J. A. Sexsmith Introduces a Resolution Favoring Proportional Representation.

OTTAWA, April 4.-By Canadian were 2,246 outrages. Eighty-eight policemen were killed, and 156 wounded, Press.-The House today discussed topics as widely apart as proportional while 44 soldiers were killed and 84 wounded. The total outrages for the whole year number 10,834. The police representation, the "humiliation" of a Canadian hospital in Montenegro, and indemnities to vicytims of the so-called killed totalled 243, and the wounded 3,810. The Montenegro incident was brought ip by Hon. Rodolphe Lemieux. It touched on the treatment accorded by Serpital mission in Montenegro, headed by Dr. F. W. E. Burnham of Winnipeg. The House was at one on the necessity of obtaining, respect for Canadian naionals in foreign countries. Hon. Mr. Lemieux urged that no Canadian Red Cross funds should be apportioned to Serbia until an apology has been made. "I am not a swashbuckling imperialist," exclaimed Col. C. W. Peck, V.C., "but the time has come to let the world know that the rights of Canadian citizens must be respected." Has No Objection.

The prime minister was not convinced that documentary evidence in the case ould warrant specific interference. But the Government had no objection to the production of correspondence However, if the need for redress were shown, then would be the time to act. It was well into the evening when the House reached proportional representation. J. A. Sexsmith, Peterboro East, had a resolution favoring "some system of proprtional representation" and providing for the appointment of a special committee to inquire into the different systems of proportional representation "with a view to recommend one of these for adoption," Mr. Sexsmith quoted many instances and authorities to show the value of proportialing the minister of justice said that It was well into the evening when the orities to show the value of propor- claim in this case must be on sympa tional representation. Hon. T. A. Crerar, leader of the National Progressives, and Levi Thomson tional Progressives, and Levi Thomson (Qu'Appelle), the Progressives' chief whip, both supported proportional representation. Hon. J. A. Calder, minister of immigration, had an amendment. He moved inclusion of the "single transferable vote" as well as proportional representation within the scope of the proposed committee's activities, and that the committee should inquire into the desirability of one or the other being adopted.

To Amend Act.

A bill to amend the railway act to bring boats, operating on inland waters, under the control of the railway com mission, was introduced by J. E. Armstrong (East Lambton) when the House opened this afternoon. Mr. Armstrong described his bill as a "hardy annual." The bill was given first reading. T. W. Caldwell (Victoria and Carleton) introduced a bill to amend the fertilizer act of 1909. This bill was not, he said, intended to make any impor-tant changes in the present act. Its intention was to compel manufacturer

bill was given first reading.

Assist Deportation.

Ernest Lapointe (Quebec East) secured first reading of a bill to amend the immigration act with respect to the deportation of undesirable persons. The bill was practically the same as the Government bill thrown out by the Senate in committee last session, and provides against the deportation of British subjects from Canada without trial by the ordinary courts.

Hon. H. S. Beland (Beauce) quoted Premier Meighen as having stated in Montreal that the Government, having taken over the Grand Trunk Railway, would give it a fair trial, and that if the Government, did not make a seven the Government did not make a success of it, someone else might. Dr. Beland asked if this foreshadowed handing over the National Railways to private ownership.

George Parent (Quebec West) moved a resolution advocating the payment of an indemnity to "the innocent victims who, during the so-called Quebec riots of 1918, have either been killed or wounded by the soldiers of his maliant."

wounded by the soldiers of his ma-jesty."

Mr. Parent said he brought the matmatter lightly. He read a number of letters from persons who were injured in the riots, and who claimed reparation for the injury done them.

Hard to Determine. Mr. Parent admitted that responsibility in the various cases had been difficult to determine. It was his sincereand honest opinion that every citizen would "chip in" and pay a little good Canadian money to indemnify those innocent Canadian victims who have suf-fered.

E. Lapointe (Quebec East) was heartly in accord with the resolution.

A similar view was expressed by P.

F. Casgrain (Charlevoix-Montmorency), who referred particularly to the case of one Tremblay, a technical school student, who had been wounded. His wound had not been mortal, but be-cause he had not been given medical attention immediately he suffered intensely and died the next day. The man had taken no direct part in the riot-

Nothing Was Done. Hon, H. S. Beland (Beauce) hoped and expected that after the matter of riots was brought up last session the Government would have investigated it but nothing had been done. The peac treaty aimed at relieving sufferers to some extent. The Quebec riots were a matter, however, from which the people of Canada were the only ones who could be called upon to indemnify the sufferers. Had the unfortunate outbreak occurred in another province he would have been just as ready to ask compensation for the sufferers.

Major C. P. Power (Quebec South) said some of the soldiers sent to Quebec at the time of the riots were raw recruits who had not handled rifles until ten minutes before they were sent on the streets. The newspapers of the country had published inflammatory reports with regard to the so-called riots, and these young recruits from outside points were probably affected. Surely the person or persons responsible for sending such men to Quebec should be willing to shoulder the blame.

Hocken Opposed. H. C. Hocken (Toronto West) said a pension for men who were on streets of Quebec when they had been warned by Gen. Lessard to keep off. Men who refused to be warned had no night to come to Parliament asking fo an indemnity. How could soldiers dis tinguish between these men and rioters? The people of Canada, outside of the Province of Quebec, had contrib-uted liberally to the winning of the war in men and money, but they should not be called upon to indemnify those who played the part of rebels at a time when the country needed loyal citizens. He felt that if an indemnity were granted to these people, the action of loyal citizens who had contributed their

Why You Should Buy a Brunswick

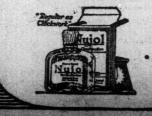

The Brunswick was the first and is still the only phonograph BUILT to play all makes of records, as the maker intended they should be played. This is accomplished by the invention of the "Double Ultona," which is a reproducer that combines the necessary features of the rpproducers used for different records—all in one—including proper point, balance, diaphragm and weight. A simple turn of the Ultona, without change or delay, converts the Brunswick from one system to another. It is a marvelous achievement.

Then, the acoustic qualities embodied in the Brunswick all-wood oval horn (which is the only all-wood oval phonograph horn) brings out all the delicate vibrations of tone that give music its real quality.

And the powerful Brunswick 4spring motor that runs 27 minutes
without winding, insures even running, less bother and much greater
durability, so when you buy a
Brunswick it is bought for all
time. Finally, the Brunswick cabinets are masterpieces of perfection.
In design, workmanship and finish
they are superb, for the Brunswick
Company has generations of experience behind them in woodworking craftsmanship, and unlimited timber resources for the
selection of perfect woods.
