COBALT NOTES

It is the opinion of mining men that the Larder Lake district is destined to become the most wonderful gold-producing district in the world. The work accomplished this summer by the busy prospectors has revealed-wonders. Some scores of claims that could have been bought last full for a few hun-dred dollars are being held now at high prices.

The management of the Conlagas Mine is appealing to the Ontario Railway and Municipal Foard against an assessment of 300,000 fixed by the Town of Cobalt for the purpose of levying an income tax. The proprietors of the mine claim that they are not liable for taxation on income.

Mr. A. L. Fowler, in a letter to Wills & Company, Toronto, says that he went over the new find on the Temiskaming and Hudson's Bay property and did not fin dthe reports about it much exaggerated. Little work has been done on it. The vein is about 300 feet to the north of the old one, and it runs east and west. It is a mass of cobalt and cobalt bloom, three to four feet wide, and it has been opened or about 10 feet by a few shallow pits. The company is so far doing no work on it.

The horrified mother quickly sent for doctor, but the child was dead. Side, But Head Was Too Big.

German Town in Missouri.

German Town in Missouri.

There is a town in Missouri where
English is considered a foreign language,
and where German is taught in every
grade of the public schools. The local
lodge of Oddfellows conducts all of its
ritualistic work in German, and even the
few negroes who live in the town-easily
talk in German. The place is Hermann,
the judicial seat of Gasconade County,
east of Jefferson City. It is the greatest
wine producing town in the State.
