The tag day will be held on Saturday next, as the result of an appeal by the Navy League to the I.O.D.E. The gross receipts will be given to the Navy League to be distributed among the widows and orphans of the sailors.

QUERIES REGARDING MILITARY SERVICE

Send in Your Problems and They Will Be Answered From Official Information by The Advertiser.

Question—Has an applicant for exemption the option of appealing to whatever tribunal is most convenient to him? He might be absent from home, and therefore wish to go before a tribunal near his place of temporary residence, or because of personal relationships it might be embarrassing for him to go before his home tribunal, and for that reason he might wish to be heard elsewhere. According to an article in the "British Columbian" it is not necessary for him to give any special reason for such a request as long as he is applying anywhere in his own province. It also states that the sollcitor-general was asked to interpret sections 6 and 11 of the M. S. Act in so far as they bear on the Act in so far as they bear on the choice of tribunals, and that he made it quite plain that the intention as well as the wording of the

act leaves the choice with the applicant. CORRESPONDENT. correspondent.

Answer—Sections 6 and 11 of the act apparently leave the choice of tribunal to the applicant, and there is nothing elsewhere in the act to the contrary.

During the three days appointed out which applications in person might be made (November 8, 9 and 10) the choice of tribunal was left entirely with the applicant.

It must be remembered that the act in itself was assented to in August, and was rather incomplete as far as the de-tails of the working out of the draft were concerned. However, in sub-sec-tion (3) of section 5, and again in sec-tion 12 provision is made to permit the Wonders Who Will
