
List of Figures

		Page
Figure 1:	Spectral Characteristics of Energy Sources, Atmospheric Transmission and Common Remote Sensing Systems.....	2
Figure 2:	Observable Corridor and Ground Strips Accessible Using Vertical and Oblique Viewing.....	4
Figure 3:	Revisit Capability of the SPOT Satellite.....	5
Figure 4:	Operation of an Airborne Linescanner	11
Figure 5:	Resolution Determination for Synthetic and Real Aperture Radar Systems	12
Figure 6:	Changes in an Area North of Kabul Airport as Shown by Change Detection Analysis.....	16
Figure 7:	Changes at Kabul Airport as Shown by Change Detection Analysis.....	17
Figure 8:	Changes at the NE Camp in Kabul as Shown by Change Detection Analysis	18
Figure 9:	Potential of Commercial Satellite Imagery to Update Maps	23
Figure 10:	SPOT Panchromatic Image of the South African Airbase at Ondangwa, Namibia.....	24
Figure 11:	SPOT Panchromatic Image of Leopard Valley, Namibia.....	25
Figure 12:	SPOT Panchromatic Image of Windhoek Showing the Area of UNTAG Headquarters.....	26
Figure 13:	Conventional Aerial Photographs Provide an Economical and Reliable Source of Information.....	30
