

## THE COAST GAVE MIGHTY WELCOME

Premier's Reception at Vancouver a Record Breaker.

### FREE TRADE AND B. C.

Sir Wilfrid Tells Them Tariff Must Be Adapted For Whole Country.

Vancouver, Aug. 17.—Sir Wilfrid And himself in a drive of protection in British Columbia. Yesterday the board of trade memorial pointed out that with the opening of the Panama Canal manufacturing enterprise would experience an impetus and encouragement, and urging the Government to provide "a reasonable amount of tariff to offset the higher wages and increasing cost of living."

Later, at the luncheon tendered the Premier by the Liberal Association, President Senkler read an address, "respectfully commending to your consideration the fact that certain import regulations adapted to the provinces east are not suited to the interests of British Columbia." The lumbermen were also heard on the tariff.

Sir Wilfrid declared he had just come from provinces which were urgently and unanimously calling for free trade. Canada must move forward, but progress must be made along wise and permanent lines. It would be the aim of the Government to determine the tariff as best adapted to the interests of the whole country.

On arrival at Sicom Junction the Vernon Liberal Association presented the party with a large consignment of Okanagan Valley fruit. The fruit packers waited upon Mr. Graham to urge aid to the sugar beet industry in British Columbia. They submitted that tests showed British Columbia beets to have three to four per cent more saccharine than those of any other Canadian province.

**His Blood Tingles.**  
Thousands thronged the streets outside the depot when Sir Wilfrid reached Vancouver, and the Premier addressed the gathering from an automobile. He paid a glowing tribute to the growth, development and progress of the west, Vancouver being in the van. Replying to congratulations on his escape from the wreck, Sir Wilfrid reminded the gathering that it was charged he had been under a lucky star. It had certainly been his good fortune to be preserved. "Things which had been accomplished in this province make my blood tingle as a proud Canadian," he declared.

Over 700 attended the luncheon given by the Liberal Association. Sir Wilfrid was much moved by the welcome.

"I have sought to follow the traditions of better men than myself, whose memories we all cherish and revere. My heart has filled at your welcome; you young men, you Canadians of tomorrow, who have never seen me before and have done so much to show appreciation of my poor efforts."

Continuing, the Premier spoke of the opportunity confronting young Canadian manhood in the west. "If I could turn the hand of time back 40 years, and become again the struggling young barrister, and a budding politician, I would come west, where the sun shines, and industry and energy are rewarded lavishly."

**Monstrous Gatherings.**  
Sir Wilfrid formally opened Vancouver's first exhibition. It was a brilliant scene. The new grounds were richly decorated, and an immense throng was present.

"You have made a magnificent start," said the Premier, who counselled the directors to emulate the lines adopted by Toronto's National Exhibition, "which in my opinion is without an equal on the continent, with Winnipeg closely in the wake."

The Horse Show Arena, with a capacity of 8,000, was crowded to the doors at night, with hundreds turned away. Addresses were delivered by the Premier, and Messrs. Graham and Templeman. Sir Wilfrid dealt with the naval question, and bespoke his ideals for a Canadian nation. He was accorded a magnificent reception.

### INSURGENTS WIN

Machine Republicans Again Hit in Choosing of Candidates.

San Francisco, Cal., Aug. 18.—Hiram W. Johnson, insurgent, nominated by the Republicans for Governor.

Two insurgent Republicans nominated for Congress.

John D. Works, probably endorsed by Republicans for United States senator.

Theodore A. Bell nominated for governor by Democrats.

This is the general result of the first state-wide primaries in California's history, marking one of the most sweeping victories for insurgency in its brief existence and what California insurgents declare is the bitterest defeat the old "Southern Pacific Republican" machine has ever sustained.

Returns received up to an early hour today remove all doubt of Johnson's nomination, but it is difficult to estimate his plurality. His managers say that it will be anywhere between 20,000 and 40,000, and that the insurgent candidate for Governor has carried every county in the state, with the possible exception of San Francisco County.

## FLIES ACROSS CHANNEL WITH A PASSENGER

Young Spanish Aviator Establishes a New Monoplane Record.

London, Aug. 17.—To a Spanish aviator, John Moissant, piloting a French monoplane, belongs the honor of being the first man to fly across the English Channel, carrying a passenger in his air craft, and thereby establishing a new record in aviation. Moissant and his mechanic, Albert, are tonight at Deal, on the English coast, and tomorrow morning at 5 o'clock plan to fly to this city, thus scoring the completion of the first flight made from Paris to the English capital.

