

POST-VANCOUVER ACTIONS

Responsibility to implement the recommendations for action in the *Vancouver Communiqué* rests with higher education institutions, foundations, business and governments.

In Canada, the Department of Foreign Affairs and International Trade (Cultural Affairs and Higher Education Bureau) acts as the secretariat for Canadian members of the Task Force, and is coordinating the Canadian response.

The Ministry of Public Education of Mexico (Undersecretariat for Higher Education and Scientific Research) represents Task Force members of that country.

The United States Information Agency (Office of Academic Programs) is acting as secretariat for U.S. Task Force members.

Each country will identify leaders to guide implementation. For further information, contact:
