PRO-SPECTUS

For the Second Volume of the

B.A. CULTIVATOR

WILLIAM EVANS, Editor. W. G. EDMUNDSON, Pub. and Proprietor.

This is the twelfth monthly number that has been published of this Periodical since its commencement in January last, and it is for the Subscribers to judge how far we have fulfilled our engagements to them. It has certainly our desire to make THE CULTIVATOR useful and interesting, but it will be for others to show, by their future support and encouragement, if we have been successful in our endeavours. We offer the columns of THE CULTIVATOR to the communications of any who may desire to instruct or enlighten their brother-farmer on the science or practice of agriculture, or its sister arts, of any subject connected with their improvement or prosperity.

In the future numbers of this work, more attention will be paid to the important subject of Horticulture and Mechanism. Each number will contain a GARDENERS and MECHANIC'S department, and in the spring and summer months a GARDENER'S CALENDAR will be prepared monthly, adapted to the Canadian climate, seasons, and productions.

In presenting the SECOND VOLUME of The Cultivator to farmers and other classes to whom it may be useful in British America we again promise that we shall do all in our power to submit the best information we can collect on the science and practice of husbandry, and advocate in the best manner we are capable, the interests of agriculture. This publication is a proper medium for communicating the wants and wishes of Canadian farmers, and we respectfully solicit for it their unanimous support.

From the general testimony in favour of the manner in which this paper has been conducted from the public press, and the most experienced farmers throughout the Province, there is every reason to believe that it will prove universally acceptable, and remunerate its readers tenfold for their subscription.

CONDITIONS.

Each number will contain SIXTY-SIX PAGES, and the work will be beautifully embellished with cuts, illustrating the different subjects on which it treats—making a volume of 192 large pages yearly, for the low price of ONE DOLLAR, free of postage, payable invariably in advance.
