

## TRADE BALANCES AND BORROWINGS

Sir Edward Holden Talks on  
Banking and Refers to  
Canada.

## BENEFIT OF EXPORTS

Dominion Annually Pays to  
London Fifteen Million  
Pounds Interest.

LONDON, Nov. 13.—(C. A. P.)—Sir Edward Holden, the well-known banker, speaking to the students of Birmingham University, on the theory and practice of banking, referred incidentally to Canadian borrowings in London and their effect on the trade and credit both of England and of Canada.

After describing bills of exchange and their use, he went on to say that bills drawn against exports provided the means, thru the bankers, for paying for imports. The total imports of merchandise into Canada last year amounted to \$2,700,000,000. To the extent, therefore, of \$2,700,000,000 her imports were paid for by her exports, leaving a balance of \$2,000,000,000 to be paid in some other way. In addition to this import balance, Canada had to pay a large sum every year, amounting at the present time to about \$15,000,000 sterling in respect to interest on money borrowed. The total amount, therefore, to be paid otherwise than by means of exports, was \$2,015,000,000. By borrowing in London thru the issue of stock, Canada created credit balances there against which she sold exchange to importers, thus settling the balance mentioned of \$2,015,000,000. If she could not continue to put out her loans, she could not continue to import commodities to such an extent as at present, because she would not have sufficient exchange to pay for them. If Canadian issues in London declined, British trade with Canada would not be so good next year as it was last year.

**Canada's Gigantic Money Power.**  
Sir Edward went on to remark that, although the foreign colonial loans issued during the last three years in London had amounted to about \$500,000,000 sterling, the actual credit created and circulating in our banks had only been increased in those cases where money had been borrowed from the banks for the purpose of taking up portions of these issues.

## ENORMOUS TASK FOR THE JUDGES

Big Job on Hand at National  
Live Stock Show Next  
Week.

Judges at the National Live Stock, Horticultural and Dairy Show will have a big job on hand next week. So large are the entries in all classes that in many cases the actual credit created and circulating in our banks had only been increased in those cases where money had been borrowed from the banks for the purpose of taking up portions of these issues.

## IMMIGRANTS COME IN LARGE NUMBERS

Ontario Gets Britishers, While  
Foreigners Go to the  
West.

Despite any decrease in the demand for labor resulting from the recent financial stringency the number of immigrants coming to the west has increased. Two train loads, or about seven hundred new arrivals, came in to the Toronto Union Station yesterday.

It is becoming apparent that while Ontario is getting the bulk of the British immigration the foreigners coming in are almost all obtained by the west. The first immigration special which came in yesterday had nearly four hundred foreign immigrants on board, and of those only three remained here. The second train to arrive had about three hundred and fifty British immigrants on board, and the majority of them stayed in Toronto.

**The Double Track Way to Montreal** is via the Grand Trunk Railway System. This, however, is but one of the many attractions of the Grand Trunk route, as the modern Pullmans and "Club" compartment cars, electric up-to-date parlor-library cars and comfortable vestibule coaches will deserve your patronage. Three fast trains leave Toronto daily at 9:00 a.m., 8:30 p.m. and 10:45 p.m. Remember the Grand Trunk is the only double track route and makes fast time. Berth reservations and full particulars at city ticket office, northwest corner King and Yonge streets. Phone Main 4209.

## RULE OF HUERTA IS NEARLY ENDED

Dictator is Practically in Hiding  
and His Speedy Downfall Assured.

## POWERS ARE IN LINE

Outlook is "Much More Favorable,"  
Statement of  
President Wilson.

WASHINGTON, Nov. 13.—(Can. Press.)—Tabled support from the great powers abroad over the American policy toward Mexico, shown in a variety of quiet diplomatic activities, gave President Wilson and Secretary Bryan a confident feeling today that the elimination of Gen. Victoriano Huerta as provisional President of Mexico would soon be an accomplished fact.

