CLARION CALL TO METHODISTS

Protest of Conference Against the Bar and Social Evils Was Strongest Ever Lodged.

A REVIEW OF MEETING

"Stand by the Candidate Who Is in Favor of Abolishing the Bar," Said the Members.

[By Our Own Man.]

St. Thomas, June 12.—London Methodist Conference has come and gone. With the final adjournment, the ministers returned to their far scattered charges, not to meet again for another year, when the conference will assemble in the First Methodist Church, London.

This year's conference has been a notable gathering in more ways than one. Its protest against the bar, race-track gambling, the social evil and kindred subjects, was one of the strongest ever presented to or adopted by any church body in Canada. It is more than a protest.

A Clarion Call.

It is a clarion call to all Methodists to align themselves against the rum power, and by the power of their ballots crush out the bar in Ontario.

"Get behind the candidate who is in favor of prohibition, and if neither candidate will stand for prohibition, then bring out a man of your own. Stand by the candidate whose slogan is abolish the bar," said the temperance and moral reform committee, and the conference adopted the report with a hurrah.

Against Tobacco Growing.

Another measure adopted by the conference, whose working out will be watched with equal interest by both tobacco if it grows must grow in the Methodists and those outside the fold, is the pronouncement against the growing of tobacco. The cultivation of this crop, it was decided by a large vote, is utterly at variance with the position of the church. After this

DR. BENTLEY, SARNIA NAMED HEALTH OFFICER

Will Be in Charge of District No. 1 With Headquarters in London.

[Canadian Press.]

Toronto, June 12. — The appointments of the various district officers of health, under the legislation passed at the last session of the Legislature, have been, with the exception of the eastern division of New Ontario, which is held for further consideration, made by the Ontario Government.

West, district No. 1, comprising the counties of Essex, Elgin, Kent, Lambton, Middlesex and Oxford, with headquarters at London, Dr. Bentley, of Sarnia.

District No. 2, comprising the counties of Bruce, Dufferin, Grey, Huron, Perth, Wellington and Waterloo, with headquarters at Palmerston, Dr. McNally, of Owen Sound.

District No. 3, comprising the counties of Brant, Haldimand, Halton, Lincoln, Norfolk, Peel, Welland, Wentworth and York, with headquarters at Hamilton, Dr. McClenahan, of Waterdown.

These officers will report for the prescribed course of instruction, Aug. 1 next. An examination will be held at the close of the term mof instruction, and upon the reports of this, the Legislature tenure of appointment will depend.

Dr. Bentley, the recently-appointed health officer for district No. 1, with headquarters in London, is well known here. At the present time he is attending the camp of the Army Medical Corps, holding the rank of major. He has attended all the regular militia camps here and elsewhere for some years, being attached to the Twenty-seventh Regiment, Lambton Borderers.

Dr. Bentley was born in Lambton County, practicing for a time at Watford and later at Sarnia. He was an active politician, being one of the active supporters of Hon. W. J. Hanna, at Sarnia.

Dr. G. A. Bentley, formerly of this city, is a brother. His mother, Mrs. Bentley, lives on Colborne street.

ROAD IS CLOSED SOUTH OF LAMBETH

County Engineer Talbot wishes to draw the attention of the motorists of the city and district to the fact that the road between Glendale and Lambeth is closed for two or three weeks on account of the erection of two new bridges on that road. He says, however, that there is a good road to the south, and that there are notices posted up at the corner warning the people of the closing of one road and the course that may be taken.

HON. W. J. HANNA.

WILLIAM B. McKINLEY.

Illinois traction magnate and congressman, who's been running Taft's campaign, who's on the job in Chicago and believes the president will be renominated

BANISH THE BAR, SAYS SHEARER TO THE GENERAL ASSEMBLY

Head of the Presbyterian Moral Reform Section Makes Impassioned Appeal for Temperance and War On Social Evil—Attacks Race Tracks and Gambling.

