

CLEVER CAPTURE MADE UP NORTH

Watch and Chain
Recovered

Chief Crawford Captures the
Guilty Party—The St. Law-
rence at Campbellton

CAMPBELLTON, N. B., May 25.—Last week Wm. Brochette, a cook with Harvey Calder on Jordan Brook, lost a gold watch, chain and locket valued at \$120. This was taken from his vest during the night and no clue was to be obtained as to who the guilty party was.

Saturday morning the matter was reported to Chief Crawford by Mr. Calder, and the chief immediately went on the case. By some clever detective work he followed clues that implicated McRae, who was arrested by Officer Brown at Dalhousie, and the watch, chain and locket were found with him. The accused was brought to Campbellton and is now in the lockup awaiting the action of the police magistrate. The chief deserves great credit for the promptness with which the case was handled and the guilty party arrested. McRae admits his guilt.

The steam dredge St. Lawrence is in port and will resume operations in the river.

LARGEST IN HISTORY OF AMERICAN CHURCH

DENVER, Colo., May 25.—"Let Rockefeller and Carnegie alone—go into your own pockets for college endowments," was the advice of Dr. J. C. Steffen of Dubuque, Iowa, in an address before the general assembly of the Presbyterian church this afternoon.

During the day it became apparent that Chicago instead of Atlantic City was taking the lead as the next meeting place.

Dr. W. L. McDowell offered the report of the board of home missions, showing that the amount received, \$1,078,971, was the largest in the history of the church. He asked for \$800,000 for the work of the coming year.

WILL CLEMENTS

FREDERICTON, N. B., May 25.—A telegram received this morning from Ossining, N. Y., bore the sad intelligence that Will Clements, son of Mr. and Mrs. Fred Clements, of Kingsclear, had passed away. The news came as a great shock to relatives and friends here. Mr. Clements, who was 38 years of age, occupied a most lucid position in Ossining, and his future was one of brightness. For the past few months he has been in ill health, suffering from kidney trouble, and it was his intention to spend the summer here with his family for a rest. In September, 1908, he married Miss Violet Mack, step-daughter of the late Bishop Kingston, and last fall Mrs. Kingston, with her daughter and mother, Mrs. Beverly Robinson, moved to Ossining and lived with them. Mr. Clements was a very popular man, and his death is a great loss to his family and to the community.

WORTH MOUNTAINS OF GOLD

During Change of Life,
says Mrs. Chas. Barclay

Grantville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. CHAS. BARCLAY, E. D. Grantville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weakness, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

LOCAL OPTION FIGHT STIRS INDIANA TOWN

Both Sides Are Preparing for
Battle in Twelve
Counties

INDIANAPOLIS, May 25.—The temperance forces are preparing to make the supreme effort of the county option campaign which has now been in progress since early in the winter during the present week and the first week in June, when there will be twelve local option elections.

Eight elections take place this week, and in the list are Madison county, in which is the city of Anderson, with a population of 27,000, and the county of Laporte, including the two cities of Laporte and Michigan City.

It is in these two counties that the campaign has become fiercest. For two weeks hundreds of speakers have been engaged on both sides, large sums of money having been expended, and more interest than a national campaign would excite has been worked up by oratory, newspaper advertising and the liberal use of flaming posters.

In the other six counties, which will vote this week, the temperance people feel pretty secure, but there is a feeling of uncertainty respecting both Madison and Laporte.

WHY DO WOMEN WORRY?

First Sign of Failing Health

Worry is a disease—and it's more—it produces other diseases, because it breaks down the nerves and saps the vitality of the body.

What a pity women don't realize that if they were well—if the blood was nutritious—if the nerves were strong—if all the organs were active—then the little things that irritate and prey on the mind wouldn't receive a moment's thought.

The woman who worries has a poor appetite—she sleeps poorly. If it only lasted for a day or two it might be of small consequence—but she grows limp, miserable, unhappy—worse day by day.

She needs Ferronez which cures worry by curing the conditions that render worry possible. For nervous, weak women, no tonic is so good: Ferronez. It has cured just like Mrs. M. E. Etherington of Troy, who writes: "I am quite willing to give a public testimonial for Ferronez, believing it to be a tonic of superior excellence and one that will rapidly build up strength and supply new energy to anyone not feeling well. Last spring I was in a very poor condition of health. I used Ferronez and was completely worn out. No doubt it's quite a common complaint with ladies of my age, but I placed great reliance in it, and in fact I have been in better health ever since. I am heartily recommending Ferronez."

