STILL DEADLOCK IN G.T.R. NEGOTIATIONS

Things "As They Were," Despite Visit of Ministers—Directors Refuse to Sell Company—Government Will Hold It Responsible for Liabilities.

(Montreal Star, July 26.)

Ottawa, July 26.—The railway situation as between the government and the G.T.R. has undergone little substantial change as a result of negotiations which have been conducted in London this summer. The two ministers who were delegated for that particular mission are back. As regards the Grand Trunk, apart from a clearer understanding on both sides, it is very much a case of "as you were." The government has in view a broad scheme of nationalization embracing the Intercolonial, the Canadian Northern, the Transcontinental and the Grand Trunk. The last mentioned system has been regarded in many respects as the crux of the whole thing.

The negotiations this summer looked to the acquisition by the government, but the Grand Trunk directors in London don't want to sell, save on the basis of cash, and in determining what they consider to be the value of the line, they take into account not so much the past and present, as the potential earning powers in years to come. The lever, which the government has is the financial obligation of the Grand Trunk Company towards the G.T.R. Bonds to the extent of \$150,000,000 issued in respect to the latter road are guaranteed by the parent organization. It is not in a position to meet the \$7,500,000 interest, and in the past few years the government has helped it out.

The same liability looms up once more, and additional to it is a prospective deficit from general operation. The company asked the government again for assistance, invoking the argument that its predicament is due to war conditions, and that the aid it has received in the past is relatively less by far than that accorded to other railways.

The government says in effect to the company: "You are the shoulders of financial obligations, or sell out, the country assuming all the liabilities."

Deadlock Not Relieved. From all that can be learned here, the comparative deadlock has not been relieved by developments in recent weeks. The proposal of the government is to take over the lines of the G.T.R. and the G.T.P., paying an annual rental for all time an amount equal to the dividend paid when they are paid, on the various issues of preferred stock, and also

GERMANS CONDUCT RETREAT SKILFULLY

London, July 29.—The German retreat is being conducted skilfully, the ground has favored them and the dense woods have enabled them to hold up many thousands of advancing troops with a few small groups of machine guns, says the Reuter correspondent with the American troops in France. The enemy losses have been very small, he adds, compared to the advantage gained, for time is of more value to the German command than many soldiers.

The Germans have lost a good deal besides ground, but have carried off almost all the guns, the doubtless being compelled to destroy much ammunition. The enemy has suffered a great moral defeat and severe losses in men, but the retirement has cost him nothing compared to the damage suffered by his vain assaults east of Rheims. When the allies come up against his prepared position they will doubtless find him in great strength.

TORONTO GIRL DROWNED

Was Bathing at Port Hope When Knocked Down by a Wave. Port Hope, July 29.—A drowning accident occurred at the beach this afternoon about four o'clock when Katherine Marshall of Toronto, 12 years of age, lost her life. She was bathing with other girls when a wave knocked her down and she went under, was unable to gain her feet, and was carried out in deep water. A returned soldier named McGregor endeavored to save her but he took a cramp and was only able to save himself. Several others endeavored to locate the child, but not before it was too late.

Winnipeg the Headquarters Of Bolsheviki in Canada

Montreal, July 29.—The headquarters of the Bolsheviki who attempted to hold a "peace at any price" meeting in Montreal last night, is in Winnipeg. This fact was ascertained from books and papers captured when the leaders were corralled by the police. According to the director of public safety, there is a branch headquarters at 4 East Craig street, Montreal.

EIGHT SHIPS DELIVERED. American Shipyards Kept Busy With Construction.

Washington, July 29.—Eight steel ships with a total dead weight tonnage of 25,390 were delivered by American shipyards last week, the shipping board announced today. Launchings for the week included two steel vessels with a total tonnage of 52,250, and five wooden ships with a tonnage of 19,200. These deliveries bring the number of vessels built for the shipping board to nearly 250, with a million and a half dead weight tonnage.

STRANGE ILLNESS.

Quebec, July 29.—Six sailors from various ships died while on the St. Lawrence some time ago from a strange illness, thought to be the famous Spanish influenza. They came on different vessels, one of which arrived with three dead sailors, another with two dead and the third with one dead. A number of other sailors were taken off sick at the quarantine station and are now dying.

BRITISH CROWN GAINS LANDS IN RHODESIA

Privy Council Vests Forty-Eight Million Acres in Imperial Government. London, July 29.—By a decision of the privy council announced today, the domination of some 48,000,000 acres of land in southern Rhodesia remains in the crown, but the British South Africa Co. will continue to administer the land and may be reimbursed in financial matters.

GERMANS PERPETRATE ACTS OF VANDALISM

London, July 29.—Evidence accumulates that during their brief stay in the Marne salient the Germans have been again indulging in wholesale acts of vandalism. In a message sent from their headquarters, Reuters' French army correspondents give details of their conduct while in possession of Chateau Thierry.

