(By An Old Soldier, in London Daily Mail.) The most common question asked in the street, train, or club, and especially at the front, is "How much longer will the war last?" Many people have an answer ready, and generally the wish is father to the thought. But does anyone really know within months how long the war will last? Lord Kitchener is credited, with what truth I know not, as having said that it would occupy three months or three years. His three months prophecy, which, of course, meant victory for the Kaiser, very, very nearly came true. Had it not been for the marvels wrought by the British army in the retreat from Mons and the improvising of an army in taxis from Paris three months would have decided the war in Germany's favor. There is only one that can tell to a day when the war will cease, and that is the Great Architect of the Universe, and He will keep His counsel, unless He has already informed us and we are too blind to interpret Him. I refer to the 13th chapter of the Revelation of St. John the Divine. If its exact length—namely, forty-two months—then all I can say is that the coincidences contained in it are extraordinary. The chapter begins, "I stood upon the sand of the sea, and saw a beast rise up out of the sea having seven heads and ten horns." Might this not be Germany, her recent advent as a big naval power being symbolized by her "rising out of
