

CONTENTS.

	PAGE
INTRODUCTORY	1
CHAPTER I	5
DEPOSITS ON THE TEETH. Kinds of Deposits.—Salivary Calculus. —Serumal Calculus.—Stains on the Teeth. REMOVAL OF DEPOSITS. Removal of Salivary Calculus.—Instruments.—Technique.—Re- moval of Serumal Calculus.—Removal of Stains from the Teeth.— Instructions to Patients as to the Care of the Teeth.	
CHAPTER II	28
DENTAL CARIES.	
CHAPTER III	41
EXAMINATION OF THE TEETH FOR CARIES. Appliances for Exam- ining the Teeth.	
CHAPTER IV	44
EXCLUSION OF MOISTURE DURING OPERATIONS. Kind of Rubber Dam.—Size of Dam.—Punching the Holes in Rubber Dam.—Rub- ber-Dam Clamps.—Clamps for Molars and Bicuspids.—Cervical Clamps for Buccal, Labial, or Lingual Cavities.—Ligatures.—Man- ner of Applying the Dam in the Different Locations in the Mouth.— Application of Dam in Difficult Cases.—Use of Napkins and Cotton Rolls for Maintaining Dryness During Operations.	
CHAPTER V	78
CLASSIFICATION AND PREPARATION OF CAVITIES. Cavity Prepara- tion.—Simple Proximal Cavities in Incisors and Cuspids.—Separat- ing the Teeth.—Detail of Cavity Formation.—General Considera- tions.—Proximal Cavities in Anterior Teeth Involving the Incisal Angle.—Detail of Cavity Formation.—General Considerations.— Proximal Cavities in Bicuspids and Molars.—Simple Proximal Cavi- ties not Involving Other Surfaces.—Proximo-Occlusal Cavities in Bicuspids and Molars.—The Interproximal Space.—Separating the Teeth.—Details of Cavity Formation.—General Considerations.— Buccal, Labial, or Lingual Cavities.—Occlusal Cavities in Bicuspids and Molars.—The Treatment of Softened Dentine in Deep-Seated Cavities.—Hypersensitive Dentine.	
CHAPTER VI	151
FILLING-MATERIALS. Gold and its Combinations.—Gold-and-Plati- num.—Gold-and-Tin.—Gold-and-Iridium.—Amalgam.—Tin.—Ce- ments.—Gutta-Percha.—Inlays.	
CHAPTER VII	165
GOLD. Cohesive and Non-Cohesive Gold.—Annealing Gold.—Dif- ferent Forms of Gold.—Crystal Golds.	
CHAPTER VIII	176
MALLETS AND MALLETING. The Hand Mallet.—The Automatic Mallet.—The Rapid Mallets.—Hand Pressure.—Protection to the Peridental Membrane in Malleting.
