Winter Sports in Canada

Montreal's Fun Festival

Among the countries of the world Canada has long been without a peer as a summer resort. To-day it challenges the hitherto undisputed supremacy of Switzerland in the realm of winter sports. Who has not heard or read of St. Moritz, the pride of the Swiss people and for long years the winter time Mecca of Europe? Canada has a score or more of places where all that St. Moritz can offer in the way of winter sports is not only duplicated but surpassed. The fame of these is spreading beyond the confines of this continent to lands across the seas. No longer is the Dominion pictured as a land which hibernates through a long and trying winter period. The truth regarding the invigorating and exhilarating winter climate of this country, with its joy giving and health imparting sports, is as great an advertisement for Canada as the enthusiastic laudations of the stories of its summer and early fall.

Quebec, the ancient and picturesque, Ottawa, a capital to be proud of, and a host of other cities and

towns might be named as worthy claimants of the attention of those who delight in the season's sports. But the Canadian winter of 1923 belongs, for many reasons, to the old, substantial, and progressive city of Montreal. If that municipality, in which the past and the present, the old and the new so harmoniously blend and combine, had nothing else to point to but Mount Royal it would still have much to boast of. But in addition to the famed toboggan slide of that same beautiful height, there are many attractions to charm and delight every visitor.

It would indeed be almost impossible to detail in a single article the variety of the winter sports and recreations that Montreal will afford throughout the balance of this month and all of February. The Winter Sports Committee, selected by the citizens, is responsible for the arrangements which hold particular appeal to all interested in skating, skiing, curling, snowshoeing, hockey, ice-yachting, tobogganing and the like. Every Saturday

contests and exhibitions are held at the Montreal Ski Club, while every other winter sport has its special place on the program. It is doubtful if there has ever been anywhere such a remarkable program for winter sports, varied as it is by masquerades, balls and other social functions, and torch light parades amid the most striking natural surroundings. There is the glamor of romance over all, but there is also behind it the spirit of real Canadianism that knows how to blend its play and recreation with its and its belief in the land it loves.

Montreal has spared no effort to show that Canada as a winter resort, need take second place to none. Even now the success of its undertakings is assured. One of its greatest auxiliaries to that success is the Canadian National Railway, which sees in such plans and programs an opportunity not only of developing business, but of spreading knowledge of Canada, and its own boundaries as well, among Canadians themselves.

Railway News

Toronto.—It is announced that Mr. G. S. Beer, C.P.R. city passenger agent, under District Passenger Agent William Fulton, has been promoted to the post of assistant district passenger agent. Mr. Fulton now has two assistants in his territory.

Medicine Hat, Alberta.—An expenditure of about \$60,000 is represented by the extension to the Canadian Pacific Railway roundhouse and the construction of the Company's mechanical coaling plant, and that sum is about equally divided between these two improvements. In both instances the work has given much employment to local men and there is still a considerable amount of inside work to be done in connection with the extension to the roundhouse.

Renfrew, Ontario.—Mr. Ed. Williams, Canadian Pacific Railway baggage master, who in addition to his regular duties, takes care of the flower garden which attracts so much favorable comment from travelers over the line, has secured another triumph. Mr. Williams has just been notified that his plot has been awarded second prize in the Quebec district, all of the depot gardens having been recently judged by an official of the road. During the past few years Mr. Williams has carried off a number of first prizes but the competition is growing keener year by year.

St. Thomas, Ontario.—Work has been commenced on the construction of an extension to the present C.P.R. yards east of the city, in the form of an 800-foot repair track at an expenditure of approximately \$15,000. The grading work which is being done by Irwin and Son of this city, was started recently. The extension is necessary to cope with the increased business and also to facilitate the repairing of cars. It is also understood that the addition of the new track will result in several more employees being added to the C.P.R. repair gang.

A small track about 80 feet long will also be erected alongside the new tracks to be used in case of an emergency. The new track will hold at least forty cars. Four teams and about twenty men are engaged in rushing this work to completion.

Belfast, Ireland.—For the first time on record a Canadian-bound steamer called from Belfast, Lough conveying mails direct from the Northern capital. The vessel was the Canadian Pacific Railway Company's S.S. "Metagama," which, incidentally, was built in Belfast. The vessel anchored off Killybegs, 23 bags of mail, together with some 100 emigrants from Ulster, were conveyed to it by the Harbor Commissioners' tug "Mungrace."

Hitherto it had been the practice to send the mails to Liverpool and other ports from which they were despatched, but, acting on instructions from the secretary of the Post Office in London, the present system was introduced.

One of the passengers was a five-year-old child from Dublin, whose parents are in Canada. The little one was in charge of a matron who handed it over to the matron of the "Metagama."

A Belfast "Telegraph" representative was shown over the "Metagama," and saw something of the excellent arrangements made for the comfort of passengers.

London, England.—Major A. E. Moore, London Manager of the C.P.R. Department of Colonization and Development, 62-65, Charing Cross, has received the following letter from their Brussels office:

"Dear Sir:—I beg to advise that a certain Mr. Martin, Avenue des Couronnes, Bruxelles, who has formerly resided in Canada, brought over by our Line in April of this year a shipment of Canadian potatoes. They were planted soon after arrival, at Boisfort, a suburb of Brussels, where an exhibition of land products was held on Sunday last. A certain Mr. Lemmens planted 2½ acres with Mountain Green and Irish Cobbler. His crop amounted to over 300,000 lbs.; one plant bore 9 lbs. of each one potato weighing well over 2 lbs. This particular plant has been lent to us for window display and has attracted a great deal of attention. Mr. Martin has 400,000 kilos of Canadian potatoes in Belgium, which are not to be sold for immediate consumption but only for reproduction. Yours very truly,

(Signed) G. DE MEY, Agent."
