

Tourists and visitors generally are reminded that we're selling

Furs at 25 per cent. Under value

this week to encourage midsummer business. The special August Sale ends next Saturday, when the discount will positively be withdrawn.

If you want to save a fourth of your money on new and stylish furs now's your chance. No time to lose!

DINEEN'S

Cor. Yonge and Temperance, TORONTO.

PRaise for the Band.

The Late Sir Arthur Sullivan's Opinion of the Life Guards.

Sir George Arthur writes from the Marlborough Club, Pall Mall: "Canon's historical record of the Life Guards gives a flowery but fairly accurate story of the regiment. It is out of print, but a bookseller can sometimes get it if given three or four weeks. I am engaged on the history of the three regiments of household cavalry. When I was in the Second Life Guards, the late Sir Arthur Sullivan came to see me. He heard the band play, and made a little speech, in which he thanked them for the way in which they always rendered his music. He addressed them as 'Gentlemen of the Life Guards,' an appellation to which, in spite of many vicissitudes, they are entitled."

To-Night's Band Concert.
The Cadet Band will play the following program in Riverside Park Tuesday evening, from 8 to 10 o'clock, under the leadership of Bandmaster A. Hartman: March—The Jersey Carol. Daniel Liberafeld Overture—Crown of Honor. Charles Richards Waltzes—Souvenir from Erin. C. W. Bennett Fantasia—Bonnie Scotland. Arranged by Hare March and two-step—Silver Heels. Neil Moret Caprice—Solitude. Mercadante Cornet solo—King of Eternity. By Corporal Hendrick Humorous march—The Jolly Copernith. Arranged by E. Boettger March—Pauillac. J. Furgot God Save the King.

Will Not Fight Extradition.
Chatham, Aug. 20.—Found guilty by Judge Bell in the county criminal court on the charge of bringing \$16,000 worth of stolen furs into Canada. Jacob and Simon Gebhardt of Brooklyn, N. Y., were today remanded till Saturday for sentence. It is understood that they will not fight extradition.

Boys Suspected of Theft.
Kingston, Aug. 20.—The N. C. Polson & Co. premises were entered by thieves, who turned over everything, spilled nitric acid over a considerable lot of goods and carried away a lot of medicine and articles used in preparations. Boys are suspected.

MEDICAL MEN

with a taste for distinctively high-class garments should take an opportunity, while in Toronto, to visit our commodious premises and give our stock personal inspection. The quality of our goods is the finest in Toronto and the prices the lowest in high-class tailoring. We would appreciate a visit from our out-of-town patrons.

YORK COUNTY AND SUBURBS

MAYOR SMITH OF JUNCTION DEFENDS THE WATER SUPPLY

Criticism is Not Based on Fact—Committee to Consider Park Offer.

Toronto Junction, Aug. 20.—The executive committee of the town council held a special meeting to-night. A communication was received from the mayor regarding the rumors as to water supply and the town's health, which he characterized as detrimental to the town. The quality of the water was as good now as ever during the past fifteen to seventeen years. The only occasion on which the water in the town was not up to the mark was after heavy rains, spring freshets, and east winds on which occasions there was more or less earth brought down by the Humber River, which was deposited in the vicinity of the intake, but the water for the greater portion of the year was as pure as the Toronto water, although probably not as cool, this latter being due to the fact that Toronto water is obtained from the deeper water of the lake. He was inclined to think that the complaints were most frequently made by those who but recently came to reside here. There was less disease in town to-day than at any time for a number of years. Efforts, however, to obtain a new source of supply from Whitechurch would, he believed, be crowned with success. A deputation from the Dominion Carriage Company, represented by Manager H. Horsman and his solicitor, A. T. Hunter, asked for the usual exemptions. The committee instructed the town solicitor to prepare the necessary by-law.

It was decided to pay the laborers 20c per hour while working on the cement works. Armstrong & Cook wrote, offering to sell part of the town park for \$25,000, a committee of the chairmen of the different committees was appointed as a committee of ways and means. The resignation of Chief Royce was accepted. He will be permitted to retain his revolver. A letter was read from Geo. Irwin of Mount Charles, calling the attention of the council to the bad accommodation of the G.T.R. station, and also to the fact that the early train does not stop here, and that the G.T.R. refuse to sell a ticket to the Junction. The solicitor was instructed to bring the matter before the G.T.R. with a view to having better accommodation for the town. It was recommended that the cement mixer now being used by the town be purchased, for \$600.