[Canadian Press.]

Edmonton, Alta., June 2.—At the session of the Presbyterian General Assembly, Dr. Shearer, in the course of a vigorous address, declared that so long as he lived he would never give up the fight against the social evil in Canadian cities. Other forms of evil demanded the attention of the church, but this was the most select, the most insidious and more deadly. Resolutions dealing with various phases of moral reform were adopted by the assembly.

New Activities.

Rev. Dr. A. S. Grant declared that a new committee of the church on social service and evangelism was going to lead the denomination to an entirely new view of religious activity. He declared that questions of country and city were at the bottom identical. He said the church must solve the city problems to save its own life, and that work should be done, not by the efforts of the clerics, but by the combined efforts of every individual believer.

Dr. J. S. Shearer, secretary of the board of social service and evangelism, spoke of the fight against various forms of moral evil. Speaking of the social evil, he said that he was always able to count without reserves the steady support of the General Assembly in the struggle with this terrible evil, but that even when he could not do so, he would count his duty before God to continue the fight until there was not a city in Canada where there was a colony of law-protected criminal vice.

Refers to Winnipeg.

Reference was made to the conditions which had existed in Winnipeg, and a tribute of respect was paid to Mayor Waugh and other members of the police commission who had decided that the houses on Rachael and MacFarlane streets must be brought under the criminal code. In addition to pressing the rigor of the law against the people involved in this criminal business the church has been holding out the hand of mercy and offering a way of escape to all who would avail themselves of it. There had also been continued throughout the year a campaign of prevention.

Attacks Gambling.

Dr. Shearer made a vigorous attack on the Government of Canada for its fault to deal with the evil of race-track gambling. There was practically no place under the Stars and Stripes, he said, where race-track gambling could be carried on with the approval of the law, but in Canada under the Union Jack, this was still possible. It was a stain on the flag which the Canadian people would at some time in the near future remove.

Speaking on the temperance question, Dr. Shearer referred to the action of the Liberal party in Ontario in making an out-and-out declaration on the favor of provincial prohibition. He referred to the position taken by Sir James Whitney on the subject, and said that the only way to terminate the treating system was to banish the bars.

MONUMENT AFFAIRS WOUND UP BY THE CITIZENS' COMMITTEE

Balance to the Good After All Expenses Have Been Met—History of the Monument Project—Committee Return Thanks.

The citizens' monument committee met today to wind up its business. The following report was read and ratified, and ordered to be published:

The Report.

In the year 1903, soon after the close of the war in South Africa, the Imperial Order of the Daughters of the Empire in this city undertook to raise funds for the erection of a monument. The ladies worked most energetically, and as they met with a hearty response from our citizens and others, the necessary funds were subscribed within a reasonable time.

Difference of opinion arose, respecting the design of the monument, resulting in litigation, which was compromised by an agreement dated March 24, 1910, and signed by J. B. Clark, solicitor for the national executive committee, I. O. D. E., and Geo C. Gibbons, solicitor for the officers and members of the Municipal Chapter of London and the trustees of the monument fund. Under this agreement, the matter was finally placed in the hands of a committee of citizens, with the understanding that they were to take steps for the completion of the monument as quickly as possible, and that any subscriber who was not satisfied with the design selected, could, on request, within a certain time, have his money refunded.

The committee consisted of the following members: Judge Macbeth (chairman), Lieut.-Col. Gartshore, Messrs. J. H. A. Beattie, T. H. Smallman, and J. W. Little (secretary).

The New Monument.

The committee went to work at once, and after careful consideration, awarded the contract for the monument to Mr. C. W. Hill, sculptor, of Montreal, who agreed to have it completed and erected before Nov. 1, 1911. The modelling was done in Belgium by Mr. Hill, and the castings were made there. The figures arrived here in good time, but unfortunately the granite which was all ready for shipment and stored in a warehouse at the quarry, was destroyed by fire, and as it was too late in the season to reopen the quarry, nothing could be done until the following spring.

