

POVERTY OF THE BLOOD.

A Trouble that is Making the Lives of Thousands Miserable.

It Brings in Its Train, Nervousness, Pains in the Back and Side, Headaches, Heart Palpitation and Results Fatally Where Efficacious Treatment is Not Resorted to.

From the *Sussex, N.B., Record*.

There are many ways in which people may prove benefactors of the human race. There are those who of their abundance spend large sums in erecting public buildings and beautifying public parks. Others spend their money in charitable work, and in alleviating the sufferings of less fortunate fellows, and for these acts these people are honored. The person who having obtained relief from sickness and makes public the means by which health was regained, is none the less a public benefactor. Among these latter is Miss Elena O'Neil, daughter of Mr. Jas. O'Neil, a well to do farmer living near Millstream, Kings Co., N.B. Miss O'Neil was attacked with anæmia (poverty of the blood) a trouble unfortunately too common among the young girls of the present day, and one which is certain to terminate fatally if not promptly checked, and the blood enriched and renewed. Having discovered a remedy that will achieve this happy result, Miss O'Neil is willing that less fortunate sufferers may reap the benefit of her experience. To a correspondent of the *Record*, Miss O'Neil related the story of her illness and cure. She said: "I believe that had I not begun the use of Dr. Williams' Pink Pills my trouble would have ended fatally. My illness came about so gradually that I can scarcely say when it began. The first symptoms were a loss of color, and a feeling of tiredness following even moderate exertion. Gradually I became as pale as a corpse, and was extremely nervous. Then I was attacked with a pain in the side, which daily grew more and more intense. I coughed a great deal and finally grew so weak that if I went upstairs I had to rest when I reached the top. My appetite forsook me. I was subject to spells of dizziness, and severe headaches and was gradually wasting away until I lost all interest in life. I had tried a number of medicines but found no relief. In this apparently hopeless condition, while reading a newspaper I saw a statement of a young lady whose symptoms were almost identical with my own, whose health had been restored through the use of Dr. Williams' Pink Pills. This statement was so encouraging that I determined that I would try this medicine. In my case as in that of the young lady whom I had read about, the result was marvellous. The pain in my side from which I had suffered so much, disappeared, my nerves were strengthened, my appetite returned and my whole system seemed to be strengthened and renewed. I am now as well as any member in the family and have not known what sickness was since I discontinued the use of Dr. Williams' Pink Pills. My gratitude towards this grand medicine is unbounded and I hope my statement may be the means of bringing encouragement and health to some other sufferer.

The gratifying results following the use of Dr. Williams' Pink Pills, in the case of Miss O'Neil prove that they are unequalled as a blood builder and nerve tonic. In the case of young girls who are pale or sallow, listless, troubled with a fluttering or palpitation of the heart, weak and easily tired, no time should be lost in taking a course of Dr. Williams' Pink Pills, which will speedily enrich the blood and bring a rosy glow of health to the cheeks. They are a specific for troubles peculiar to females, such as oppressions, irregularities and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of whatever nature.

Dr. Williams' Pink Pills are sold in boxes (cover in loose form by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont.

OBITUARY.

REV. JOHN MUTOH.

Widespread regret will be felt throughout church circles in this city at the announcement of the death of Rev. John Mutoh, which occurred at 1.15 o'clock on the morning of March 13. It was hardly more than a week since Mr. Mutoh was seized with the illness which ended fatally, and during that time he had suffered greatly, although skillful medical care had done all that lay in scientific knowledge in alleviating physical pain. The ailment which so suddenly prostrated him was appendicitis, and while from the first very little hope was entertained of his recovery, his life was prolonged for some days. The deceased gentleman had been pastor of Chalmers' Church for twelve years, and during that time he not only made himself beloved by his own congregation and those whom he came in contact with in the discharge of his duties as a Christian minister, but he compelled the respect and esteem of the general community. Mr. Mutoh was born near Montrose, in the County of Forfarshire, Scotland, December 16, 1852. When only a few months old he came to Canada, his parents settling in the Township of Egremont, Grey County. He received his education at Hamilton Collegiate Institute, at Toronto University, where he took the degree of B.A. (1880) and M.A. (1881), and at Knox College, from which he graduated in 1884. During his college course he had charge of the Brockton Mission. After graduation, he was inducted as the first minister of what is now Chalmers' Church, one of the largest and most prosperous Presbyterian congregations of the city, where he labored with great success until his untimely death. Deceased married a Hamilton lady, who, with five children under twelve years of age, survive him.