The flight actually began yesterday, when Moissant left the flying field at Issy, France, with the avowed intention of finally alighting in London. He was to be followed by Hubert Latham, a French pilot, but the latter met with ill-luck from the start, and though he reached Amiens last night, the Spaniard had already arrived there.

This morning Moissant reascended at Amiens at 5:15 o'clock, and reached Calais at 7:10 o'clock, but Latham, though making a strong effort after he had ascended at Amiens, succumbed to a fierce gust of wind, and was driven violently to the ground. His machine struck some trees, and its right wing was smashed. He, however, escaped without injury.

After arriving at Calais, Moissant awaited a boat to convey him across the English Channel. When it had arrived, he and his assistant, Albert, reascended and started across the channel. They passed over Deal, eight miles from Dover at 11:30 o'clock, and landed some five miles inland.

## NEW RAILWAY LAW WORKS MANY CHANGES

All U. S. Telephone and Telegraph Lines Under Control of Commission.

Washington, Aug. 18.—The Mann-Heyburn railway law goes into full effect today. Two sections, one relating to a commission to examine in-roads on railroad capitalization and the other into the suspension of rates by the commission pending inquiry into their reasonableness, became effective when the bill was signed.

The sweeping nature of the authority given the commission over common carriers by the recent legislation of Congress, cannot be comprehended except by careful study of the measure.

The new law works a most important change, in that it puts telegraph and telephone lines under the control of the government. The commission has not yet taken up the promulgation of regulations under the new law relating to telegraph and telephone lines. It probably will not do this until the first meeting is in September, at which all members are to be present.

**Telephone War.**  
One of the things that may soon be called to the attention of the commission is the way between the National Independent Telephone Association and the American Telephone and Telegraph Company. The National Independent Telephone Association charges that the American Telephone and Telegraph Company and its subsidiaries are trying to establish a gigantic monopoly in violation of the Sherman law. The Independent organization strongly urged the movement for Government control of telegraph and telephone companies in order that the inter-state commerce commission might regulate rates and prevent discriminations.

**No Franks in Use.**  
The use of telephone and telegraph franks is stopped by the new law. The telephone companies have distributed many franks to public men in the past.

Some phases of the new law are vague as to telephone and telegraph companies. For instance, it is not clear just what authority the commission has in respect to requiring publicity from those companies. It is said, however, the companies will not refuse to comply with any regulations the commission may make in this respect, since refusal would lead speedily to adoption of the law.

Not only does the new law give the commission power to suspend rate increases for the following months until their justification can be looked into, but it so broadens the power of the commission that there are not many phases of railroading and of the business of carriers over which it does not have control.

### THE Q. O. R. IN LONDON.

London, Aug. 18.—The stay of the Queen's Own Rifles in London, which is to last four days, will be so full that their ingenuity will be taxed to do everything. Their stay includes a banquet each day, theatres, music halls, circular drives through the city, and other festivities.

## APPLE CROP IS ALMOST ENTIRE FAILURE

Peaches Are a Fair Yield—Grapes Are Plentiful—The Outlook.

The fruit crop will be smaller than usual this year. Peaches are a fair yield, but with the exception grapes other fruits will be scarcer than last year.

Plums are not so plentiful, but it is the apple crop which will be most disappointing. The late spring frosts killed the apple blossoms. So far as can be predicted at this date, grapes will be plentiful. Peas in quantity are slightly below the average of other years. Apples in the immediate vicinity of London are very nearly an entire failure.

## MOB HUNTS NEGRO HELD BY SHERIFF

Slayer of Young Bride Taken Into Woods as 1,000 Men Pursue.

Hinton, W. Va., Aug. 17.—Directly under the eyes of a lawless mob of a thousand infuriated men, bent on having the life of a negro believed to be the man who assaulted and murdered Mrs. Little Allison, of Quinnemont, Sunday night, and nearly slew her husband, county officers tonight escaped from a Pullman car, in which they had guarded their prisoner for four hours, and took to the woods with the captive prisoner.

As soon as the mob learned that the prisoner had been carried away, when almost within their grasp, their anger broke out afresh. They scattered into groups and began scouring the woods for the negro and the officers.

The negro was arrested by a railroad detective this afternoon. Immediately the mob began to gather, and within two hours it had reached proportions that made the officers realize that they were unable to cope with the situation. On appeal the governor ordered militia to Hinton, but it was after midnight before the troops arrived.

Just before dark officers attempted to place the negro on a train to take him away. The mob soon learned the purpose of the movement, but allowed the officers to get the prisoner in a Pullman car. Then the rioters uncoupled the engine, cut the hose and resolutely refused to allow the train to move. They guarded the car until 9 o'clock, when the officers, realizing that delay would be fatal, escaped by a ruse into the woods.