When the funds collected by the ladies were handed over to the committee there remained a considerable number of unpaid subscriptions, and it was thought well not to make any attempt to collect these sums until the money was needed. In the month of March of this year a circular was sent out, and the committee are pleased to be able to report that all money subscribed was paid in promptly, except $37.

ALLEGED THIEVES FREED, BUT WERE AT ONCE ARRESTED

Charged With Stealing Bikes, Two Youths Are Found Guilty of Burglary.

Albert Lee and Morris Perrin, two Toronto youths, who were arrested yesterday in St. Thomas charged with having stolen two bicycles in London, and who were later found to have burglarized a St. Thomas shoe store, where they obtained considerable loot, were found guilty and allowed to go on suspended sentence by the railroad town authorities this morning.

Lee and Perrin, after escaping punishment on the burglary charge, were, however, again taken into custody, and will be brought back to London this afternoon by Detective Egelton, and will appear in police court tomorrow morning, charged with the bicycle thefts.

The bicycles, which belonged to Mr. John Lochead and Mr. Cecil Holland, were, however, shipped back, and were identified by the owners. Lee and Perrin —not the saucemakers—had endeavored to sell the wheels for $15 each after riding from London to St. Thomas, and were taken into custody on information which had been supplied to Chief Armstrong, of that place.

Before sending them back, however, a visit was made to their boarding-house, where ten pairs of shoes and three suitcases which had been stolen from a store there were discovered. The burglary had been committeed by men who climbed up over the roofs of adjoining buildings and entered the place through a window.

It is said that both Leen and Perrin are well to do, and that they have received an education above the ordinary. One of them claims to have been a student at Toronto University, and says he left there only a short time ago.

The remaining four bicycles of the six which were stolen about the streets on Monday have all been recovered from the stores of local second-hand dealers. The detectives are now endeavoring to ascertain who appropriated them.

THIRTY DAYS FOR ROY SINGER IN THE DETROIT WORKHOUSE

Youthful Vocalist Is Wanted in London and St. Thomas Also.

[Special to The Advertiser.]

Detroit, June 12.—Roy Singer, wanted by the London police on the charge of stealing $60, was sentenced to pay a fine of $100 with the alternative of serving 30 days in the Detroit House of Correction. Singer, with a companion, pleaded guilty in Justice Jeffrey's court to robbing a showcase in front of a Woodward avenue store last Sunday morning. Singer was identified as being a man the London police were looking for. As he has no money to pay his fine he will go to the House of Correction, and will be turned over to the London police at the completion of the sentence.

Singer, who was formerly known here as a newsboy, and who had frequently been arrested for theft, is now wanted on warrants sworn out in both London and St. Thomas, and will be turned over to the local police when released after serving his time in Detroit.

The London warrant charges him with stealing $85 belonging to Frederick Knowles, who boarded at the home of W. R. Vantassel, 288 Hyman street, while he and Knowles had rooms in the same place. The money is said to have been taken by Singer, who rummaged through Knowles' property during the owner's absence.

The charge against him at St. Thomas is also of a serious nature. On Saturday, June 1, Singer, who was then a vocalist at the Princess Theatre in St. Thomas, cashed a check with R. A. Robbins, a tobacconist, for $12. The name of the manager of the theatre had been forged to the paper.

Singer was traced from St. Thomas to Detroit, but before action was taken to definitely locate him, news of his arrest in the border city was received.

OCEAN STEAMSHIPS.

New York, June 12.—Arrived: Olympic, from Southampton; Oscar II., from Copenhagen; Cleveland, from Hamburg; Kron Prinz Wilhelm, from Bremen.

Glasgow, June 12.—Arrived: Cassandra, from Montreal; Pomeranian, from Philadelphia.

Fishguard, June 12.—Called: Campania, from New York.

