the dining saloon and half way out on
the deck. His head was in the saloon.

asked him if he was hurt. He did

I asked him if he was hurt. He did not answer. I took hold and hauled him out of the fire. When I got him out on the deck he jumped to his feet and said "My coat and vest are just inside the door." He opened the saloon door but could not get in on account of the smoks and flames. I then went to the side of the boat and Captain Mabee helped me off the burning steamer. I asked the captain to help Mrs. Chase down."

To Mr. Cole, juryman—"The fire seemed to be coming from where the hay was stored.

before I helped Mr. Belyea. I did not bear Captain Perry utter a single call. The fire at this time was quite well

capt. Mabee of the Crystal Stream was the next witness called. He described his duties as captain and told of making his usual round before going to hed. He then described how the

boat was thoroughly equipped with every facility for fighting fire. He re-tired about 9.30 and woke up about

12.30 hearing the cries of fire. When he woke up he saw a stream of flame shoot up by his window. He then told of assisting the mate, purser and Mrs. Coleman ashere. There was practically the Crief and the control of the control of the control of the crief that the control of the control of

Daniel Sparks, a millman of Alfred West, was then called. He told of his assistance in helping Mrs. Chase

ashore. John West gave practically

some rather damaging charges at the inquest at Cole's Island yesterday, reached Indiantown yesterday afternoon and was interviewed by a Sun reporter. Referring to the story told by Mrs. Coleman he said, "It is a false, malicious lie." Captain Perry further stated that he had never made any threats against the steamer Crystal Stream, and had been on good terms, so far as he was concerned, with all the crew of the ill-fated steamer. So far as his own boat, the Aberdeen, was concerned, Captain Perry had never heard any talk on board or seen anything that might be regarded as a threat against the Crystal Stream that she would not run all summer.

"After the disaster had happened," COLE'S ISLAND, Queens Co., June 25.—The inquest into the fire which destroyed the steamer Crystal Stream last week was resumed this morning.

After several witnesses had been heard the inquest was adjourned until July 9th at six o'clock to hear the evid.

mes of Mate McAlary.

Mrs. May Coleman, cook on the illated steamer, was the first witness in the stand. She remembered being in the Crystal Stream on the night of "After the disaster had happened," he said, "and at the time, I did all I could to help the unfortunate crew, and everybody knows it. I regard the insinuations made in Mrs. Coleman's evidence as a malicious attempt to injure me."

'In telling the story of the fire from his point of view, Captain Perry said he was awakened by Mrs. Perry, who was the first on board the Aberdeen to gave her evidence as she did. by discussed the possibility of fire ii Mrs. Chase remarked that this uid be a good night for the fire. "I shore. She remained in the after deck sught by this that she meant that

would be a good night for the fire. "I thought by this that she meant that it would be a good night if anybody was going to burn up the boat. I had a special reason for being frightened by fire. My reason was that I had heard so much talk around that the Crystal Stream would not run all summer. I did not pay any special attention to the talk but it worried men. The people whom I talked to did not say that the boat would be burned but I had my opinion what there was verngeance threatened. A party had said that he would have vengeance if it took ten years.

"I fhink that the party was Captain Perry of the Aberdeen. This was what caused most of my worry." Mr. Trueman objected to allowing this as he claimed that it was hearsay evidence but the coroner decided to allow it subject to the objection. "Between Iz and half past twelve I was aroused in some manner. I could not say how I came to be aroused. I had fire in my mind and that was probably the reason I wakened so early I think it must have been the bord that caused the towake.

"When I woke up there was a white smoke going by my door. I
