MACKENZIE KING BECOMES CRITICAL

Liberal Speaker Criticizes Taking Over G.T.P. Under War Act.

OFFICERS ELECTED.

H. W. Cane Chosen President of North York Liberals.

North York Liberal Association North York Liberal Association held a convention in Newmarket town hail Saturday afternoon. The press was excluded from the business meeting but was allowed by the chairman, H. W. Cane, to hear the address given by the Hon. W. L. Maczenzie King. There was a fair attendage.

tendance
Mr. King said that the parliament ought to be a mirror of all the classes it represents and hoped that the next would have representation in proportion to their number.

At present the legislature is draft-

ing a new franchise bill which will include many of the objectionable features of the war times election act. if this bill should pass it will disthe population

Ideal Liberalism.
The speaker outlined ideal liberalism and attempted to make this description applicable to the present party.

The principle of Liberalism, as expounded by the late Mr. Gladstone, is: "Trust in the people qualified by pru-dence," while the Conservative policy is, according to Mr. King, mistrust of the people qualified by fear. He re-ferred to the action of the government in taking over the Grand Trunk Pacific Railway and gave as the government's excuse the war measures act. He reminded his hearers that the war was over, therefore the action should not have been taken as a war

It was not government by the people nor yet was it government by par-liament. It is a question whether the Liberal party has not let things go too far during the war.

There is an association to be formed within the next few weeks for To-ronto and York, at which a hundred delegates from the riding will take

freshments at the armories.

As the men who reside in Toronto will be able to report the following day for their discharge they will not the held for it on their arrival, but those men whose homes are at outside recards will be taken to the Exhibition and held until they receive their disand held until they receive their dis-charge which will be in the course of a few hours

Opportunities of the reconstruction era in Canada are not being overlooked by wideawake Japan. Three of that country's keenest businessmen have been at the King Edward since last February, and will remain at least another week. All are officers of the K. Tsuda Company of Osaka, Messrs. Onoda, Kobashi and Matsuda. Messrs. Onoda, Kobashi and Matsuda. The Tsuda Company is the most important steel and iron concern of Nippon, something of a pocket edition of the United States Steel Trust, producing every example of the allied metals' product, from frying pans to steel rails. Mr. N. P. Onoda is the company's foreign sales manager, and largely depended upon to find profitable markets for the company's products, so that the working staff of two thousand or more need not be reduced.

reduced.

"We have been kept busy on war orders until lately, and they have been profitable orders," said Mr. Onoda. "Now that the war is practically over, we must find new markets or reduce production, which we hope to avoid. Consequently we come to look over the Canadian field, which is more attractive to us than any other. We obtain our raw material from China exclusively, but wages, etc., there are so low, and transport facilities thence so low, and transport facilities th so favorable, that it costs us only \$1.50 a ton for the iron ore at the plant. a ton for the iron ore at the plant. And again we have in our country an abundance of comparatively cheap labor, and low living costs. Shipping facilities from Japan to Vancouver or Seattle are superior to those to San Francisco. There is more opportunity for great development enterprises in Canada, too, than in the United States. Therefore we are hoping to work up a satisfactory Canadian export trade. We are here to study and decide how that is best to be done."