CHARLES DICK.
Ex-senator from Ohio, contest manager for Taft before national committee.

ENGLISH ACTOR LIKES LONDON

Mr. William Hawtrey Is Spending His Vacation in the Forest City.

REMAINS TILL AUGUST

Will Then Resume His Tour at Halifax —Partner is Ill, and Arrangements Have Not Been Completed.

Mr. William Hawtrey, the well-known English actor, who appeared here last season in "Dear Old Billy," is spending his holidays in London, and will probably remain here for the hot season. He came at first to spend only a few days with his old friend, Mr. H. Campbell Becher, having formed an excellent impression of the city and its people on the occasion of his visits. So pleasant was it for him, however, that Mr. Hawtrey decided to spend his holidays in London.

"I formed a very favorable impression of London when I came through here," he stated to The Advertiser, "and I decided to spend a few days with my old friend, Mr. Becher. Instead of remaining a few days, I am going to spend weeks here. London is a very pretty city, and I am enjoying myself greatly. I am glad to get away from the big cities with their noise and elevated tracks. London is very pretty, a lovely spot for a holiday, and I am having a most delightful time."

Mr. Hawtrey has not made his plans for the coming season. His partner has been ill for some time, and as a result there has been no communication between them for almost a month.

"I will probably resume my tour in Halifax some time towards the latter part of August," said Mr. Hawtrey. "However, we have made no arrangements as yet, owing to the illness of my partner. We will visit London on our trip."

Mr. Hawtrey is the eldest brother of Mr. Charles Hawtrey, the famous actor.

ATLANTIC FREIGHTER GIVEN UP AS LOST

Sailed From Baltimore on February 17th Last and Has Never Been Heard Of.

[Canadian Press.]

Berlin, June 12.—One of the unreported tragedies of the sea has just come to notice in the mysterious disappearance of the Hamburg trans-Atlantic freighter Mount Oswald.

The steamship left Baltimore on Feb. 17 with a heavy cargo of merchandise, and was due in Haanburg the first week in March. She has never been heard of since her departure from Baltimore.

Weeks elapsed before the owners could be persuaded that she was lost, but a few days ago the consignees of the cargo were officially informed that the insurance companies, which were responsible for amounts aggregating roundly $100,000,000, were now ready to pay the total duty on the policies.

Where and how the Mount Oswald disappeared is a profound mystery. She was a first-class cargo boat of 5,000 to 6,000 tons, and carried a crew of forty or fifty men.

OFFICERS ELECTED BY CANADIAN FORESTERS

Toronto and London Are Making Strong Bid for the Next Convention.

[Canadian Press.]

Hamilton, June 12.—At this morning's session of the Canadian Foresters the following officers were re-elected: J. A. Stewart, Perth, high chief ranger; A. P. VanSomerne, Brantford, high secretary; Dr. U. M. Stanley, Brantford, chairman medicol board; R. E. Elliott, Brantford, high treasurer.

There will be a contest for the office of vice-high chief ranger, between J. A. Brodeur, Montreal, and D. A. Allen, Grimsby. Toronto and London are making a strong bid for the next convention.

THE WEATHER.

TOMORROW—FINE AND COOL.

Forecasts.

TORONTO, June 12—8 a.m.

Today—Fresh to strong westerly to northwesterly winds; clearing and a little cooler.

Thursday—Fine and comparatively cool.

Temperatures.

The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today:

Stations.	High.	Low.	Weather.
LONDON	83.5	42.5	Rain
Calgary	84	46	Clear
Winnipeg	76	44	Clear
Port Arthur	60	40	Clear
Parry Sound	70	50	Cloudy
Toronto	79	56	Cloudy
Ottawa	78	56	Rain
Quebec	72	56	Cloudy
Father Point	60	46	Cloudy

Weather Notes.

A depression which developed during the night is situated in the Ottawa Valley, while pressure is high in Manitoba and over Lake Superior.