Four dead horses were carried out of town to-day by the Harris Company. Two of them were shot by Veterinary Surgeon Methuill, suffering with a head disease. Two were owned by R. Davis of Dundas-street, one by J. Haines of Midland-street, and one by J. Edwards of St. Clair-avenue.

East Toronto.
East Toronto, Aug. 20.—Residents along Lee-avenue and Pinehurst are chafing at the delay which characterizes the action of the town and township council with respect to the improvements on these thoroughfares. Alex. Baird, engineer on the G.T.R. river, has been confined to his home thru illness.

John Hall, Main-street, is organizing a boxing tournament among the young athletes of East Toronto to take place within the next fortnight. Robert Wilson, artist of Gerrard-street, has disposed of his business, and will shortly remove to Manitoba. George Empey, engineer, at Mrs. E. B. Perkinson, jun., and child, have returned from a six weeks' trip to Portland, Oregon.

Mrs. A. C. Stobo and children have returned from a six weeks' visit at Euphemia Falls.

Mrs. Hetherington is opening a millinery store in Brotherton's block. The town is said to be wholly free from infectious diseases.

Mrs. Alexander, of Enderby Villa and Mrs. Liddell of Ammanville, East Toronto, have returned from their holiday trip to Chicago, Detroit and Sarnia.

North Toronto.
At the recent matriculation examination, Rev. T. W. Powell, principal of St. Clement's day school, sent six candidates to the College for examination, and all passed. They were: Miss W. Waddington, Robert Boulden, Jack Tibb, W. H. Douglas, Miss A. Gregory and H. Frogley.

William Smith, market gardener on the 2nd concession, East York, a few weeks ago was jammed between his wagon and a gatepost and had his left arm torn out of the socket. He was unable to carry his arm out of the sling again.

The Davisville Epworth League held a garden party last night on the lawn of Mr. Wildman, Clarence-avenue, Deer Park. The Davisville Young Men's Club were the invited guests of the league.

Mr. Bowers asked permission at the board of works meeting last night to run a drain from his cellar at Broadway-avenue to the ravine on the east side of his property. Permission was granted.

D. B. Reid is willing to deed over to the town fifteen feet of his land to widen Montgomery-avenue if the town will donate fifteen feet along side the town hall. Many Orangemen, since he made the statement, have asked a fancy price for the appropriation for fifteen feet of their land, but if Mr. Reid will donate the land the Orangemen will consider it to their own interest to fall in line. The mayor, however, could not see how the town could give the fifteen feet where there are only 17 between the hall and the street, but the committee recommended that the Reid property be accepted.

Bracondale.
George Emery pleaded guilty before Judge Morgan yesterday to receiving a stolen watch, opera glasses and other articles stolen by boys from Minnie Gray. He was let go on suspended sentence.

Elder's Mills.
Sain McChure of this village believes in two-cents-a-mile passenger traffic on the Ontario railways. He was to Owen Sound and had to pay full fare, yet he discovered that he had from Toronto travelling to Owen Sound could go back on one fare. This was on the C. P. R., and he is still wanting to know why.

Markham.
It has been finally decided that George H. Reid, for many years principal of the Markham High School, and who resigned the position to accept a similar one on the staff of the Campbellford High School, shall remain here after all. Many applications had in the interval been received, among others one from J. E. Hodgson, late inspector of high schools.

E. Roberts, who has occupied the position of ledger keeper and teller in the Sovereign Bank, has been transferred to London East. He will be succeeded by R. S. Hutchison. Joseph Torrance and W. J. Harper have returned from Mt. Clemens.

Thornhill.
Thornhill, Aug. 20.—Fred Muldoon of Buffalo is visiting Albert Segar. J. J. Carter of Toronto is at his home here.

Miss Minnie Segar and James Segar leave for Buffalo to-day on a week's vacation.

Richmond Hill.
Richmond Hill, Aug. 20.—T. F. McMahon is spending a few days in Toronto. The funeral of Mrs. John Steel, which took place to Richmond Hill Cemetery, it was very largely attended.

