

Lost Five Children With DIARRHOEA

Saved the Sixth One With DR. FOWLER'S Extract of Wild Strawberry.

Mrs. John Firth, Craighurst, Ont., writes:—"I have had six children and lost them all but one. When young they would get Diarrhoea and nothing would stop it.

As I lived in a backward place, I did not know of Dr. Fowler's Extract of Wild Strawberry.

I saved my last child, who is now eight years old, but I owe it to Dr. Fowler's Extract of Wild Strawberry. Had I known about it before I feel that I would have saved the others. I shall forever praise and bless it and will never be without it again."

"Dr. Fowler's" has been on the market for over sixty-five years, and has a "world wide" reputation for curing all Bowel Complaints.

Do not be imposed upon by any unscrupulous dealer who wishes to substitute the so-called Strawberry Compounds for "Dr. Fowler's." Price 35 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Little Boy (anxious to get even). No, sir, it's for mother.

GOSSIP.

GETTING MAGAZINE FACTS RIGHT.

Important articles in magazines of the type of the "American," "Collier's," "McClure's," and "Everybody's," like plays, are rewritten rather than written. To begin with, there must be the idea, then to find the man or woman best able to embody it. That settled, the author must steep himself in his subject. When he acquires mastery, his findings are written down and submitted to the editor. This may take months; it often requires years.

It has happened that the editor did not know what he wanted until he read this first draft. Now he has the subject spread before him by an authority. His associates all read it and criticize. Sometimes that first draft is flawless, but most often it is returned to the author with direction for reconstruction. The process may be repeated half a dozen times. Finally the manuscript is satisfactory, which means that it is valuable, simply expressed, and readable. It is in shape for publication. It is put into type and sent around to outside experts who are the representative authorities on the subject.

In these days, a magazine can afford to have its conclusions disputed, but its facts must be incontrovertible. Perhaps the trouble the big publications take to be right—and that means square and just, as well as accurate—explains such prestige and influence as they now enjoy in America.—Everybody's Magazine.

CLOSING FEATURES OF THE ROYAL SHOW.

(Our English correspondence.)

The last two days of the Royal Show—the popular shilling days—were harassed by rain and mud, but in spite of the handicaps, about 40,000 people paid for admission on each day. All hope of breaking Newcastle's wonderful attendance record was abandoned, but the total attendance for the five days reached the excellent figure of 137,812. It is satisfactory to note that the society will have a profit on the show of about £6,000 or £7,000.

The finest feature of the last day was the parade of 200 heavy draft horses in years. Liverpool has long been proud of her magnificent heavy horses, and rightly so. A well-known judge remarked as the horses passed: "I did not believe the country contained so many team horses of such average high value. I would not hesitate to pay \$100 each for the first eighty which I could select as they passed."

The Liverpool corporation and Messrs. Jarvis carried off the first honors. There was a close contest for the "Venture" Challenge Cup, for best tandem, and some pretty driving was seen. Miss Dora Schmitz, of Liverpool, was the winner with her grand chestnuts, "Catalina" and "Morocco." Another good competition was for the "Viking" Challenge Cup, for best pair of harness mares or geldings. John Kerr's bays, "Loudwater Diana Vernon" and "Loudwater Rob Roy," were the winners.

Some capital prizes were paid for bulls at the auction sale during the show. Many foreign buyers were present, and bidding was keen for anything of high quality. The highest price was 1,050 guineas, for Lord Middleton's roan Shorthorn, "Birdsall Crusius," second in his class. He was bought by Mr. Rodgers for South America. The same buyer also bought Lord Middleton's "Birdsall Claudius" for 450 guineas, and paid 150 guineas, 400 guineas and 305 guineas, respectively, for three bulls offered by Messrs. Garne.

An offer was made for the champion bull of the show, "Duke of Kingston 2nd," but the owner would not sell, though the offer was a high one.

Some good prices were attained at the sheep sale. The highest was £235 5s., paid by Mr. Chadler, for a two-shear Shropshire ram, from T. S. Minton's flock. Mr. Harding, of L. S. A., paid £210 for a Shropshire two-shear ram, from L. A. Bodnar's flock.

At the fat sale, the best prize was £50, for a large black boar, from New Zealand.

The Full Percentage of Cream

Getting the full percentage of cream from milk depends as much upon the oil used to lubricate the separator as upon the separator itself. Gummy oil will cut the fine bearings of your machine, spoil its balance and waste good cream in the skim-milk pail.

STANDARD Hand Separator Oil

never gums, never rusts, never corrodes. It feeds freely into the closest bearings and insures the perfect lubrication that is essential to the free spinning of the bowl and the complete separation of cream from milk. It lessens the driving effort and lengthens the life of your separator.

One gallon cans. All dealers. Or write to

The Imperial Oil Company, Limited
Ontario Agents: The Queen City Oil Co., Ltd.