A DISTINGUISHED AUTHOR.

By the death in Montreal last week of Margaret Murray Robertson, at the ripe age of seventy three, a very distinguished author passed away from the Canadian world of writers. Miss Robertson belonged to a very brilliant Scotch family, which produced such men as the late Prof. Robertson Smith—perhaps the most notable figure which has appeared in Scotch theology since the disruption—but, though born in Scotland, she spent most of her long and useful life in Canada. Her father was the Rev. James Robertson, of Sherbrooke, where one of her brothers, the Hon. Joseph Robertson, still lives. One of her brothers, Andrew Robertson, was thirty years ago one of the leaders of the Montreal bar, of which subsequently another brother, W. W. Robertson, Q.C., was Barrister. The death of one of her sisters, Mrs. Mary Robertson Gordon, the wife of Rev. D. Gordon, seven years ago, is still keenly felt as a severe loss to the Presbyterian Church in Canada, but she left an indelible impress upon its intellectual and missionary life. Several of her sons—J. Robertson Gordon, C.E., Prof. Gilbert Gordon, of Trinity University, Dr. A. R. Gordon, of Toronto University, and Rev. C. W. Gordon, of Winnipeg—have already won distinction and show that they inherit some of their mother's intellectual vigor and literary ability. Miss Robertson's literary work was better known in the old country and the New England States than here, but in Canada her books found many appreciative readers, and warm admirers. Among the best-known may be mentioned "Christie Redfern's Troubles," "Shenao," "David Fleming's Forgiveness," "Janet's Love and Service," "The Two Miss Jean Dawsons."

BEAUTIFUL FLOWERS FREE

and strawberries to be had for the picking. California only four days distant, and rates lowest of the low. Leave this land of snow and ice and take the Nickel Plate Road, with its superb service, to the Golden Gate of the Sunset Seas. For all information of rates and weekly excursions, call on your nearest ticket agent, or address F. J. Moore, Gen'l Agt. Nickel Plate Road, 25 Exchange St., Buffalo, N.Y.

PRESBYTERY OF HURON.

The Presbytery met in Clinton on the 9th inst. Elders' Commissions were called for and the roll for the year made up. Reports on Church Life and Work, Sabbath Schools, and Christian Endeavor, were read by Messrs. Muir, Shinn, and Fletcher respectively, and disposed of in the usual way. The Report on the Reception of Ministers was disposed of. A Presbyterian Christian Endeavor Society was organized. The following were elected Commissioners to the Assembly, all by rotation: Messrs. McLean, Acheson, Anderson, Muir, Fletcher, Munsters, and McKay Harold, Bassett, Wilson, and McIlrean, Elders.

Messrs. Muir and D. D. Wilson were appointed members of the Synod's Committee of Bills and Ordinances.

Dr. Moore, of Ottawa, was nominated as Moderator of next Assembly. The following deliverance was given unanimously respecting the Temperance question as at present before the Ontario Legislature, Whereas a Bill is now before the Legislature of Ontario affecting the present license law of this Province, the Presbytery, while acknowledging the advance towards a further restriction of the Liquor Traffic in the aforesaid Bill, regard the Legislature as not fulfilling the expectation of the people of the Province and would recommend the following amendments:

1st. That two licenses instead of three be granted for the first 1,000 of

Nerves

Are the Telegraph System of the body, extending from the brain to every part of the system.

Nerves are fed by the blood, and are, therefore, like it—weak and tired if the blood is thin, pale, impure—

Nerves are strong and steady, there is no neuralgia, brain is unclouded—if the blood is rich, red and pure.

Nerves find a true friend in Hood's Sarsaparilla, because it makes rich, red blood, gives good appetite and digestion.
