There is not the least danger of a shortage of meat at Dawson City this year, for large herds of caribou and moose have been running in the neighborhood of the town and as many as 50 head have been shot at one time. The result of this is that the price of meat a pound, and parties who took in beef from Victoria are holding for a rise, as present prices would not pay expenses. The caribou of the Yukon are migratory in their habits and, as Mr. William Oglive stated in his lecture here, are rarely found two successive seasons in the same place. Mr. Walter Nichol, editor of The Province, and Mr. Hewitt Bostock, M.P., whose cases were announced to be heard, were also present early, and Mr. Coltart arrived in good time to hear the magistrate's adverse decision in his own case, which makes it necessary for him to attend the first court of competent jurisdiction to answer to the charge of criminal libel.

The proceedings during the day were enlivened by frequent passages-at-arms between the opposing counsels. It was decided to bring on the case against Mr. Bostock to-day at 11 o'clock, and it is expected that unusual interest will be aroused when this case comes up, as several prominent witnesses will probably be placed on the stand.

Before taking up the case of Mr. Walter Nichol, editor of the Province, Magistrate Macrae gave his decision in the Coltart case. He said:

"I don't propose to keep you here long, Mr. Coltart. Since reserving my decision last week, I have carefully read and have carefully considered the evidence in the case, and the arguments of counsel on both sides, and I have arrived at the conclusion that this charge ought to go to a jury. You will therefore be bound over to appear at the first court of competent jurisdiction."