Showers were general during the night over Ontario.

In the West fine, warm weather prevails.

ASQUITH ANNOUNCES NEW FRANCHISE BILL

[Canadian Press.]

London, June 12. — Premier Asquith announced in the House of Commons today that a franchise reform bill would be introduced at an early date. The bill, as drafted, will give one man one vote, on a short residential qualification, with the simplest form of registration, the latter being at the public expense. A clause fixing all the elections for one day may be added.

The official woman suffrage amendment to the bill cannot be forthcoming until the bill is printed. There will probably be some limitation regarding women voters. Simple adult suffrage, without reference to sex, cannot be put forward with any hope of success, since such a course would give the register in each constituency a majority of women. This is likely to cause trouble.

ASQUITH STRENGTHENS CABINET BY TAKING IN ATT'Y-GENERAL

Sir Rufus Isaacs Joins the British Cabinet, Greatly Adding to Legal Strength of Government—London Daily Mail Says Too Many Lawyers in the Cabinet.

[Canadian Press.]

London, June 12. — Attorney-General Sir Rufus Isaacs has been added to the British cabinet. He is the first attorney-general to be given such a position.

One explanation of the appointment is the desire of the Premier to strengthen the legal element in the inner council of the ministry in view of the withdrawal of Lord Loreburn, but the Daily Mail points out that in no cabinet in recent times has the legal element been stronger, thus justifying H. G. Wells' criticism that the country is governed by lawyers. Seven members of the cabinet are barristers or solicitors by profession, namely: Asquith, Lloyd George, McKenna, Birrell, Lord Haldane, Lord Morely and Sir Rufus Isaacs.

"Thus," says the Daily Mail, "the legal profession is steadily strengthening its grip on the government of the country, and displacing the business and land-owning elements."

Arranged By Wireless.

Lord Loreburn's resignation as lord high chancellor and Lord Haldane's acceptance of the post were arranged by wireless, which is probably the first time in history that such an event was conducted in that manner.

Premier Asquith was cruising in the Mediterranean, when Lord Loreburn wrote, resigning his position, and his letter was transmitted by wireless. In a similar way, arrangements were concluded with Lord Haldane by wireless to take the vacant place.

It was generally expected some months ago that Premier Asquith himself would succeed Lord Loreburn if the latter could be prevailed upon to retire, which, according to the gossips, he stubbornly refused to do, because of a personal feud with the Premier.

The conditions are now different. Mr. Asquith considers it his duty to the Liberal party to retain his premiership, and Lord Loreburn had no objection in resigning, so long as it was not in favor of Mr. Asquith.

Mr. Asquith's retirement from the woolsack at the present stage would be likely to cause a serious split among the Liberals, among whom there is no sort of agreement as to his successor.

ANGLICANS GET MARRIED BY OTHER CLERGYMEN

Canon Craig Says They Do This to Avoid the Questions Necessary in the Church of England, and He Objected to the Service Being Further Complicated.

Discussion of the proposed canon regulating the keeping of parish records, which was introduced by His Lordship Bishop Williams with a view to securing more accurate statistical knowledge of the state of the church in this diocese, occupied a large part of this morning's session of the Synod of Huron in Cronyn Hall today.

This canon provides that the church wardens in each parish shall keep a register of baptisms, confirmations, marriages and burials, a preacher's book or register of services; a register of all persons subscribing themselves as members of the congregation, and an official list of the members of the vestry.

The report of the management of Huron College was submitted for adoption, and the committee on religious instruction in the schools finished their report, which recommended increased agitation for Bible teaching in the public schools.

A Radical Move.

A motion by Mr. John Ransford, of Clinton, that the lay ballot containing the names of candidates for the church executive be reprinted with the number of times each man had attended the meetings of the executive placed after his name, was carried after considerable discussion.

