

the written consent of the other Party shall be obtained. An agreement to facilitate the implementation of this provision may be established by the Parties.

ARTICLE VI

Prior to the enrichment of any nuclear material subject to this Agreement to twenty (20) percent or more in the isotope U 235 or to the reprocessing of any nuclear material subject to this Agreement, written consent of both Parties shall be obtained. Such consent shall describe the conditions under which the resultant plutonium or uranium enriched to twenty (20) percent or more may be stored and used. An agreement to facilitate the implementation of this provision may be established by the Parties.

ARTICLE VII

1. Nuclear material, material, equipment and technology subject to this Agreement shall not be used to manufacture or otherwise acquire nuclear weapons or any other nuclear explosive devices of any kind.
2. The use, development or application of nuclear energy for peaceful purposes shall not include the development, manufacture, acquisition or testing of any nuclear explosive devices. The Parties to this Agreement shall not receive or provide assistance in the development, manufacture, acquisition, or testing of nuclear weapons or other nuclear explosive devices.
3. With respect to nuclear material within the territory of Canada, the commitment contained in paragraph (1) of this Article shall be verified pursuant to the safeguards agreement between Canada and the International Atomic Energy Agency, in connection with the NPT. However, if for any reason or at any time the International Atomic Energy Agency is not administering such safeguards within the territory of Canada, Canada shall forthwith enter into an agreement with Argentina for the establishment of IAEA safeguards or of a safeguards system that conforms to the principles and procedures of the Agency's Safeguards System and provides for the application of safeguards to all items
