

The month of March and election excitement always strike Knox College about the same time of the year. The Literary and Metaphysical Society has gone through the agony of another election night. The struggle was bravely conducted, and when the smoke cleared away the following answered roll-call:—President, T. M. Logie, B.A.; first Vice-President, Jos. Elliott, B.A.; second Vice-President, F. O. Nichol; Critic, W. Gauld, B.A.; Recording Secretary, J. McNair; Corresponding Secretary, J. D. Edgar; Secretary of Committees, A. E. Harrison; Treasurer, J. S. Davidson; Curator, James Wilson; Councillors, T. G. Malcheff, J. Murison, C. T. Tough.

Then came the elections in the Missionary Society. The work of this Society is extending year by year, and the duties of its Committee are becoming more important. The raising of necessary funds, the selection and management of fields, the appointment of missionaries, the carrying on of city mission work during the college session, the partial support of a missionary in China—all this comes within the sphere of the Missionary Society's operations; and the successful management of so large and difficult an undertaking is evidence of earnestness, foresight and business ability on the part of officers and members of the Society, at once creditable to themselves and indicative of future usefulness in the Church. The officers elected for next year are as follows:—President, T. H. Rogers, B.A.; first Vice-President, P. E. Nichol; second Vice-President, J. R. Sinclair, B.A.; Recording Secretary, A. Stevenson, B.A.; Corresponding Secretary, H. R. Horne; Treasurer, W. H. Johnson; Secretary of Committees, W. R. MacIntosh; Councillors, W. H. Grant, B.A., G. W. Logie, C. T. Tough, G. L. Johnston, J. Menzies.

Sixteen missionaries have been appointed by the Students' Missionary Society to fields in Ontario, Manitoba and the Northwest for the coming summer vacation. These appointments have been made for from four to six months. Several of the fields are quite new, and the Society, in breaking ground in these new fields, deserves the liberal support it has always received. Last year fourteen fields were occupied. The following appointments have been made for the present year:—Manitoba and the North-West—Carsdale, Wm. Gauld, B.A.; Longlaketon, W. H. Grant, B.A.; Sydney, J. R. Sinclair, B.A. Ontario—Loring, W. T. Hall; Kilworthy, C. T. Tough; Kagawong, G. S. Scott; Franklin, W. R. MacIntosh; Chisholm, A. E. Hannahson; French River, G. L. Johnston; Walford, Mr. W. H. Johnson; Goulais Bay, R. G. Murison; Bethune, A. E. Harrison; Wabash, J. S. Muldrew; Frank's Bay, J. Menzies; Black River, J. S. Davidson; Veuve River, C. R. Williamson.

Knox elections being past, the only excitement now is over the Varsity elections. Caucuses, party meetings and orthodox canvassing will interfere with preparations for examinations during the present week. We are quite at sea, however, in an open boat and without compass or rudder. In "ye olden time" the slogan "Outside" or "Inside" rallied the forces, and we knew our own standing and that of every other man. But these terms are obsolete or have lost their significance. Last year it was "Federal" or "Progress." "Progress" did not long survive; this year
