WAR SAVINGS.

Universal commendation is given to Mrs. Chnnell, the Dominion or ganizer, Women's Division, National War Savings, Movement, for the

impressiv and exceedingly clear manner in which in all her addresses she has put the matter before our citizen. The work is being well done and the policy and principle of "saving" are most cleverly and pointedly put

before the public. Let the local committees do their bit of work and then "War Savings" of the Province, and vicinity.

O understand the work of the girl at central is to sympathize with her-for hers is a continuous high nervous tension.

At these critical times, when help is so scarce and the wires so busy, the task of the telephone operator is made doubly trying on her nerves.

How like her own nervous system is the complicated electrical equipment which she manipulates.

The central station may be likened to the brain, and the cables and wires, which go out from it, correspond to the spinal cord and intricate nerve fibres which branch off to the members and organs of the body.

The electric current is similar to the nerve forco in the human system, for without this nervous energy the human mind and body would be just as dead as a telephone system without electricity.

The continuous strain to which the brain and nerves of the operator are sub-jected exhausts the nervous energy at an enormous rate, and starved nerves cry out for nourishment with headaches, neuralgic and sciatic pains, nervous indigestion and sleeplessness.

GUESS WHO?

I^T would be difficult to imagine Nova Scotia without its efficient telephone system, so intimate and necessary a part of the Province's commercial, social and official life has the telephone become.

Why should not the people of Nova Scotia supply the necessary capital required from time to time to extend and improve their own telephone system?

Why should not every telephone subscriber be a telephone shareholder?

Full information to interested parties regarding this company's new issue of stock, with earnings stablized by legislation, will be gladly furnished on application.
