CASES OF PATIENTS
ARE BEING INVESTIGATED
Committee of County Council is Inquiring Into Victoria Hospital Accounts.

A committee of the county council composed of Mr. George Innes, Mr. Hugh Brodie and county hospital trustees T. G. Turnbull, is in session today investigating the cases of five patients who are in Victoria hospital at the expense of the county and who have already cost Middlesex over \$1,400.

The patients are all old men, suffering from ulcerations, and the committee suggested to send them to the county House of Refuge at Stratford, where there is a suitable infirmary. The matter was taken up at the last session of the county council, when the committee was named to investigate.

A report will be made at the coming session of the council, and the suggestion that they be removed to Stratford will probably be adopted. The problem is considered a serious one, as the cost of the patients is too much money. The county pays a dollar a day for all patients at the hospital, while at the house of refuge a man can be maintained for \$2.50 a week, they claim.

Very Few Prisoners Spent Day at Castle Carter.

By any chance London police court ever goes out of business Governor Carter of the county jail will be able to shut up shop and retire. The number of prisoners who usually occupy the cells at the castle have taken New Year's resolutions to keep out of trouble and it is not known that any of the usual offenders have been taken down to dinner. Fifteen of these were gentlemen who are catalogued as "chaps" and the rest were "chaps" who are supposed to be rather weak mentally. However, they are physically fit to enter any endurance contest.
