Sir: Would you be kind enough to give a small space in your journal concerning a statement I read in the Gazette last night about the opposition, asking Mr. Shaw, a city representative, to come out in the county against Surveyor General Dunn. Now, I would ask our noble and genial Dr. Stockton what is the reason that he would'nt face the county himself? As an old war horse, at his election in the county, it should not be possible to beat him. Now, I challenge him to come in the county against Dunn.