It is hoped that this will help the voters of the synod to give credit where credit is due in selecting their candidates, and prevent the perpetuation in office of men who rarely attend the meetings of the executive. Many of the clergy were opposed to this innovation on the grounds that it was too much like a political move.

Parish Registers.

The discussion of the canon on parish registers and records largely centred around the clause regarding registry of marriages, many of the clergymen being of the opinion that the keeping of the register required by the Government should be sufficient.

"Anglican marriages are becoming unpopular," said Canon Craig, of the Church of St. John the Evangelist, London. "People who call themselves members of the Church of England are running off to get married by Methodists and Presbyterians. They do this simply to get out of the signing and soforth which our service requires. I think we should not unnecessarily complicate the marriage service of the church in this respect."

"I think that it is highly important that our registry system should be maintained," said Judge Holt, lay delegate from Goderich. "It is one of the strongest traditions of the dear old church."

The discussion continued until the close of the session, and a clause was added, making the rural deans responsible for the proper oversight of the registers.

Out of Order.

Mr. A. E. Welch submitted a motion requiring all incumbents of parishes whose assessments had not been paid to forfeit their seats in the synod. This motion was ruled out of order, Bishop Williams holding it to be unconstitutional.

Huron College.

The bursar's statement for Huron College, which was presented to the synod this morning, showed the affairs of that institution to be in a satisfactory condition. The total receipts for the year were $10,627.29, and the profit and loss account showed a net gain for the year $497.90. The statement will be considered by the synod at a convenient time during the week.

BRITISH MANUFACTURERS WILL PAY BUT A BRIEF VISIT

They Represent About 450,000,000 Pounds, in Money and Are Among the Biggest Businessmen in Great Britain—Names of the Visitors and the Firms They Represent.

Preparations are being made to entertain the British manufacturers who will be in London on June 21, for half a day. As a result of their very brief visit, there will be no luncheons or social affairs whatever.

"The visitors are coming strictly on business," declared Mr. J. Grant Henderson, commissioner of industries, who is working with the board of trade for their entertainment. "They will breakfast in their own cars in the morning, and after that will be taken in automobiles through the various factory districts, and given every possible facility for studying conditions. The visitors will be shown every attention, and the possibilities of London will be carefully explained to them."

Sixty Businessmen.

There are about 60 businessmen in the party. Ald. W. D. I. Wright, who has just returned from a trip to England, came over with them, and declares them to be big men, bent on business.

"They are a fine lot of men," he stated to The Advertiser. "There are about 60 in the crowd, and they represent £450,000,000 rather a tidy sum. Their object is to study conditions here and endeavor to develop trade within the empire. I met several of them on the voyage, and I was delighted with them."

The party were delayed 36 hours by ice fields. The Empress of Ireland came to a dead stop, while the ice was about them. Seven or eight liners were in the same position, some of them being held up for three days.

Names of the Visitors.

Mr. Henderson has received the names of the visitors who will come to London, together with the firms they represent. They are as follows:

Vickers, Ltd., Wolseley Tool and Motor Car Company, Ltd., Electric and Ordnance Accessories, Ltd., represented by James N. Vickers.

Wm. Beardmore & Co., Ltd., by Geo. T. Nellson, steel works manager.

Mather & Platt, Ltd., by Frederick Dowson, director.

National Gas Engine Company, Ltd., by A. Bickerson Balmford, B.A., company's engineer.

General Electric Company, Ltd., Aron Electricity Meter, Ltd., Peel Conner Telephone Works, Ltd., Robertson Electric Lamps, Ltd., Osram

(Continued on Page Eleven.)

WORLD BUREAU TO WATCH WEATHER

Scheme Will Make Safer Crossing of the North Atlantic.

LINERS TO GATHER DATA

Ships Can Be Warned of Storm's Approach and at Once Change Their Course.

[Canadian Press.]

London, June 12.—The first formal step in the campaign for the establishment of an international weather and storm bureau has been taken here by Prof. Willis Moore, chief of the United States weather bureau.

