

G. The Technical Secretariat shall compile the results of the laboratory analysis of samples and include them in the final inspection report. The Technical Secretariat shall include in the report detailed information concerning the equipment and methodology employed by the designated laboratories.

For the current section VIII on inspection report, we suggest adding a new first paragraph to read as follows:

"1. During the post-inspection procedures, the inspection team shall provide the in-country escort with a list of any samples to be taken off-site by the inspection team for analysis".
