

Economic Damage Done Germany.

Berlin Revolution Planned With Object of Revenge--Government to Severely Deal With Offenders --Fifty Persons Killed at Leipzig -- Trouble Not Yet Over--Civil War in German Mining Districts.

BERLIN A BARREL OF GUNPOWDER.

LONDON, March 19. All Germany, with the exception of the southern states, is rebellious, and Berlin is a "barrel of gunpowder which may be ignited at any time," says a Berlin despatch to the Exchange Telegraph Company, filed at the German capital yesterday.

BAUER EXPOSES KAPP INFAMY.

BERNE, March 19. Chancellor Bauer caused a sensation at yesterday's sitting of the German National Assembly at Stuttgart, when he revealed the conditions presented to the Government by Dr. Kapp and General Von Luettwitz, before they entered Berlin on last Saturday morning. He said, "They wished to

prepare for a war of revenge and plunge the country into another cataclysm. Pitiless punishment must come to these offenders. Their fortunes must be seized and they must be tried before the Supreme Court at Leipzig."

EBERT GOVERNMENT RETURNS TO-DAY.

COBLENZ, March 19. The Ebert Government will return from Stuttgart to Berlin on Saturday. It is learned. The National Assembly and Prussian Diet have been convoked to meet at Berlin on Sunday.

FIGHTING AT LEIPZIG.

STUTTGART, March 19. Fifty persons were killed in most violent fighting at Leipzig. The workmen in their clash with the troops,

When you want to make flaky biscuit, delicious muffins and gems, real doughnuts and cake of fine texture--then you need

RUMFORD BAKING POWDER

THE WHOLESOME

threw up barricades, dug trenches and fought in almost organized warfare. Mines were exploded near the railway station.

FIRE TRAGEDY.

MONTREAL, March 19. Five lives were lost in a fire which destroyed the home of Philippe Lartiere at St. John's, Quebec, yesterday.

OLD PROBLEMS AGGRAVATED.

STUTTGART, March 19. Tremendous damage has been done to Germany economically by the Kapp Government, and the coal and food situations have been made more acute. Herr Kock, Minister of the Interior, informed the Associated Press to-day. Worse conditions are now centered in the Ruhr mining district and the Government is taking the necessary measures to remedy them. The Minister believed that the Ebert Government's hands had been strengthened by the Kapp failure, but he pointed

out that there had been a serious aggravation of old problems by the disastrous Berlin revolution. He insisted that the Government was determined to deal severely with offenders, but specified "through imprisonment and confiscation of their property."

THE SENATE'S LATEST.

WASHINGTON, March 19. Preparing for the final vote on ratification of the Peace Treaty, the Senate to-day adopted the modified reservation to the preamble, worked out in the bi-partisan conference, under which affirmative acceptance, of the reservation by the other Powers would not be required. The preamble provides that failure on the part of the Allied and Associated Powers to make objection to the reservations and understandings, prior to the deposit of ratification by the United States, shall be taken as a full and final acceptance of such reservations and understandings by the said Powers. The preamble

was offered by Senator Lodge of Massachusetts, the Republican leader, and accepted on a roll call.

CIVIL WAR RAGING.

LONDON, March 19. Hundreds of persons have been killed in the mining districts of Germany, in collisions between miners and troops. The Copenhagen Central News correspondent telegraphs that telegrams received from big towns in Germany state that fighting is proceeding in nearly all thickly populated areas, where soldiers and workers are opposed. The Communists are declared to be masters at Cassel.

EMPEROR LISTING BADLY.

SOUTHAMPTON, March 19. Passengers on the steamship Imperator, which arrived from New York yesterday, were alarmed when the big ship listed badly on the voyage. It is said a fault in the ash ejectors caused the list, but the ship was never in any danger. She will have to be overhauled before her next voyage.

The Saving Element.

(Canadian Churchman.) Kill-joy is not the name to be applied to everyone who in a serious moment inquires where we are going. We are bound for somewhere and we are travelling at some speed. Where that somewhere is, and if it is worth going to when we get there, are questions nobody seems able to answer in a way to arrest general attention. There are just enough people who refuse to think. They say: "Well, we are on the move and that's the main thing." Some things give you pause. In a western town which has gone dance crazy, children, ten to twelve years of age are allowed to attend public dances until two, and sometimes three o'clock. And this town is not off by itself but is near enough to be served from a city. An extreme case, you say. We devoutly hope so, but it is one to be paralleled in foolishness in other places.

