

Dr. Lapthorn Smith's Private Hospital,

248 and 250 Bishop Street,

MONTREAL,

FOR THE TREATMENT OF SURGICAL AND NERVOUS DISEASES OF WOMEN.

DR. LAPHORN SMITH desires to announce to the medical profession that he has purchased the elegant modern residence next door to his own house, which he will shortly open as a private hospital for the treatment of surgical and nervous diseases of women. It is situated in the healthiest part of the west end of the city, close to the mountain, and yet only a few minutes drive from the principal railway stations. In all suitable cases electricity in its various forms will be given a fair trial before resorting to operative procedures. The house will be lighted with electricity and heated with hot water.

None but ladies will be employed as nurses, and the surroundings will be arranged as far as possible so as to make the patients feel at home. Special attention will be given to the care of ladies addicted to the use of narcotics.

For particulars as to terms, &c., address

DR. LAPHORN SMITH, - - - 248 BISHOP ST., MONTREAL.

New York Post-Graduate Medical School and Hospital.

TENTH YEAR-SESSIONS OF 1891-92.

THE POST GRADUATE MEDICAL SCHOOL AND HOSPITAL has entered upon the tenth year of its existence under more favorable conditions than ever before. Its classes have been larger than in any institution of its kind, and the Faculty has been enlarged in various directions. Instructors have been added in different departments, so that the size of the classes does not interfere with the personal examination of cases. The institution is in fact, a system of organized private instruction, a system which is now thoroughly appreciated by the profession of this country, as is shown by the fact that all the States, Territories, the neighbouring Dominion and the West India Islands are represented in the list of matriculates.

In calling the attention of the profession to the institution, the Faculty beg to say that there are more major operations performed in the Hospital connected with the school, than in any other institution of the kind in this country. Not a day passes but that an important operation in surgery and gynecology and ophthalmology is witnessed by the members of the class. In addition to the clinics at the school published on the schedule, matriculates in surgery and gynecology, can witness two or three operations every day in those branches in our own Hospital. An out-door midwifery department has just been established, which will afford ample opportunity to those desiring special instruction in bedside obstetrics.

Every important Hospital and Dispensary in the city is open to the matriculates, through the Instructors and Professors of our schools that are attached to these institutions.

FACULTY.

- Diseases of the Eye and Ear.*—D. B. St. John Roosa, M. D., LL.D., President of the Faculty: W. Oliver Moore, M. D., Peter A. Callan, M. D., J. B. Emerson, M. D.