M. C. McConachie of the Toronto general postoffice staff, is visiting his parents here.

The James Bay Railroad station is nearly completed. Work on the water tower is being pushed, and it is expected that it will be finished in the course of a week or so.

Newmarket.
Newmarket, Aug. 20.—(Special.)—Miss Lila Ross, daughter of C. G. Ross, manager of the Ontario Bank, has returned home to-day from Lake Simcoe, seriously ill.

James Nolan has accepted a situation in Toronto.

C. S. W. Scott has returned from Chatham. Clarence and Arthur Caldwell returned to Boston yesterday. They have been the guests of A. E. Bogart, accountant of the Ontario Bank.

Elder Child's oldest boy, who was killed on Wednesday of last week in a runaway accident in Carletonville, Saskatchewan, was buried here yesterday. He was only eight years of age and a general favorite with all who knew him.

Rev. Mr. Faulkner of Oshawa, who has been taking Elder Child's pulpit while he was in the Northwest, conducted the service. The casket was covered with flowers. The pall-bearers were members of the Christian Sunday School, viz., Arthur Law Jr., Cockwell, Lorne Morton and R. Will III Jr.

The funeral of James Allen took place this afternoon. As there was a heavy storm prevailing at the time, the funeral was not as largely attended as it otherwise would have been. The pall-bearers were his three sons, James Allen, Toronto; Will Allen, Collingwood; and J. Allen, Newmarket; his son-in-law, James Rolfe, and his grandson, Fred Allen, Toronto.

The infant son of Wm. Johns, Timothy-street, the youngest daughter of Anthony Smith Jr., aged 2 months, and the infant son of C. J. Smith of Ontario-street have died within the last two days.

The Office Specialty Company have the three largest single signs in Canada. They are 14 feet high by 105 feet long, and they look handsome from the train passing thru the town.

Mrs. W. C. Oliver and Miss Addie Oliver leave to-day to spend the winter with Arthur Oliver in Montana. Mrs. J. R. Mader and son of Newmarket spent Sunday with friends at the Beach.

Others from Newmarket who spent Sunday at the Beach were Mr. C. Watson, Mr. Mitchell, Wake Howard, and a host of friends, also E. S. Cane, R. H. Brimston and T. Trivet.

Mrs. Daley was the guest of Mr. A. E. Bogart over Sunday. He returned to Kingston, B.A., and Miss Edith are visiting friends at the Beach this afternoon.

Mrs. (Dr.) Rogers and Norman spent Sunday with friends at Orchard Beach.

York Township Council.
At the meeting of the York Township Council yesterday afternoon, Mr. J. D. Wootton wanted something done to keep cattle from running at large. He was told to lay his complaints before the road foreman, who answered that he only received the order from the railway commissioners for the application of the Grand Trunk Railway company to run cattle on 175 of the Railway Act, 1903, to construct a branch line to the premises of the Dominion Sewer Pipe Company.

Councillor Barker wished to know how the sewer local improvement is progressing on Don Mills-road. The clerk answered that he only received the petition legally signed and sworn to, and Engineer Gibson said that he had every-thing in shape to go on with the work as soon as all legal formalities were complied with. Thos. Graham received permission to use the road grader to level an east corner of the corner of Dufferin-street and Davenport-road. He was given a guarantee a marked cheque of \$25 to return the machine in good order.

The solicitor reported that it was a very complicated affair to carry out the clear title of Mrs. Gray's property to the estate of her late husband, and that extending to the property of the late Mr. Bird of Maple-avenue complained that a neighbor is keeping about 100 chickens in an insanitary and unsanitary way, likely to be heard in the police court. W. J. Carter, health inspector for West York, reported twelve complaints investigated.

IRELAND AS A FARM LAND IS BETTER THAN ONTARIO

John Dryden Returns From Investigating Trip Much Impressed With Emerald Isle.

John Dryden, ex-minister of agriculture, has returned after a visit to the old country as one of the representatives of the imperial government on the commission appointed to investigate the working of the department of agriculture and technical instruction in Ireland. This department was created by the Balfour government in 1899 by statute in the house of commons, and came into operation in 1900.

