IRISH "REPUBLICAN ARMY" GROWS BOLDER AND STRONGER

Readjustment of Tariff Immediate Necessity, Says Premier Meighen

LOOK TO TAX BILLS AND BUDGET, ADVISES MEIGHEN

Answer of Premier as to Federal Financial Policy, During Montreal Speech.

TARIFF REVISION DUE

Montreal, Feb. 3.—(By Canadian Press)—The Right Hon. Arthur Meighen, prime minister of Canada, speaking as the guest of honor at the citizens' banquet, held tonight at the Windsor Hotel here, made it clear that the government was following a new policy, and that he would attempt to expound and emphasize the broad lines of policy which the government was following, and in this connection referred to Canada's national position, pointing out that "the elevation of our status as a British nation has thru all the years been a matter of growth rather than of change, and so it will always be."

Speaking of racial misunderstandings, the premier said that he had not in all the years of his public life been a party to a statute that in a single line was unfair to English or to French, and he was not therefore anxious for a fair distribution of the duties of government, which, he stated, did not exist today. He said that a fair distribution of public offices of every kind was a principle that both the great races of Canada should recognize as essential.

As to the policy of the government in regard to finance and taxation, "I say look to your tax bills and wait for the budget speech," and he pointed out that the country was facing a two billion war debt, which entailed alone \$240,000,000 of interest, while its commitments in railways—"These are the commitments in railways,"—(Continued on Page 3, Column 3.)

AIMED AT SYSTEM NOT AT THE DUKE

Indian Leader Explains That Connaught Boycott is Not Personal.

Calcutta, Feb. 3.—M. K. Gandhi, the Indian leader, has addressed a letter to the Duke of Connaught, who is in India, to inaugurate reform legislation, explaining that the recent call for a boycott of the duke was connected with his visit is against the system, and not against the duke.

The letter said that the non-co-operation with the government held the person of the duke sacred, but that they sought to destroy the system by which O'Dwyerism and Dyerism, which had resulted in a wanton affront to Islam, was possible.

In connection with the inauguration of the legislative council, Gandhi has addressed eight mass meetings, which passed resolutions demanding that the council be reformed.

Washington, Feb. 3.—President Wilson acting on the recently communicated request by President-elect Harding, today issued a proclamation calling a special session of the senate to convene March 4.

The session will act on cabinet and other appointments by Mr. Harding and probably will last only a short time.

BREAD WAR IN BELLEVILLE

Belleville, Ont., Feb. 3.—Some of the bakers of this city are waging a war in the reduction of prices for bread. Today, a further reduction was made. Three-pound loaves selling at 14 cents for wholesale and 16 cents retail, are being sold at eight cents less than a week ago.

HIGH BUILDING COST NOW AFFECTS G.T.R.

President Kelley Explains Why Railway is Not Financially Successful.

Montreal, Feb. 3.—Asked why, in view of his glowing descriptions of the Grand Trunk, the railway is not financially successful, Howard G. Kelley, president of the Grand Trunk, today described it partly to the effect that the building of the railroad cost \$100,000 a mile which had been increased to \$150,000 a mile by the present and common stocks of the company, and the great advances in wages while rates in some cases had even advanced, causing a condition where growing business meant less profits.

ELECT LIBERAL IN WEST

Clovelde, B. C., Feb. 3.—L. D. Patterson, Liberal, was elected by a majority of about 800 over F. J. A. Mackenzie, Conservative, in the Delta by-election today.

HENRY FORD PLANS CAUSE OF COMMENT IN WALL STREET

Resignation of Many Officials Taken to Point to Re-organization.

IS SEEKING BIG -LOAN

Detroit, Mich., Feb. 3.—What is the matter with the Ford Motor Car Company? asks The New York Times in a special article. What are the true motives for the wholesale resignations from an organization that has made its product a household word in every nook and cranny of the world? What truth is there in the widely published reports that a loan is under negotiation, the amount of which is variously reported from \$75,000,000 to \$118,000,000?

These are questions that are puzzling the entire automobile and financial world. No one appears to know the authentic replies, or at least, no one will divulge the information. As is always the case where Ford executives are concerned, there is a complete absence of communication of the facts to the outside world.