That the financial blockade instituted by the United States had effectively tied the purse strings of Europe, that diplomatic pressure was being exerted incessantly on all sides at Mexico City, that close friends of Huerta were applying their influence, and persistent reports saying that Huerta had gone into mysterious seclusion, raised the hopes of the Washington government that at last it was making definite progress toward solving the Mexican problem.

**No Dissension Shown.**  
An exchange of cablegrams with Ambassador Page, an agreement by Great Britain to leave the solution of the Mexican problem in the hands of the United States, and an announcement that no moral or financial support would be granted by England to the Huerta regime, set forth in London press despatches, created a favorable impression thruout official Washington. It was felt that Great Britain, France, Germany and other nations now stood together in acquiescence to the plan of the United States for the elimination of Huerta.

President Wilson had prepared early in the day a statement of the situation, reciting what had been accomplished in the communications presented by Charge O'Shaughnessy and John Lind, but within a few hours such favorable advice were received as to cause the president to withhold the document from publication. He stuck it away in a drawer with many other summaries of international affairs which it had been found unnecessary to make public.

"There are elements in this case," said the president, "which make it look to me very much more favorable." The president spoke thus of the situation to a half hundred Washington correspondents at their semi-weekly conference. His manner was calm and it was apparent that he felt decidedly encouraged by recent advances. The president is not usually quoted after these conferences, but today he permitted quotation to the extent of the single sentence. This he did to allay any tension that might have arisen in this country over the situation described in the despatches from Mexico City. Asked about the word "favorable," he explained that he meant favorable to a settlement. The president gave no details to show upon what his optimism was based, but he made it clear that the primary condition of settlement was the ousting of Huerta and all those who stood for the kind of government he had been conducting.

Received important despatches. It was evident that the president had received important despatches, but he declined to say whether they were from Mexico City or Nogales, the constitutional headquarters. Later, however, it was learned from the high officials that the plan of financial isolation was bearing fruit, and that the plan for Huerta's elimination was being acquiesced in by foreign governments, especially some of those which had previously recognized him and upon whom he had come to rely for aid.

One of the important factors in the situation which caused Washington calmly to await developments was the report thru authoritative channels that members of the Huerta official circle were now divided, some of them urging his resignation to avoid international complications. These were reported to be using every effort to prevail upon him to make a formal announcement of retirement at a fixed date.

The situation has progressed to the point, in the view of many officials, where even a definite rejection of the American demands by Huerta would not alter his future materially. Confidence prevails that he is drifting into certain bankruptcy and cannot resist much longer the pressure exerted against him.

## AS GERMANY VIEWS IT.

COLOGNE, Germany, Nov. 13.—(Can. Press.)—Germany's disableness in an immediate armed intervention by the United States in Mexico is expressed in an inspired despatch from Berlin published in The Cologne Gazette today. It adds that it is probable President Wilson will break off all relations with Mexico.

## TO LEAVE INTERIOR.

BERLIN, Nov. 13.—(Can. Press.)—The German government today considered the expediency of advising all German subjects resident in the interior of Mexico to remove to the coast towns for greater safety. It is thought most probable that this measure will be adopted shortly.

## HUNTER LOSES FINGER.

NIAGARA FALLS, Ont. Nov. 13.—(Special.)—While shooting near Chippewa late this afternoon, George Haines accidentally discharged his gun. The index finger of his right hand was so badly wounded that it was later amputated.

## GETS AN ADDITIONAL TERM.

GUELPH, Nov. 13.—(Special.)—Frank Fleming, serving a sentence of one year at the provincial prison farm, made his escape from that institution a few days ago, but was brought back and arrested. He was brought to Guelph and appeared before Magistrate Watt today. He pleaded guilty to the charge of escaping and three months was added to his present sentence and also an indeterminate sentence of two years.

## This Car Will Lower Any Delivery Cost

When this car was first promised, agents and engineers were very sceptical. They assumed that electric delivery cars had been improved to the limit—that we could go no further. Last year we exhibited advance models at the automobile shows. Under the most critical tests this incomplete car proved every claim we made for it.

But more was needed. So, for a year, we have been improving and testing every part. The finished product now marks a new era in delivery vehicles.

