

Dr. Thomas, because it may not be for sale as it came into my possession while I was living in North Dakota as a premium gift for a subscription to The Freeman, a paper published by the Haldeman-Julius Co of Girard Kansas. Dr. Thomas' essay is so good, and so masterly in his glances at Shakespeare, as a satirist, as a man of the world, and as a philosopher in Timon of Athens Hamlet, and The Tempest. I think the Freeman is banned by our Customs Department, as it may be said to be socialistic, but looks like "Weavers of words" should not be. This enlightening viewpoint of Shakespeare through the eyes of Thomas might be very helpful to the rest of us, when we again have the privilege of hearing you on the same subject. May I send it to you, I am sure you would be delighted.

Very sincerely yours

A. H. Mac Neil, M.A.