Ferronez cures by making good blood, strong nerves and a healthy body. This is why it gives color, clearness to the skin, buoyancy to the step, brightness to the eyes—because with good digestion and activity of the body in all its parts there's health. Price 50c. per box at all dealers.

CIVIL SERVICE EXAMS. ARE ON

OTTAWA, May 25.—Some two hundred candidates began writing today in civil service competition examinations at various points in Canada for the city vacancies in the third division of the inside service and thirty-five vacancies in the second division.

In the latter division only twelve candidates are writing. The examination papers prescribed by the civil service commission, practically demand university standards and the salary to be given is only \$800 the position in view of entrance requirements does not appeal to enough candidates to fill vacancies. The commissioners have evidently set too high a standard and new examinations with lower standard will have to be held. About seventy per cent. of the candidates are women.

DEMONSTRATION AT MONTGTON LABOR DAY

MONTGTON, N. B., May 25.—Labor organizations here are planning a demonstration for Labor Day, and committees are actively engaged in making necessary preparations.

Every labor organization in the city is co-operating in the movement and it is proposed to make it the biggest thing of the kind ever held in the province. The committee tonight waited on the Board of Trade and asked the co-operation of this body as well as the city council and all citizens in assisting in the demonstration. The proposed march will be on Monday, May 31, at least, sports to include athletic events and horse racing. The Board of Trade appointed W. H. Edgett, Dr. C. A. Murray and E. J. Payson to confer with the labor representatives in reference to outlining a programme.

WILL MURRAY

FREDERICTON, JCT., May 24.—This morning there passed away Will Murray, the third son of Dr. A. J. Murray, aged 13 years. The deceased had been ill since the last three months, but the end came suddenly.

MISS EADIE DRIVING ONE OF MR. GUDWELL'S HORSES AT MONTREAL HORSE SHOW

SUES FOR LOST LOVE OF A COACHMAN HUSBAND

Mrs. Harris Wants \$150,000
From Wife of Employer
for Alienation

LOS ANGELES, May 25.—Mrs. Grace V. Harper, niece of the late Charles Deere, a millionaire plow manufacturer, has been sued for \$150,000 damages by Mrs. Jane Harris, wife of Mrs. Harper's coachman. Mrs. Harris says Mrs. Harper won her husband's affections.

In Rock Island, Ill., three years ago, Sidney Harris, coachman and chauffeur, was employed by Mrs. Harper, bride of Stuart Harper, the manufacturer. In June of 1905, Harris was supposed to have been in a bungalow adjoining the Harper residence.

A year or so later Mrs. Harris accused Mrs. Harper of alienating her husband's affections from her. Mrs. Harper, surprised and indignant, called Harris into the conference. Tearfully, the chauffeur charged his wife with being insanely jealous, denied that he was infatuated with Mrs. Harper and offered to leave his employment.

Temporarily Mrs. Harris was appeased. A year later, after the birth of a child, she again accused Mrs. Harper of winning the affections of her coachman. In desperation Mrs. Harper dismissed the man from her service, and six months later Harper and his wife sailed for Europe.

When they returned, Mrs. Harris again conferred with Mrs. Harper. Mrs. Harper was called into the conference, and assured Mrs. Harris that he knew his wife was not in love with Harris. But the woman could not be appeased, hence the suit for damages.

Until recently Bayard owned by A. Faurie, which the American jockey, Maher, will ride, was regarded as invincible, having as a two-year-old won his seven races easily. But he failed to make the improvement on Sunday, and was reasonably to be expected during the past year and gave an inglorious display of form a short time ago at Newmarket, which sent his stock away down.

W. Raphael's Louvres ranks third in popularity favor, and Lord Carnarvon's Valera is considered to have a fall chance, although Minoru beat both of these horses this season.

American stables are represented among the favorite entries, but the American contingent, which promises to be larger than usual, is enthusiastic for Sir Martin, while the great British crowd, and the foreigners as well, will go with the King, according to the honored custom, should lead the winner past the stand.

COPENHAGEN, May 25.—The elections for the Folketing were held today. The country is divided on the defense question. The returns up to the present indicate that the government will not obtain a majority and the probability is that when the new rigdag meets, Mr. Christensen, who resigned because of the Albert scandal, will return to power.

