MR. WINN REPORTS ON
PROGRESS OF DISTRICT

Interesting Report of the Immigration to District During Year.

BRIGHT OUTLOOK FOR
EXPANSION IN 1910

Local Immigration Agents Reports of the Conditions.

Immigration Agent James Winn has finished his report to Commissioner of Immigration Walker for the year ending March 31, and it contains some interesting information relating to the influx of settlers, condition of crops and prospects for the future. Mr. Winn tells of the rush at the land office and explains how the live stock industry continues to flourish in spite of the prediction that the breaking up of large ranches into smaller areas for mixed farming would have the contrary effect. The report follows:

Calgary, Alta., March 31, 1910.
The Commissioner of Immigration, Winnipeg, Man.
Sir—I have the honor to submit the following report on immigration and other matters of interest in this district, covering the twelve months ending March 31, 1910.
The immigration into the whole of Alberta has been large this year, and this district has received its full share, if not more. The number of immigrants who received accommodation in government property at this point for the year ending March 31, 1910, was 172, and received 2,683 days accommodation during the said year, and the above is a very small proportion to the number who came in, and who were financially better prepared to take lodgings in the hotels and in private residences or boarding houses, and they were crowded to their utmost capacity. Many who rented houses made a good living from roomers, and many went to adjacent towns, who could not secure accommodation in the city of Calgary.

The Canadian Pacific Irrigation and Colonization company are entitled to a great deal of credit for the large immigration into this district. Of course they are selling a large quantity of irrigated and other lands which pay for them well for their trouble, and it also helps to increase the population of this province.
There is also a great rush of immigrants looking for homestead and pre-emption lands, and their attention is chiefly drawn to the east and north of the Red Deer River, and do not remember ever seeing such a rush for homestead and pre-emption lands as there has been at the land office from last spring until the present time. I have seen men and women lined up on the street at twelve o'clock at night, in order that they might be sure of their place when the land office opened at 9.30 the next morning.

Greater Than Ever Before
We are having a very large immigration from the United States this spring, and expect it will be greater in the near future. Two gentlemen were in my office the other day from Buffalo, and they said that Alberta was all the talk, and at every street corner it was: "When are you going to start for the Canadian West?" A Mr. Howie from the State of Maine was in my office the other day, and he told me that there were fifty coming to Alberta from his neighborhood, and he expected they would be here about the middle of April.

The hay and grain crop turned out first class, and was harvested in good shape last fall, although we had some failures in fall wheat; but that I believe was due, to a great extent, to the way the seed was put in the ground. Some was sowed on light soil, and only harrowed in, and when the high winds came in March it loosened the roots, and a failure was the result. Where the wheat was sown and packed after it was sown, it invariably turned out a good crop. There do not appear to be any complaints about the fall wheat this spring. It is coming up fine, and the fields are looking green already, and if nothing unforeseen happens we will have a big crop to harvest. The oldest settlers here say that this spring is the earliest and finest they have ever seen in this country. Plowing and seeding is general in this district, and the steam ploughs are being worked night and day. They keep two gangs—one for the night and one for the day. They have a large head light on the front of the plough, which shows them how to do their work. There is thirty per cent more breaking done this year than last year. The breaking up of large ranches into smaller areas, and devoted to mixed farming, was predicted, to be the end of the cattle trade in this province. This prediction has not materialized, but the cause specified is shown to have quite the contrary effect. 1909 was called the "fat" year for the shipment of horses, cattle, sheep and hogs, but the year just ended has eclipsed them all, and if I had space and time I would only be too pleased to give figures to show that what I say are facts.

The Cattle Industry
Mixed farming and stock feeding is increasing so rapidly that in a year or two we hope to see the cattle industry more firmly established than it possibly could be under the old ranching system. The largest increase in live stock is where the rancher has been displaced for the longest period by the mixed farmer, and the districts becoming more thickly settled. This portion of Alberta has the largest number of small farms and ranches. It is therefore conclusive evidence that the stock industry is not being destroyed by settlers.
Butter and cheese factories have increased at the rate of 85 per cent. In regard to the prospects of Calgary, one of the best indications of its future is the bank clearings, which increased 48 1-3 per cent during the week ending March 31, over the corresponding week of last year, and the building record will further demonstrate the prosperity of the city. The value of the permits issued in March was \$415,450, and the number of permits was 148, as compared with \$34,800, and 54 permits for the corresponding month last year. The customs re-

capita for the month of March this year were \$50,000; for the corresponding month of last year \$12,000. I have the honor to be, Sir, Your obedient servant,
JAMES WINN,
Immigration Agent.

J. Bruce Walker, Esq.,
Commissioner of Immigration,
Winnipeg, Man.

SURVEY COMPLETE FROM
EDMONTON TO THE COAST

Survey Party Returns to Edmonton With Work Accomplished.

Edmonton, Alberta, April 4.—After having completed the location of the Canadian Northern main line, west of Edmonton, across the summit of the Rockies, through the Yellowhead Pass, and connecting up with the survey of the main line brought up from Kamloops end by the Hannington survey from the Kamloops end the survey of the main line of the Canadian Northern from Edmonton to Vancouver stands completed for the greater part of the distance save for the 100 miles or so west of Edmonton which will be affected by the recent change in plans which carries the main line west from St. Albert instead of Stanley Plain. This change in survey is now being effected by parties in the field.

