ROCK SALT for horses and cattle, in tons and casks. **Travco Salt Works**, Toronto

certified milk, inspected milk, and pasteurized milk (heated to 160 degrees). Competent men should be employed to see that proper sanitary conditions are enforced. There should be bacteriological laboratories in the leading dairy districts. If advocated the use of paper milk bottles, and that all by-products should be pasteurized. There were many instances of tuberculosis in hogs caused by eating tuberculous germs in milk.

GOOD ROADS.

A new feature of the lecture course this year was a session devoted to good roads. Mr. D. Ward King, of Missouri, the inventor of the splitting drag, was present to advocate its claims.

Mr. A. W. Campbell, Deputy Minister of Public Works, Toronto, also advocated the claims of this simple road improving contrivance. He stated that in 153 townships in Ontario there was no statute labor. A lot of money had already been spent on roads, but we had not got the improvement we should. The whole problem was a question of drainage. Crown the road one inch per foot from the centre.

SHEDS.

An interesting session that was the morning of Dec. 11th, which was devoted to seed improvement. Addresses were given by Mr. J. M. McCallum, Shakespeare, T. G. Raynor, of the Seed Division, Ottawa, and Prof. C. A. Zavitz, Guelph. The last speaker gave some valuable information about the improvement of pastures, but as space is too limited in this issue, we will give his address in full in a later issue.

POULTRY.

How best to provide for and breed poultry was outlined in four interesting addresses given on the evening of Dec. 10th. Prof. W. H. Day, O.A.C.; L. H. Baldwin, Deer Park, Ont.; F. C. Pilford, Macdonald College, Ste. Anne de Bellevue, Que., and W. R. Graham, Poultry Manager, O.A.C., were the speakers. We have not space to deal with these in full here.

Winter Fair Pleasantries

The meetings held this year in connection with the Winter Fair were well attended. At the open meeting in the city hall, on the evening of Dec. 11th, the building was crowded to the doors. The Hon. Mr. Monteith presided. Addresses of welcome were presented by His Worship Mayor Newstead and Mr. J. P. Downey, M.P.P., and suitably responded to by Mr. Arthur Johnston, President of the Winter Fair, and Prof. G. E. Day. The addresses of the evening were made by Hon. A. J. Matheson, Provincial Treasurer, and Dr. Falconer, President of Toronto University. They both emphasized the need for higher standards of education in Ontario and better pay for the rural teacher. Captain T. E. Robson, London, Ont., acted as musical director in his usual skilful way.

The luncheons to exhibitors and those, tendered by the Guelph City Council for the three days of the show, were very enjoyable and added much to the interest and value of the show.

Shoot to Kill
