**ADVERTISE IN THE ADVOCATE**

**STOCK GOSSIP.**

In writing to advertisers please mention the Farmer's Advocate.

Mr. Thos. Russel, Riverside Farm, Exeter, Ont., writes us that he has sold to Mr. Peter Toles, Mt. Brydges, his prize-winning bull Nonsuch = 15200 =. He is a roan, calved Dec. 14th, 1890, and was sired by Riverside Hero = 12013 =, a noted prize winner, and has for dam Jane Grey = 9327 =. Jane Grey was awarded first prize at Toronto, London, Hamilton and South Huron as a three-year-old. Nonsuch was awarded second at London in 1892, and headed the herd that was awarded the gold medal at the same fair. Jane Grey is an extra good milker. He has also shipped Bracelet 6th = 18148 = to W. B. Cockburn, Esq., Aberfoyle. Bracelet 6th was awarded first prize at Toronto, 1892, and was bought with the expectation of being shown at the World's Fair. Sire by Grey Mariner = 12012 =; dam Bracelet 2 (imp.) = 2115 =.

Mr. W. J. Boynton, proprietor of Zumbra Valley Farm, a large stock ranch near Rochester, Minn., U. S. A., recently made extensive purchases of Shropshire sheep in Ontario, having secured five ewes from Mr. Telfer, Paris; twelve imported ewes and twenty-four ram lambs from Mr. Miller, Brougham; six ram lambs from Mr. Hamner, Mt. Vernon. He also secured the stock ram Royal Marquis from Mr. J. Smith, Paris. This ram has been used largely on Mr. Hamner's flock, and was the sire of many of his prize-winning lambs; he was afterwards sold to Mr. Smith, who used him in his flock. From Mr. W. S. Hawkshaw, Glanworth, he secured the largest number from any one owner. This flock consisted of 45 imported two and three-shear ewes, which were imported in the years 1890-91, from the best known English flocks, the greater number being from old Onibury flock of Messrs. F. Bach & Sons. They are mostly in lamb to Mr. Hawkshaw's celebrated ram Wool Merchant, and Mr. Boynton is to be congratulated upon having been able to obtain a flock which for uniformity of character and general excellence would, indeed, be hard to beat. Altogether the shipment numbers 97 head, and will be a chance to obtain choice blood which the farmers of Minnesota should not neglect.

Mr. Arthur Johnston, of Greenwood, Ont., writes this office as follows:—The farmers of Ontario, with whom I have wide acquaintance, are thinking very little indeed about the burning questions of annexation, federation, or independence—questions that burn principally, if not exclusively, in the breasts of struggling politicians, party hacks, and newspaper writers. They (the farmers) are, however, thinking very carefully and very anxiously about the best means of getting a good living out of our most excellent soil; and I believe the general conclusion reached by the most intelligent among them is that that living can best, and with greatest ease and comfort, be had by raising stock of the various improved breeds of live stock. The prevalent feeling among the cattle breeders is one of confidence and hopefulness. They are not enjoying a boom in any of the breeds, but just a steady and improving demand for the best individuals of all the breeds. The Greenwood herd is in fine form at the present time. It is larger than ever before and increasing weekly. The Indian Chiefs are coming fast and strong, and the very best of colors. The young bulls recently imported are now doing exceedingly well, though the recent cold weather was very trying on them. They are now all fit for a limited amount of service. They are big, healthy and vigorous fellows for their ages, though still only in moderate condition. The young cows and heifers have gone on remarkably well. Sunray, Minnosa and Rosalind are all due to calve in March to the Cruickshank bull Sittiny Yet. Send for catalogues.

Dr. J. Y. Ormsby, Manager Isaleigh Grange Farm, Danville, P. Q., in sending us a list of sales, writes that their stock has so far come through the winter in fine order. The Shropshires, which number over one hundred head, are looking especially well; and there is every hope of a fine crop of lambs, the two stock winners principally used having been the Royal winner St. Ledger, whose cut appeared in the December number of the ADVOCATE, and a grand shearling; the other one, bred by Mr. Geo. Thomson, of Wroxall, and the highly commended and reserve number at the Shropshire and West Midland Show. This sheep was pronounced by that eminent judge, Mr. T. J. Mansel, one of the best shearlings of the year. We would call our readers' attention to the change in the Isaleigh Farm's advertisement. Sales during the past four months:—Guernseys—To A. Guy Goodacre, Grand Pre, N. S., the bull calf "Isaleigh Prince." Mr. Goodacre writes us that this calf far exceeded his expectations, he having purchased by letter. Shropshires—To W. H. Webber, Lakelet, Ont., an imp. ram lamb, which weighed in ordinary store condition 150 lbs. at 10 months old. Yorkshires—Wilfred Quimet, Ste. Rose, P. Q., one boar, 6 months old; T. C. Douglass, Galt, Ont., one sow in pig; A. Brown, Bethel, Ont., one boar, 6 months old; H. Gagnon, Danville, P. Q., one boar and one sow; Alex. Ames, Sherbrooke, P. Q., one boar; C. McDougall, Sherbrooke, P. Q., two sows; A. P. Hillhouse, Knowlton, P. Q., one pair; J. & P. Krauss, Frelighsburg, P. Q., one boar; P. H. Dumais, Chambord, P. Q., four boars and one sow; J. H. Taylor, Richmond, P. Q., one sow; C. H. McNish, Lynn, Ont., two sows; Geo. Westman, Marbleton, P. Q., one boar; Chas. Bennett, Danville, P. Q., one sow.

**NOTICES.**

**THE LINCOLN PEAR.**

Extract from ad-interim report by A. C. Hammond, Secretary of Illinois State Horticultural Society:—At Lincoln, Ill., the Lincoln Pear was inspected under the leadership of W. E. Jones, the propagator and discoverer of its merits. The original tree is still standing, grown from seed planted in 1835; it is as fine a specimen of pear tree as the writer ever saw; about 40 feet high, and, though nearly 60 years old, is vigorous and healthy, and this season made a fine growth; has never failed of a crop. Another tree 15 or 20 years old, but closely crowded with other fruit trees that it only made a moderate growth, was carrying 7 or 8 bushels of fine looking fruit, while other trees of popular varieties bore only a few specimens.
