

Therefore, I say, an ENGROSSED Lottery will carry any *reasonable* Quantity of Annuities, and do all that a Minister can expect from it: But an OPEN one, little or nothing at all.

The Effects of this Demurr on the Subscription will be felt *next* Year; when I fear we shall repent it: For it is *then*, and not till *then*, that we shall feel the *full* Force of it's Influence; "for every Failure" must create future Difficulties."

But the Obstruction the Ministry met with in filling the Subscription, was not the *only* one they had to get over. The Terms on which the Loan was borrowed, demanded a Fund of 67,500*l.* *per ann.* to pay the Interest; (a *small* Portion of what a few Years War will require, if we proceed in the *same* Method of raising Money :) Yet, to raise this *small* Sum, no less than *three* Taxes were proposed; one of which was immediately rejected, and
