfect health."

B. B. B. is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

If you ever feel distressed after eating, be sure to take a Stuart's Dyspepsia Tablet. For no matter what you eat there will be no gas, no sour risings, no lump in your throat, no bloating, no dark brown taste in the morning. And should you now be troubled, eat a tablet as soon as possible and relief will come promptly. These tablets, correct at once the faults of a weak or overworked stomach, they do the work while the stomach rests and recovers itself. Particularly effective are they for languid and those whose environment brings them in contact with the rich food most apt to cause stomach derangement. Relief in these cases always brings the glad smile. Get a box of Stuart's Dyspepsia Tablets, 60 cents, in any drug store. Be good to your stomach.

If it hadn't been for Stuart's Dyspepsia Tablets like as not I'd have a headache this morning.