AUSTRALIANS CAPTURE TWO TRENCH SYSTEMS

London, July 29.—Two lines of German trenches on a two-mile front astride the Bray-Corble road, east of Amiens, have been captured by Australian troops, the war office announced today. In carrying out this operation the Australians took 100 prisoners.

TO DIRECT CONCERN.

Gen. Garnet Hughes to Assist Airplane Industry.

London, July 29.—Gen. Garnet Hughes' new appointment is to direct a British cellulose company, which has large works in the Midlands, making substances used in airplane wings. The company has been largely financed by the imperial treasury, and the committee on national expenditure has just issued a report criticizing the government's financial contractual relations with the company. The committee strongly recommended that the company should be taken over by the government. General Hughes' appointment, therefore, apparently means that the recommendation has been adopted.

DIES FROM POTASH BURNS

Moncton, N.B., July 29.—A few days since Mary Barbara, the two and a half year old daughter of Mr. O. G. Loyal, of Moncton and formerly of Halifax, accidentally spilled part of a pail of potash over herself. The little one died this afternoon from the burns.

FREIGHT TRAINS COLLIDE

Quebec, July 29.—When two freight trains on the I.C.R.R. collided Sunday night near Laurier station, the crew of the oncoming mogul jumped out of the cab. Following the rear end crash, their engine smashed its way thru a number of cars and the inside of the little station was seriously damaged. No one was hurt.

NO CHANGE SUNDAY NIGHT.

Paris, July 29.—The French war office reports: "North of the Marne there was no change in the situation during the night. During the fighting yesterday on this part of the front we captured about 400 prisoners."

CANADIANS DISCOVER NEW ALLOYED METAL

New York, July 29.—A metal suitable for the very finest forms of cutlery has been developed from combining iron, chromium and cobalt, according to an announcement made by Prof. W. L. Goodwin, of Queen's University, Kingston, Ontario. Consul F. S. E. Johnson, who is at Kingston, reports that the new metal is easy to work and is shortly to be put on the market in commercial quantities. Prof. Goodwin is chairman of the Canadian section of the Society of Chemical Industry, which organization in conjunction with the Canadian chemists and chemical engineers, is working toward getting a higher degree of extraction of useful substances from ores and finding new uses for waste products. Canadian chemists were responsible for the discovery of the new metal, which is peculiarly a Canadian product.

GRAIN AT WINNIPEG

Winnipeg, July 29.—Conditions in the grain market continue unchanged for the past few days. Offerings of all grains were very light, with practically no demand. Oats closed 2c lower for July; October closed 1 1/2c lower and December 1/2c lower. Flax closed 1/2c lower for July and 3/4c lower for October.

MONTREAL PRODUCE

Montreal, July 29.—The feeling in the spot market for the cash article was easier, but in the absence of any business of importance prices were quoted unchanged. Car lots of No. 2 Canadian western \$1.00; No. 2 C.W. and extra No. 1 feed 97 1/2c; No. 1 feed 94 1/2c, and No. 2 feed at 92 1/2c per bushel ex-store. The local flour situation, to note, the tone of the market for winter wheat grades being very firm. A stronger feeling has prevailed in the market for mill feed, and prices for all lines, with two exceptions, have been advanced of late. There was no improvement in the demand for balay today and the market, in consequence, was quiet, with an easy undertone.

FRESH FRUITS OFFERED IN GOODLY QUANTITIES

Beans, Beets, Cabbages and Cucumbers Most Plentiful Among Vegetables.

The Canadian Grocer says: Fresh fruits and vegetables have provided the bulk of the price changes during the past week in Toronto. The tendency towards lower prices is more marked as the season progresses, and many lines are being quoted at lower levels. Blueberries and currants are down, and plums show a lower range of figures. Beans, beets, and cabbage feature the vegetables' decline, and peas, cucumbers, which are becoming much more plentiful. Local potatoes and tomatoes are both in better supply, and the week or two should see these lines much lower.

Indications point to fairly high prices on honey. Estimates as to available supplies are very uncertain, some quarters intimating small returns, while others look for ample returns. Beans are being quoted at a much lower level than prices ruling for some weeks past. Supplies are heavy and the demand light. Rice is in good supply and a very fair demand is apparent. The use of rice as a substitute is considered as an influence in present volume of sales. Apples is down 1/2c per pound in some quarters.

Exports of walnuts from France will not be very large, it is thought. The outlook for a poor crop, and opportunities for shipping none too plentiful. The new crop of almonds seems a fair one, with prices likely to rule high. Brazil is higher, with extreme difficulty being experienced in getting from South America.

CHICAGO CATTLE MARKET.