Hughes tied up with Hannington's survey on the borders of Moose Lake, just west of the western extremity of the Yellowhead Pass at noon on January 15.
The completion of the survey of the main line from Kamloops end by the Hannington survey from the Kamloops end the survey of the main line of the Canadian Northern from Edmonton to Vancouver stands completed for the greater part of the distance save for the 100 miles or so west of Edmonton which will be affected by the recent change in plans which carries the main line west from St. Albert instead of Stanley Plain. This change in survey is now being effected by parties in the field.

DEMOCRATIC WAVE
SWEEPS OVER EUROPE

No Nation Today is Without Popularly Elected Legislative Assembly

London, April 5.—(Mail Correspondence).—Although from the Bulgarian Sobranje or the Montenegrin Skupstina to the Reichstag at the British Parliament is truly a long call, it is a fact of very great significance that there remains in Europe today not one nation that is devoid of a popularly elected legislative assembly.

It is furthermore to be remarked that the all but universal tendency in recent years has been so pronounced in the direction of a broadening of the franchise as to have inaugurated a new era in the growth of democratic government. Early in 1907, the Austrian Reichsrath enacted a universal suffrage law, under which every male over 21 years of age and in possession of civil rights is entitled to vote for members of the lower house. Later in the same year the Swedish Diet passed a measure which provided for universal suffrage and created a proportional electoral system. About the same time the Norwegian Storting created a measure which provided for universal suffrage and created a proportional electoral system.

Italy elects her chamber of deputies on a basis of universal suffrage conditioned only by an age limit of 21 years and very slight educational and property qualifications. The Spanish congress is chosen by citizens of 25 years of age who have enjoyed full civil rights in any municipality for two years. The Portuguese chamber of deputies is chosen under a system of universal suffrage, as is also the Danish Folketing or house of commons. The lower branch of the Dutch states-general is chosen by all male citizens of 25 years or more who pay a direct tax on the state or are householders, or own boats of not less than

No Other Kidney Pill Even Half
So Good as Gin Pills

The Druggists of Canada have never tried to sell anything else when Gin Pills have been asked for. They know positively that Gin Pills have extraordinary merit, that there is nothing else like them, nor as good—and that the National Drug & Chemical Co., the largest wholesale Drug Company in Canada, if not in the world is behind them and guarantees every box. They refund the money if Gin Pills do not cure.

BRIGHT'S DISEASE, STONE IN BLADDER, DIABETES, RHEUMATISM, AND ALL OTHER KIDNEY AND BLADDER AFFECTIONS are due to uric acid in the blood. Gin Pills are the best compounded prescription for Kidney and Urinary troubles ever discovered. The ingredients in Gin Pills which give color to the urine are healing and antiseptic, and the best known agents to the Medical Profession in the treatment of Bladder and Urinary troubles. They act at once, and are guaranteed to effect a cure.

If you have a Backache, Swelling of Joints, Soreness of the Hands, and Feet, Black Specks swimming before the eyes, cloudy or brick dust urine, scanty or copious urine, puffiness under the eyes, with headaches and throbbing of temples, be sure your kidneys are out of order.

GIN PILLS CURE OR YOUR MONEY BACK

Think of what this means. The National Drug & Chemical Co., the largest Wholesale Druggists in the World, place their reputation behind Gin Pills, and guarantee that they will cure any case of Kidney or Bladder troubles or refund the money. You take no risk in giving Gin Pills a trial, and that you may see what they have done for others, read the testimonials from the following two desperate cases:

Jollette, Quebec.

Jeuplement
During August last I went to Montreal to consult a Specialist, as I had been suffering terribly with Stone in the Bladder. He decided on an operation, and was assisted by another doctor. They said the calculus was larger than a bean and too hard to crush, and I found relief of pain at once. I took a second and a third box, after which I went back to the same doctor. He told me the calculus was reduced in size, still his could not relieve me of it, although he worked two and one half hours. I returned home again and continued the use of Gin Pills, as they reduced the pain very much, but I did not expect they would relieve me of the stone; but to my great joy I passed the stone on October 8th, and am now a well man and very happy.
I am sending the stone in to you so that you can see for yourselves what a great work Gin Pills did for me. Gin Pills is the best medicine in the World, and because they do so much good I will recommend them all the rest of my life. My wife will testify any time that the stone I sent in to you is the same as passed by me. Yours truly,
J. ALBERT LESSARD.

John Herman.

573 James St., North, Hamilton, Ont.
Gentlemen:
When I remember how I suffered not so long ago from Kidney and Bladder trouble, and now how I am healthy and strong, I feel I should tell my experience and the wonderful merits of Gin Pills.
Four years ago I was taken down with inflammation of the Bladder. During the attacks, which occurred more and more frequently, the agony was unbearable, and I became so weak I could not walk across the floor. The doctors could do nothing to relieve or cure me.
My wife sent for a box of Gin Pills to try and see if they would help me. From the first they did me good—the pain was relieved at once, and the attacks began to come at longer intervals. I continued taking the Pills for six weeks, and then, to my surprise and delight, the stone I sent you some time ago came from me and my pain stopped. It is now three years since Gin Pills cured me. I have had no return of the trouble, and I have not lost a day's work on account of it since.
There is not the slightest doubt that Gin Pills saved my life. Yours gratefully,
JOHN HERMAN.

TRIAL BOX OF GIN PILLS FREE

Mention this paper and send us your name and address, and we will send you a small trial box, free. After you try them you can buy them regularly from your druggist, or if he does not sell them, we will mail, postpaid, on receipt of price—50c per box—6 boxes for \$2.50.
