ON THE

Philosophy of Marriage and the Secret Influences of Youth and Maturity.

With fifty Coloured Engravings on Steel.

In a Sealed Envelope, price 2s. 6d. netting.

SELF-PRESERVATION—An Analytical

and Philosophical Investigation of the Physiology and Functions of Marriage, and the bearing

ings in which it is important subject affects the health and happiness of man, with its

disqualifications, and impediments, tracing their origin to the effects of juvenile solitary

habits, youthful excess, tropical climates, or close study; followed by practical re-

marks, founded on twenty years' experience in the treatment of impotence, nervous

debility, local weakness, spermatorrhoea, syphilis, and all diseases of the urinary

and generative system. Illustrated by fifty Coloured Engravings on the anatomy

of the reproductive organs and their relative conditions in health and disease. By

SAMUEL LA MERET, M.D., Nov. 37, Bedford-square, London, Doctor of Medicine, Matriculated Member of the University

of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate

of Apothecaries' Hall, London, &c.

The essential object of this treatise is to point out, the fearful consequences resulting

from certain habits, irregularities and excesses, which have produced more misery

in youth, degradation in manhood, and premature decay at all stages of life, than

perhaps, any other class of disease known to modern pathologists. Its perusal is

particularly recommended to persons entertaining secret doubts of their physical conditions,

and who are conscious of having hazarded the health, happiness, and privileges to which every human being is entitled.

The contents embrace the origin, effects, prevention and treatment of the deplorable catalogue of maladies connected with nervous debility, exhaustion of the vital energies, prostration of mental and physical

capacity local and general weakness, acute and chronic spermatorrhoea, and their endless modifications. The treatment adopted is founded on experience gained in the most

celebrated schools of medicine, and by the most eminent practitioners, both in Great

Britain and in Continental Europe. Every peculiarity relating to the physiology, pathology, and general treatment of the diseases incidental to the generative system is

clearly explained, and the means of immediate relief and ultimate cure described in detail. The professional reputation of Dr.

La Meret, who has taken the most distinguished medical and academic honours, at home and abroad, is in itself a sufficient

guarantee that those who may place their selves under his care will, in every instance

meet with that delicate consideration and invariable secrecy which are so requisite in

the treatment of these cases.

CAUTION—In consequence of the extensive sale of this work, which has now attained its sixtieth edition, several spurious and imperfect copies are in circulation.

The genuine edition can be had only of the Author or his advertised agents.

The work may be had in St. John of U. Chubb & Co., price 2s. 6d. ag.; Halifax, Messrs. Morton & Co.; Quebec, at the

Gazette Office; Montreal, Mr. Dawson, bookseller.

Dec. 14, 1853—6
