special to The Toronto World.

NEW YORK, Sept. 11.-Despatche Dun's review from branch officer demand for footwear is below normal. The millinery openings last week were well attended, but buying was rather slow. There is fair movement of stapic commodities at Quebec and the outlook appears to be favorable. There seems to be a revival of confidence at Toronto, with some increase in business in a number of lines, there being a somewhat better enquiry for winter dry goods and a well maintained demand for groceries and other food promand ter dry goods and a well maintained de-mand for groceries and other food pro-ducts. Both the wholesale and retail trades are quiet at Hamilton, and manufacturing concerns are working at reduced capacity.

In the far west and northwest busi-ness is becoming steadily more active as a result of the good crops and the high prices at which they are selling.
Winnipeg reports that retail business

as a whole, is regarded as promising. Jobbers at Saskatoon note a fair demand for general merchandise from the country, but retail trade in the city is somewhat quiet. Wholesale trade at Regina continues active with the movement of staples fully up to that of a year ago. Calgary reports that business in the small towns is respondent to the splendid prospects in store for the farmers and this is stimulating the wholesale demand in the city. While general business is rather cate at Vancouver the prevailing feeling is that conditions are satisfactory, taking all lines into consideration.
