ADVICE TO MOTHERS.—MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieve wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

HOME MISSION COMMITTEE
 (WESTERN SECTION.)

The Home Mission Committee will meet in **St. Andrew's Church, Toronto, on Tuesday, March 30, at nine a.m.**

Claims for Mission Stations and Augmented Congregations for the past six months, with the names of all missionaries and catechists recommended by Presbyteries for mission work during the summer months, should be sent to the Convener or Secretary, not later than the 23rd of March. Unless this is attended to, the list cannot be completed and printed before the day of meeting.

Ministers, ordained missionaries, and students about to be licensed, who are open to engagement for a term of years in Quebec, Ontario, Manitoba and British Columbia, should send in their applications without delay.

At this meeting the grants to Mission Stations and Augmented Congregations will be revised, and the amounts fixed for the ensuing year.

CATARRH:
A NEW TREATMENT.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting from the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with **MESSRS. A. H. DIXON & SON,** 305 King Street, West, Toronto, Canada and enclose stamp for their treatise on Catarrh.—*Montreal Star*