In a Western city over two hundred girls under fourteen were convicted of smoking cigarettes. It doesn't make much difference whether they were following the example of George Sand or an Indian squaw. And whatever you may think of the picture of an ideal home with the wife or mother smoking her cigarette, there can be no two ways of regarding the cigarette habit of girls and boys.

Dress and Dancing.

The vagaries of woman's dress have always been supposed to furnish a topic for a faded editorial pen, but to-day's is in not a question of fashion but down-right decency. And to touch the matter of extravagance is to open an endless chapter. We talk of the influence of men or women's standards, it would be as well not to forget that often a woman's desires for dress, house, display, etc., are the spur that does not let a man check his speed. We look back now to the last few months before the war and marvel at the mad whirl of pleasure. Sophie Chotek (the Archduchess of Austria) was at London. Her dances as for many others, were a prelude to the dance of death. We were repeating the story of Paris towards the close of the Second Empire. When once the tostin of war had been sounded, the trappings of fashion fell and life as it had been lived was revealed in ugly nakedness. Never again would the world go back to such living criminal in its carelessness.

The Cause of Discontent.

But what are we doing now. Half of us are in earnest and the other half are on a swifter whirl than ever. Is there such a great difference between the tango we left and the dances to-day? It is possible that our god resolutions during the war expressed remorse and not repentance? Surely they were not a bribe to God that if He gave us the victory we would be good children again. Do you remember how in a new found social consciousness we use to deplore the miserable existence of the less-than-poor and the barbaric splendour of the rich? What have you to say to-day? Have ever you known extravagance to display its wastefulness more carelessly and do you find no poor to pity? As then, so now, there is the ominous sound of discontent. But it is no longer a sob. It is a curse. Men are beginning to realize that it is man, not God, who has made the world of to-day and behold, it is far from very good. Whether are we travelling? Unless it is along the path of the Son of Man it will be to inevitable ruin. Service must be the key-note of life. We have heard that so much, has it ceased to have meaning? For those who are looking for some prescribed programme, some external control, the word lacks power. But to those who are prepared to accept it as the watchword of their living it reveals itself as a force of increasing potency as its demands are met. Life takes on its true satisfaction and significance. Our days and tasks are knit together by a golden chain.

Saved to Serve.

This is just another way of saying that the spirit of Christ is the only saving element in the world. His spirit is not in all that the Church has done and His spirit is found in movements and men which the Church looks at only askance. There are tares as well as wheat in the Master's

Nature's Greatest Washers

The sea washes the world--Pears' Soap washes its inhabitants!

For over a century, Pears' has been making its way round the world. Ask for it in your local store; it is there! From the Cape to Cairo, in the bazaars of India, throughout Australia, Canada, the U.S., and South America Pears' has made its way with civilization,—on merits!

Pears' Soap is transparent because it is pure; it is the most economical soap because "it wears but does not waste." It cleanses and purifies the skin and freshens up body and mind.

"Pears"

is not heavily scented. Its delicate perfume comes from pure natural ingredients; the difference is important,—it means again that Pears' soap is pure.

Field, that we all admit, and also some of the wheat has gone over the fence. There are some men to-day who put in shallow fashion try to place contrast between the old Gospel and the new social consciousness. We are convinced that social consciousness is one of the manifestations of the spirit of Christ. Read your New Testament again and you will find its note is "saved to serve." The fruits of the Spirit include the social duties and virtues, in fact they emphasize them. The New Testament writers did not lose sight of the social because they say the key to improvement taken in the individual will. So to-day it is the duty of men and women who have caught a vision of better things to live and speak in their world. Timidity means cowardice in the long run. If we want to save men and women from going to everlasting smash we must not hide our light under a bushel. Christians have the very thing the world is dying for the lack of. We must enter on a propaganda of confident assertion and purposeful living.

Westclox

WESTCLOX is a short way of saying Western clocks. It means a line of good alarm clocks made by the Western Clock Co.

Every Westclox alarm is manufactured by the process that made Big Ben famous. Whether you select Big Ben, Sleep-Meter, America, or Baby Ben, you know you're getting a good clock because each one is a Westclox.

To make it easy for you to recognize our clocks, we print the family-name Westclox on the dial right above the name of the clock.

We also attach an orange-colored, six-sided Westclox tag. These are marks of good time-keeping. Look for them on the alarm clock you buy.