This car will carry greater loads at a higher average speed than any other vehicle. The gross cost per mile for its operation will mean a saving to you. The cost per ton mile will be a still greater

saving. The saving it will make in time will add to your profits and improve your delivery service.

From the beginning we have promised to deliver cars that will lower any delivery cost. It does not matter whether gasoline trucks or horses are in use. We are willing to make good that claim by contracting to maintain the car we deliver to you at a fixed charge per month just as soon as we are familiar with your delivery conditions.

We will make the "lower cost" apparent to you in actual dollars saved, and

back it up by a "maintenance service" contract before you buy the car.

The car you buy can have any mileage capacity you desire. Not only do our batteries give the greatest number of miles for each charge, but they are replaceable, and a discharged battery can be replaced by a freshly charged battery in about the same time as it takes to fill a gasoline tank or feed a horse.

Models embrace cars of 500 lbs., 1000 lbs., 2000 lbs., 4000 lbs. capacity. Four standard types of bodies can be furnished, or special bodies when desired.

## MONEY ON HAND FOR MEMORIAL

Women's Historical Society  
Has Raised Nearly Five  
Thousand Dollars.

The annual meeting of the Women's Historical Society took place yesterday afternoon at 52 St. Alban's street. A good attendance marked the occasion.

The treasurer's report showed that \$4,890.82 was on hand towards the Victoria memorial and \$122 in the general fund. This looked good, but in view of the publication of transactions and up to the date of the meeting the fee will be raised at the next meeting.

A letter from the Women's Institute of Queenston Heights was read thanking the society for a donation towards the Laura Secord memorial. The question of having one of the members in the Champlain Society and securing the back volumes of the association was favorably discussed.

Miss Josephine McCallum gave a very interesting account of the celebration at Moravian Town. When a salute of fourteen guns was given and the troops came from London to take part. It was stated by Miss McCallum that it is supposed that no one knows the exact spot of the chief's burial.

An assessment paper was read by Miss Fitzgibbon. In 1890 there were 1,127 persons in Toronto, including the townships. In 1793 the taxes collected amounted to about \$125. At the last assessment the taxes were \$9,350,999.

Miss Fitzgibbon also made an interesting reference to what is termed the "longest prayer" when Dr. Ryerson had to pray for a man on the gallows until his words were a mere mumble. He, however, saved his life of the man by praying until he revived for which someone had set out arrived.

The election of officers resulted as follows: President, Mrs. Forsyth Grant, re-elected; vice-president, Miss Fitzgibbon; treasurer, Miss Toque; recording secretary, Miss Port; corresponding secretary, Mrs. Corley. The executive are the Misses Cox, McCallum, Galbraith, Ridout, Lee, and Mrs. Bain, Mrs. Stupart.

## BIG BROKERAGE FIRM ASSIGNS

New York House of Hollins  
and Company Owes Five  
Millions.

NEW YORK, Nov. 13.—(Can. Press.)—The failure of H. B. Hollins & Co., an old established banking and brokerage house, with international connections, was announced simultaneously today on stock exchange and in the United States district court, where an involuntary petition in bankruptcy against the firm was filed. Liabilities are estimated at \$5,000,000 with assets, mostly bank loans, of \$2,500,000 to \$3,000,000.

The firm was established over 20 years ago, but recently underwent several changes in personnel. Harry B. Hollins, the senior member, was a

## To Put On Flesh And Increase Weight

### A Physician's Advice

Most thin people eat from four to six pounds of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all both to say that this is the nature of the individual. It isn't nature's way at all. Thin folks stay thin because their powers of assimilation are defective. They just absorb enough of the food they eat to maintain life and a semblance of health and strength. Stuffed won't help them. A dozen meals a day won't make them gain a single "stay there" pound. All the fat-producing elements of their food just stay in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug, but is a scientific combination of six of the most effective and powerful flesh-building elements known to chemistry. It is absolutely harmless, yet wonderfully effective, and a single tablet, eaten with each meal often has the effect of increasing the weight of a thin man or woman from three to five pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back.
