LIFE.
The poet's exclamation: "O Life! I feel thee bounding in my veins," is a joyous one. Persons that can rarely or never make it, in honesty to themselves are among the most unfortunate. They do not live, but exist; for they imply more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people, men and women, well and strong, has accomplished a great work bestowing the richest blessings, and that medicine is Hood's Sarsaparilla. The weak, run-down, whole system, changes existence into life, and makes life more abundant. We are glad to say these words in its favor to the readers of our columns.

Cape Town will present Lord Kitchener with a sword.

About 12000 Bows have surrendered since peace was proclaimed.

Thorvald Hansen was hanged at Montreal, for the murder of Eric Marotte, a little boy.

TEST CASE.
London, June 13.—Lord De Egrene, an Irish landlord, has started a great test case against 31 defendants, who are charged by him with conspiring to procure the non-payment of rents. He seeks to have the courts declare to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people, men and women, well and strong, has accomplished a great work bestowing the richest blessings, and that medicine is Hood's Sarsaparilla. The weak, run-down, whole system, changes existence into life, and makes life more abundant. We are glad to say these words in its favor to the readers of our columns.

KILLED BY A WHISKEY EXPLOSION.
London June 13.—A special despatch to The Daily Mail from Simla reports that Capt. Carr, I. M. S., medical officer of the 6th Bengal Cavalry the mess hall and a seamy were engaged at Meerut in bottling whiskey from a cask which had been lying for some months in the messhouse. Next morning, in order to see what was left in the cask, Capt. Carr put a match to the bung-hole; the whiskey fumes thereupon ignited, and an explosion occurred, blowing off the roof and injuring Capt. Carr so severely that he died soon afterward.

QUEEN'S STATUE

Toronto, June 14.—The first sod for the foundation of the Queen Victoria statue was turned at 10 o'clock yesterday by the Hon. Richard Harcourt, acting Premier, in the presence of a somewhat small audience. The site selected for the statue is at the east front of the parliament buildings near the encircling sidewalk, and here at the hour appointed, 9.30 a. m., a large number of interested citizens had assembled. Mr. Harcourt was, however, late in arriving, having been delayed at the Union station, where he had gone to bid good-bye to Premier Ross, who was leaving for England, and as the moments slipped by the spectators scattered, and comparatively few witnessed the simple ceremony. The acting Premier took the spade in hand like a master, drove it into the earth, and deftly raised and turned the sod and thus commenced the work of preparing the spot on which is to stand the statue of the late Queen. There were no speeches. The statue, which is now on the way across the Atlantic, it is expected, will be in position in about six weeks.

FAMINE IN SIBERIA

St. Petersburg, June 13.—The famine in Siberia is spreading with increasing rapidity. Reports from Irkutsk show that an enormous number of famines-stricken people are flocking to that city. They are camped in the open, without shelter of any kind, are clad in rags, and are dependent entirely on private charity, which is quite inadequate to cope with the distress.

The latest crop reports from western, northern and central Russia show the conditions in those parts of the empire to be flourishing. Reports from Orel, Kieff, Kazan and Simbirsk, as well as the provinces of the northwest, are satisfactory. On the other hand, the conditions are very bad in the transcaucasian territories, owing to drought, and locusts, which will necessitate Government relief and re-sowing to the amount of \$250,000. Cattle plague also prevails in the stricken districts.

The South Africa British and Colonial Industrial Exhibition will open at Cape Town, in November, 1903.

WANT RHODES' SCHOLARSHIPS.

Halifax, N.S., June 13.—The fact that in the will of Cecil Rhodes provision for Oxford scholarships was made only for students in Ontario and Quebec has caused the governing bodies of the universities in the other provinces of Canada to forward a memorial to the executors of the will asking for recognition.

The senate of Dalhousie College has sent on its memorial in care of Gen. Murie, M. P., and similar action will be taken by the University of New Brunswick within a few days.

The memorial from Dalhousie sets forth the opinion that Cecil Rhodes doubtless intended that each province should be represented by one student of the Union, should be benefited by these scholarships.

A new scale of postage rates on all classes except letters comes into effect on July 1.

The South Africa British and Colonial Industrial Exhibition will open at Cape Town, in November, 1903.

Fruit... Jars

Our fruit jars are the best. We never buy any other than the Crown, as there is little doubt but what they are the best. You will find no rough edges along the seams in these jars, and the top is finished so smooth that you could run your tongue around it and there would not be the least danger of cutting it. Furthermore, when we receive our jars we go over them and open every can to see that there is not as much as a small nick in the top of the can, so that we are sure that you are safe in ordering your fruit cans from us.