The crime for which the negro was wanted occurred Sunday night. John Allison and his wife were walking on the railroad tracks near Quinnemont, W. Va. A negro knocked Allison down. After kicking him into insensibility, the negro assaulted Mrs. Allison, who was a bride of three weeks, and then murdered her.

Allison recovered enough on Monday morning to tell the story, but is now in a critical condition. He tried to identify the negro prisoner before. He said he was not certain, but suggested that the negro be held until he recovered.

### GENERAL BOOTH'S PLUCK

Veteran Head of Salvation Army Plans Five-Year Tour of the World.

Detroit, Aug. 17.—Despite the fact that he is now nearly 82 years old, Gen. Booth, of the Salvation Army, has planned a personal religious campaign that will take five years to carry out. Included in a world-wide itinerary is Detroit, which city he will visit early in the fall of 1911, before proceeding to Japan and Korea.

The general told the war in London about ten days ago that he is sure he will be able to carry out the extensive programme he has mapped out for himself, and, in any event, nothing would please him better than to quit the world as a conqueror.

It is the purpose of the army to have several days' campaign in Detroit, when delegates from a dozen states will assemble here to welcome the founder of the great movement. Among the things the general will advise the American branch of the army to adopt will be a large Salvation Army bank, modelled on the plan of the institution in London, a Salvation Army fire and life insurance company, and an extension of the industrial movement.

"They tell me I am getting old," the general said; "that may be so, but really I feel as though I had lots of real good fighting blood in me yet. I have planned all my life to do something, and I feel confident that the programme will be carried out to the letter. If God takes me while I am addressing a meeting, or when in conference with my officers, I am quite ready to go, but there is no reason why I should retire from active service, and I don't propose to do so while I am able to draw the breath of life."

**LORIMER'S AIDE KILLED.**  
Chicago, Aug. 17.—Daniel Cummings, said to be one of Senator Lorimer's lieutenants, was shot and killed today by Thos. J. Bent, alleged to be allied with a faction opposed to Lorimer.

Bent calmly awaited arrest and refused to talk until he had consulted a lawyer. Neighbors told the police that Bent waited for an hour in front of Cummings' home, and began firing when Cummings appeared.

### THE RUSSIAN SCOURGE.

St. Petersburg, Aug. 17.—The horrors of the cholera scourge in Russia, according to Professor Rein, of the red cross, who has been sent by the Government to South Russia to study measures of combatting the disease, are steadily increasing. Children are dying in many instances because their parents and adult relatives have been swept away by the disease, leaving them unprotected.

There is no indication yet of the epidemic diminishing in vigor, and thousands of new cases are being registered daily, the official figures, according to reports, though immense in themselves, understating the full extent of the disease owing to the impossibility of registering all cases.

### MIDLAND FIRE INQUIRY.

Midland, Aug. 17.—Percy Barry, a young man, was arrested this morning on suspicion of being implicated in an incendiary fire in the town. The provincial authorities opened a fire inquiry last week, and were told by Barry that he had been in the town during the past year, hence the investigation.

**THE PORT COTTAGERS IN BOWLING TOURNEY.**  
Fine Form Shown By Players of Both Sexes.

[Special to The Advertiser.]  
Port Stanley, Aug. 17.—The steamer Forest City arrived from Cleveland this morning with a large number of passengers.

Many of the cottagers are in St. Thomas today attending the Catholic picnic at Pinfare Park.

The bowling contest on the Willow Beach green is still in progress and interest in the tournament is at a high pitch. Yesterday's scores were: Mr. Roward 24 and Dr. Marlatt 11, Rev. Mr. Scott 33 and Mr. Ray Culp 14, Mr. C. A. McCormick 27 and Mr. Harold Southern 10. The ladies are also playing in the contest. Their score is: Mrs. J. A. Jones 17 and Mrs. C. A. McCormick 12, Mrs. E. J. Butler 21 and Mrs. (Dr.) Mothersill 7, Miss Mary Jones 21 and Miss Kate Ellison 8, Miss E. Marlatt 20 and Miss M. Keene 9, Miss Kate Marlatt 26 and Mrs. A. S. Smith 11.

Canon and Mrs. Downie spent Tuesday in London.

Mrs. James Smith and daughter Cora, Mrs. George Childs and daughter Elva, of St. Thomas, are holidaying at Solid Cottage, Willow Beach.

The annual harvest home and Thanksgiving services will be held in Christ Church on Sunday, Aug. 22.

Miss Marguerite Tongue, of Detroit, who has been spending her vacation with Mrs. Morgan, was summoned home to the bedside of her mother, day on the Virginian.