YOUNG MAN'S HEROIC ACT

THINK HARD
It Pays to Think About Food

TORONTO, May 25.—An act of heroism is reported from Algonquin park. Some twenty sticks of dynamite were being thawed out in adjoining cottages occupied by sectionmen, their wives and children. The fuse attached to one stick ignited. The men with one exception, decamped, calling to the inmates of the cottages to run. The women, however, did not seem to understand, and one young sectionman, whose name has not been learned, ran back and seized the smouldering stick, ran with it for several paces and threw it from him. Just after it left his hand it exploded with terrific force in the air. The young man was knocked down by the concussion, but only stunned. His prompt act, however, probably saved several lives.

MRS. THOS. MCKENZIE

CHATHAM, N. B., May 25.—The death occurred yesterday of Mrs. Thos. McKenzie, Red Bank. Mrs. McKenzie was formerly Miss Cassidy of Chatham, she leaves a husband and six children, the eldest but 12 years old. Two brothers, Clifford and Harry, of Chatham, and one sister, survive Mrs. McKenzie. Death was due to appendicitis.

STORY CANNOT BE CONFIRMED.

BOSTON, May 25.—Confirmation of the story of the reported rescue of Mrs. Harry Barton from the wreck of the White Star liner Atlantic in 1974, could not be obtained here tonight. Barton is on board the tug Orion, which is towing the disabled schooner Theresa Wolf, a John J. Hunt boat to New York. The Barton family lived at Boston, but recently Mrs. Barton and children went to Maine for the summer.

KING'S ANIMAL BIG FAVORITE

Minoru is Strongly
Backed

AMERICAN ENTRY

Sir Martin in the Best of
Form and Has a
Chance

LONDON, May 25.—The greatest of all horse races, the Derby, which will be run at Epsom Downs tomorrow, promises to be the most interesting Derby of a decade. The possibility that the King's Minoru will win the purse of \$32,250, and the owner gain the distinction of being the first reigning monarch to take the classic, gives the contest an importance that he will be over-estimated in the eyes of the British public.

Minoru is now a hot favorite for the event. Although last year this colt was not rated in the first class, he made phenomenal improvement during the winter. He easily won the 2,000 guineas at Newmarket, April 28. His principal opponent is considered to be Louis Wynn's Sir Martin, from John E. Madden's Kentucky farm, which is supposed to have cost his present owner \$80,000.

Sir Martin is now in the very best of form. He recently won the Welter Plate at Newmarket and since then has given every evidence that he will be in the running in tomorrow's great event.

Until recently Bayard owned by A. Faurie, which the American jockey, Maher, will ride, was regarded as invincible, having as a two-year-old won his seven races easily. But he failed to make the improvement on Sunday, and was reasonably to be expected during the past year and gave an inglorious display of form a short time ago at Newmarket, which sent his stock away down.

W. Raphael's Louvres ranks third in popularity favor, and Lord Carnarvon's Valera is considered to have a fall chance, although Minoru beat both of these horses this season.

American stables are represented among the favorite entries, but the American contingent, which promises to be larger than usual, is enthusiastic for Sir Martin, while the great British crowd, and the foreigners as well, will go with the King, according to the honored custom, should lead the winner past the stand.

ENGINEER LOST AN EYE BUT WON PRETTY BRIDE

Injured Man Woos Nurse
While Lying Blinded in
Oregon Hospital

PORTLAND, Ore., May 5.—Winning his nurse for his wife while lying blinded in St. Vincent's Hospital, of this city, is the strange experience of William Lang, engineer for a local dredging company. Miss Mary Sillers, who nursed him for six weeks in a dark room of the hospital, is the bride in the pretty romance. Miss Sillers secured a short leave from the hospital soon after Lang was discharged. She did not return. The reason was disclosed yesterday, when another nurse met her down town and asked when she would come back to work. "I would if I could, but I can't, because I'm married now," said Mrs. Lang.

For six weeks Lang was in darkness at the hospital. One eye was ruined to prevent the other becoming sightless also. During this imprisonment he fell in love with his nurse, whom he had not seen.