In speaking of his plan Prof. Moore said: "If the plan is adopted, so far as storms are concerned, the crossing of the Atlantic will be made as safe as a short street car journey. Great ocean liners will have but little to fear from anything except the most destructive gale may, by alternating their course on receipt of the warning by fifty miles or more, escape a rough passage, while the smaller steamers and sailing ships by making a wide detour may escape possible destruction."

Prof. Moore outlined the plan at a luncheon given him by Dr. William Shaw, head of the British Weather Service, and the scientific staff of the London Meteorological Station. Prof. Moore has carried the fight for the adoption of the plan into the International Radio Congress, now in session here.

Liners Gather Data.

According to the plan, a meridian line will be established through the North Atlantic. All ships sailing in either direction westward of this meridian are to be compelled to take a daily weather observation, which must be sent by wireless to the nearest ship in communication to the west, and thence the messages are to be relayed until they reach the nearest land station. The messages are then to be telegraphed to Washington, where the weather bureau will make up a weather chart and a storm warning which will be cabled to Europe.

Ships to the eastward of the meridian will follow similar instructions, relaying the messages until they reach either London or Paris. The weather chart and storm warnings made up by the European station will be cabled to Washington, and the storm locations from both America and Europe as compiled will be sent by wireless telegraphy to the nearest ships, which will be in duty bound to transmit them to the vessels in the vicinity of the storm-threatened areas.

INSIST ON GIVING TO PINEL FUND

Generous Citizens Send in Money Though List Was Announced Closed.

Despite the fact that the subscription lists were closed Saturday contributions continue to be received by Mr. E. R. Ruse. Needless to say the amounts are gratefully acknowledged. Mr. W. J. Clark, who has taken in about $35 for the fund, received $1 this morning from Mr. Walter Costello, a former member of the old Pastime baseball team, on which Private Pinel was catcher. Other subscriptions are:

G. M. B.	$1.00
An old friend in Toronto	2.00
Joseph Graham	1.00
N. H.	5.00
J. C.	3.00

When all funds are turned in to Mr. Ruse the total will be about $700. Arrangements for a baseball benefit are progressing.

DISSATISFACTION OVER FIRST TARIFF CHANGE

High Protectionists Say Borden Should Not Yield to Rogers and West.

[Special to The Advertiser.]

Ottawa, June 12.—There is a good deal of dissatisfaction with the Borden Government's first tariff change. Finance Minister White has received a great number of indignant letters from men and firms throughout Canada, east of the lakes. Most of them have no financial interest in cement, but they have a strong belief in the sanctity of protection.

Premier Borden also has heard from some conspicuous supporters who fought for him in the last campaign regretting that he has been weak enough to yield to Mr. Rogers and the West. It has been pointed out that one result of this action will be loss of confidence in the stability of the tariff such as existed throughout Mr. Fielding's tenure of office as finance minister.

It is stated here that most of the members of the Manufacturers' Association are greatly disappointed with what the Government has done for cement.

COURT GIVES DECISION IN LUMBER CASE

No Free Entry When It Is Sawn and Dressed On One Side.

[Canadian Press.]

Ottawa, June 12.—Judgment in the important customs tariff case of Foss Lumber Company vs. the King, was handed down by Mr. Justice Cassels in the exchequer court this morning. His decision is that lumber sawn and dressed on one side and afterwards sized by the aid of other machinery, is not entitled to free entry under item 504 of the tariff.

In the case of Charlton vs. the King, an action arising out of an accident to a passenger on the Intercolonial Railway at St. John, N. B., in which the suppliant claimed $10,000, Mr. Justice Audette has handed down judgment dismissing the petition.

A Wages Case.

Tuesday night Squire Chittick reserved judgment in the case of Smith vs. McMillan, in which the plaintiff claims $17.85 balance of wa... the defendant, who is ... Westminster Tow...
