deka da-u	Old Poem Appears Again. A pathetic story worthy of a place in any new book written on the lines of Disraelf's "Calamities of Authors" is recalled by the announcement that the Oxford Press is about to publish that wonderful but unequal poem, "Joseph and His Brethren." The writer, Charles Wells, was born in 1800 and was a friend of Leigh Hunt, Hazlitt and Keats. He published his poetical dramas under a pseudonym at the age of 24, and though there was the mark of genius in it, there was also so much carelessness that as far as the world was concerned, it was neglected. Many years later when Wells was an old man, Swinburne drew attention to his genius and the book in conse- quence was revised by its author and made a marked impression. But the iron had entered into the poet's soul, and before this tardy recognition he had burned his other manuscripts in chagrin. He died, after a restless life, in a lodging house at Marseilles, Feb 17, 1879. Now the book is judged worthy of being placed in a series	merce commission by our Washington correspondent.