ESCAPED WRAPPED IN BED CLOTHES

HALIFAX, May 25.—While all the family were asleep at five o'clock this morning, the house and barn of Clarke Hall, of Milton, took fire and were totally consumed. With great difficulty Hall saved his invalid mother. She with a number of Mr. Hall's children were taken out and wrapped in their bedclothes.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

RESIDENTS, NOT STRIKERS, TIE UP GEORGIA RAILWAYS

Object to Negro Firemen Being Given
Seniority Over Whites—All Roads at
a Standstill—Passengers and Mails
Transported by Automobiles, Wagons
and Pack Animals

ATLANTA, Ga., May 25.—How less than 100 striking Georgia railroad men were able to stop practically all train service in a territory 170 miles long and from 25 to 100 miles wide, was the knotty problem into which the United States commissioner of labor, Chas. P. Neill, plunged immediately after his arrival here tonight.

As emissary of the National Board of Mediation, he faced, first, the race problem, the force behind the strike; second, an announced wish of many persons in this section to have Georgians settle this question by arbitration, and, third, the necessity of moving the United States mails immediately.

In Private Conference

Within two hours after his arrival, Mr. Neill was in private conference with General Manager Scott, of the Georgia railroad, with no intimation as to when the negotiations might bring results.

What a remarkable feat this handful of union firemen accomplished, and what power was behind them, became apparent today when a considerable section of this state was compelled to rely upon automobiles for passenger, mail and express service, and when the transportation of such necessities of life as food dropped back to the methods of a former degree of civilization, namely, the wagons and even pack animals.

The four score firemen alone did not produce the situation. It was the communities which the railroads served that stopped every wheel of the system during the past three days; not the officials of these communities, but a few men who are said to have fighting blood in their veins, who came forward and announced that negro firemen should not be given seniority over white firemen. From some hidden source or public opinion these men have, up to now, made good this radical ultimatum.

NEWPORT 'TOO NASTY' FOR MRS. OELRICHS

Sells Home—Believed She
Means Reason is Not Ex-
clusive Enough

NEWPORT, May 25.—Mrs. Hermann Oelrichs has sold Rose Cliff, her marble home here, to Thomas F. Walsh, of Denver. On Wednesday she will leave Newport for good. She says the resort has become "too nasty."

Mrs. Oelrichs would not explain just what she meant by the expression, "too nasty," but from other conversations she has had with her friends, it is believed that Newport is not exclusive enough to suit her.

Rose Cliff has been on the market for some time. Mrs. Oelrichs did not come to Newport last summer until very late in the season, and then she did not open Rose Cliff. It is expected she will go abroad this summer with her sister, Mrs. William K. Vanderbilt, Jr.

Rose Cliff is shut off from Bellevue avenue by the Parkman house, and is not visible. Its entrance lies through a small and somewhat obscure lane, and, for many years, Mrs. Oelrichs sought to purchase the Parkman place, but could not.

ENGLISHMAN TOO MUCH FOR BROCK

BOSTON, May 25.—Eddie Welsh of England outfoiled and outlasted Phil Brock of Cleveland, Ohio, during 12 rounds of hard fighting in the 133-pound class at the Armory A. A. tonight. In no round did the Ohio boy have any advantage, although he put up a plucky fight and fought hard to the end. Welsh jabbed Brock in the face with a stiff left repeatedly and in the second round sent Brock to the floor three times with terrific right and left swings to the head. Before the fight was half over Brock was bleeding profusely from the mouth. Welsh avoided punishment by clever ducking. In the opening round Brock accidentally fouled Welsh, but the latter declared he was not hurt and declared his willingness to continue.

McISAACS GETS SIX MONTHS

FREDERICTON, May 25.—In the police court this morning Frank Wilson, alias Harrison, alias McIsaacs, was sentenced to six months in the county jail here for theft which he committed at Windsor Hall. Wilson has acknowledged to Deputy Sheriff Winter at the jail that he is Frank McIsaacs, who stole \$50 from the Clifton Hotel, St. John, and that he now has a suspended sentence of six months for that break. At the conclusion of his term here, Wilson will likely be taken to St. John to serve six months more.

Brighten Up

You want the most economical paint, not the cheapest paint. You want paint that will last a long time and look well, not paint that is cheap by the gallon and expensive by the job. Ask the S-W. agent about

MINISTER OF WAR YOUNG TURKS' FOE

Committee Regards Saleh
Pacha as Menace to Its
Very Existence

CONSTANTINOPLE, May 25.—The Turkish cabinet having decided to await a vote of confidence from parliament before giving a discharge for the Turkish army in Europe, the special delegate, declared to me today that he will leave for Sofia tomorrow and not waste any more time. He will, however, leave all responsibility for any future complications regarding the payment of the indemnity to the Turkish government.