Considerable comment concerning its methods of operation was made by the Irish people, and the new British government, upon assuming office, appointed a special commission to thoroughly enquire into the whole project. Hon. Mr. Dryden was chosen as the practical agriculturist upon this commission.

"Without seeming to be disloyal to the splendid agricultural achievements of our people's Province of Ontario, I would sooner, as a paying proposition, have my farm located in Ireland than here," he said yesterday.

"I was very favorably impressed with the agricultural possibilities of Ireland. I do not think it would be easy to find a better agricultural district of its size than that found in Ireland, if one deducts two areas, that of the great bog district, whence is secured the peat which takes the place of much of the coal and timber for fuel, and what is termed the congested district—hardly expressive of the real condition, for it is but sparsely settled. It is situated on the west coast, and is mountainous, rugged and stony—the little patches of tillable soil having to be worked with a spade, as it is impossible to use machinery.

"The balance of the country compares very favorably with any other agricultural district I know of. Some of the green land is magnificent, and the climate is lacking in extremes. It will, in my judgment, grow almost anything.

"For some years practically no attention has been paid to the organization of the agricultural classes. They have carried on the work of yeomen as their fathers did before them. A good many of their holdings are small, and as a result the best was never brought out of it. It is the hope to make the new department a modern and wide-awake institution, and in time the effect of it will be very beneficial.

"What they need and what they should receive soon is education in modern methods, and a little more co-operation among the agriculturists themselves.

"I have a good deal of sympathy with the Irish agriculturist," added the ex-minister. "He has been left largely to feel his way and find his own piece of the pie. The Irish are a fine people, kindly, big-hearted and generous, but their history has been such as to tend to develop jealousy and suspicion of any outside counsel or advice."

Hon. Mr. Dryden will return to Ireland at the end of September to resume his work upon the commission.

CITY HAPPENINGS

Andrew McFarren, 287 East Queen-street, is suing Price & Sons for alleged injury to property caused by smoke and soot from defendant's dairy factory.

During Saturday and Sunday 5000 pieces of baggage were handled at the Union Station.

Fred Simpson wanted to pay back the \$4 stolen from Mrs. Butler, and have the charge called off. He'll spend three months in the Central and the woman will get the money back just the same.

While diving at Sunningdale, Miss Frankie Wallace of 1750 West Queen-street, dislocated her knee.

Four of the employers of Jewish bakers have refused to sign the agreement giving shorter hours.

G. W. Gzowski will accept \$2400 from the city for land expropriated on the south side of Front-street, between Bay-street and the Durham house, for the purpose of widening Front-street. Twenty-five feet were taken.

The English fallow deer at Riverdale Zoo has given birth to a fawn.

HELPS MEN TO WORK HARD.

That's what Ferrero's does; it supplies the additional strength that enables a man to maintain health under difficulties. "Last spring I was so completely fagged out I could not work," writes J. W. McNicol of Turnbull, Man. "In the morning I was tired—limbs ached all over. Had no appetite. Was sleepless, nervous and unhappy. Ferrero's put new life into me. Now I eat heartily, nerves are strong, I sleep well. I know the joy of health." Try it by supplying nourishment and good blood that Ferrero's builds up; try it 50c per box, at all dealers.

J. C. Forbes' Pictures.
There has been a little criticism in some English papers of the painting by Mr. Colin Forbes of the portraits of the King and Queen for the Canadian house of parliament, Ottawa, and which were exhibited at the Royal Academy in London by permission of the King; but a number of other English papers give Mr. Forbes most flattering notices. For instance, The St. James' Gazette and Evening Standard says: "The background, being the throne of our parliament, is a cleverly treated and the pictures are very successful, but as pictures they are very successful and very artistically deal with the requirements, which are by no means easy." These paintings will be on view at the exhibition.

The Baby Incubator Man.
Dr. P. R. Stewart arrived in town yesterday to meet yesterday afternoon the building on the exhibition grounds, in which the baby incubator will be shown. He states that he will have some extra fine subjects in Toronto. The doctor desires people to understand that the incubators are based on thoroughly scientific principles and that the lives of thousands of little ones have been saved by their beneficent help. In fact the mortality is infinitesimally small among the subjects entrusted to the incubator.
