ELEMENTARY GEOGRAPHY.

for use in the Maritime Provinces, has been prepared to supply a want long felt in the Schools of this part of the Dominion. It is now an established principle that children should be taught the geography of their own country minutely, and a special effort has been made to bring such information within the reach of each school district at the lowest possible rate. The geography of the Dominion of Canada is given in detail, and a number of lessons on other countries have been added, so as to make the book com-lete as a geography of the world.