General Saleh Pacha, having had a serious disagreement with the Young Turk committee, had decided to leave to take up his new post as commander of the Turkish army in Europe. Thanks, however, to the intervention of the Minister of War and concessions on the part of the committee, General Saleh Pacha will remain here for some time longer.

It seems certain that the principal cause of the dissonance is the fashion in which the committee acts, drawing up resolutions and proposals against the wishes of their chiefs, who desire to steer them clear of this.

According to another version, the committee desires to prevent the command of the army from falling into the hands of Saleh Pacha, formerly commander of the Adrianople army corps and at present Minister of War, whose character is considered to be a menace to the very existence of the committee. This incident gives fresh proof that the majority of the members of the committee persist in their past errors, which are little calculated to bring about tranquility in the country or allow of any serious work of regeneration to be undertaken.

FOUR MEN DROWNED IN A QUEBEC RIVER

QUEBEC, May 25.—News has reached here from Matane, County Rimouski, of a terrible drowning accident which occurred on Matane River, Saturday last. Having completed the floating of logs for Price Bros. & Company, four men, Jacques and Mervin Ernest Forbes, brothers, and Rosario and Hormengile Michaud, also brothers, embarked on a raft in order to shorten the distance to their homes. Nothing more was seen of them, and their raft having been found near Matane it is believed all four men have been drowned. Search for the bodies so far has been fruitless.

SEASON IS LATEST IN 20 YEAR

Ontario Crop Rep
Made

FALL WHEAT
Reports Concerning Prospects
Vary—Spring Sowing
—Fruit Trees

TORONTO, Ont., May 25.—The following information regarding agricultural conditions in the province as of the middle of May has been issued by the Ontario department of agriculture. "Vegetation—in the opinion of most correspondents—is growing season 1909 is the latest for at least a score of years, it being placed at from one to two weeks later than the average. The exceedingly wet and cool weather prevailing during April and the early part of May is the cause."

Fall wheat—Reports concerning prospects of fall wheat vary greatly, even in the same localities some describing the crop as looking "thoroughly late," while others state the fields are not only backward but short until the rains of late September came, and the young wheat entered the winter with very little top.

Winter rye—The acreage of this crop is comparatively small, but it is chiefly for pasturing, selling, or plowing under. It has done better than fall wheat and is looking well.

Clover—Old meadows poor, new ones promising, is a fair summary of the returns received regarding this crop.

SPRING SOWING.
The spring crops that were put in early found an excellent seed-bed, heavy rains having followed, making the land go too soft to work on, making further sowing almost an impossibility for weeks, except in a few cases where, to use the expressive language of some correspondents, the seed was "budded" in. While those on high light or well drained land have made fair headway with their spring sowing, the bulk of farmers are backward, half way through with that work in the second week of May, a most unusual record for Ontario.

Fruit trees—A large number of orchard trees have come through the winter in good condition so far as injury from the weather or mice is concerned, although many of the trees, especially in some northern localities. Unfortunately there are a number of references to the presence of San Jose scale and the cytosiphid bark louse, and it is very evident that a steady warfare must be waged against these and other insect pests, if our fruit trees are to thrive. While leading orchard blossoming was about a week or two backward, reports were to the effect that barring late frosts and heavy rains, at the time of blossoming, a good yield of fruit may be looked for. Peaches, especially, are looked to for a large yield, as the buds were but little injured by the winter.

Fodder supplies—But for the comparative mildness of the weather, there would have been much scarcity of fodder before live stock got upon the late grass. As it is, many farmers have had to feed most economically, and some farms are rather bare of supplies.

Live stock—The general condition of live stock may be briefly described as thin but thrifty. No disease of a serious or epidemic has appeared, the mild form of distemper reported in several parts of the province being of a local nature. Horses are said to be in good health, although not looking so plump or sleek as in some years going to market. The same may be said of both beef and dairy cattle.

HON. WILLIAM CHISHOLM

HALIFAX, May 25.—Hon. William Chisholm, member of the Legislative Council, died today. The deceased has been a prominent resident of Halifax, and for some years carried on business as a merchant and lumber manufacturer. He was born April 21, 1832, at Antigonish, and was 77 years of age. He was appointed to the Legislative Council on Jan. 10, 1901. Mr. Chisholm was one of the best known Liberals in Nova Scotia and was also a prominent member of the Roman Catholic Church.