Evidence that the ranks of the Ford official family were split in friction and discord came to the surface when James Couzens, present mayor of Detroit, one of the original stockholders, and vice-president of the growing company, resigned during the world.

CASSAGNAC MUM ON COMING DUEL

Has Challenged Leon Daudet, Noted for Many Personal Encounters.

Paris, Feb. 3.—Deputy Paul De Cassagnac, speaking to the Associated Press, in the chamber today, said he could make no comment on his challenge published in L'Ouvreur this morning to fight a duel with Leon Daudet, leader of the Royalist Association, with army revolver at 50 feet, firing at will. M. De Cassagnac pointed out that the law governing duels provided that 48 hours must elapse between the challenge and acceptance or rejection of the challenge. "During which period the challenger must say nothing, only his seconds being privileged to talk."

"You may quote anything appearing in my challenge this morning," added the deputy, "beyond that I am bound by honor of the code to say nothing."

The controversy has attracted as much attention in the chamber almost as the ministerial declaration on the Paris conference. A friend of M. De Cassagnac's declared that as soon as the time allowance of 48 hours had expired, M. De Cassagnac would "surely slap Daudet's face, west, east, north and south," and added significantly:

"Be on hand Saturday for the fireworks!"

Leon Daudet has been fighting duels for many years. He has been wounded several times in these encounters, and, in turn, has wounded many men.

In refusing a challenge last November from Paul Denise, deputy for the department of war, to meet him on the field of honor, M. Daudet said:

"During his practice and there is no place for it in France since the war."

CUSTOMS GRAFT ALLEGED ON NEW YORK PIERS

New York, Feb. 3.—Evidence involving 38 customs inspectors at the port of New York on charges of graft, will be presented to the federal grand jury as soon as the cases are completed, Earl B. Barnes, assistant federal district attorney, announced tonight. Warrants will be issued for the arrest of the men, he said.

Byron C. Newton, collector of the port, said the inspectors have received gratuities or bribes ranging from \$1 to \$300 from passengers who wished their baggage passed un-inspected. The inspector would not estimate how much money the government had lost thru failure to collect customs, but said it was probably many thousands dollars.

Chancellor Takes Unprecedented Course of Announcing Budget Intentions—No New Taxation to Be Imposed—Removal Will Affect Only Businesses Started Since the War—Denies Rumors of an Election.

Birmingham, Feb. 3.—J. Austin Chamberlain, chancellor of the exchequer, in a speech here today announced that the excess profits tax, which Great Britain would be withdrawn. Not only would this tax be abolished, he added, but no new tax would be proposed to replace it and no new taxes would be proposed for the coming financial year. There might be new duties in connection with "dumped" goods or depreciated exchange, but there would be no new taxes on business, the chancellor declared. It tended to encourage extravagance and discourage enterprise, he said, but the conditions which made it necessary had changed, and its removal was no longer necessary.

Have Refused to Admit Former Service Men

London, Feb. 3.—Operatives in the building trades at a meeting today rejected the government's proposal for "diluting" the building industry by the absorption of former service men to alleviate unemployment. The executive committee of the operatives said a ballot among the different unions proved overwhelmingly against acceptance of the government plan.

The ground was taken that the workers now in the industry were fully able to meet housing needs by direct labor thru contracts with the building guilds.

FAIL TO ASK SHARE OF FEDERAL GRANT, THO PEOPLE STARVE

Heartrending Story of Conditions in Brockville Reported by G.W.V.A.

Ottawa, Feb. 3.—(Canadian Press)—Many cities and towns have failed to take advantage of the federal government's offer to bear one-third the cost of relief for destitute families. In this connection, a heartrending statement of the condition of Brockville, Ont., has been received here, in a letter from the president of the Brockville branch of the G.W.V.A. to G. G. Macneil, Dominion secretary.

The statement describes conditions, which compare with those in war-torn Ukraine and Armenia, children garbed in blankets and wearing bags about their legs and feet; women forced to dress in the remnants of their husband's clothes in order to keep warm, and men begging with tears in their eyes for food for themselves and families.

Letter of G.W.V.A. President.

Brockville has not yet taken advantage of the government scheme, according to information from the department of labor here. In his statement, the president of the Brockville branch of the G.W.V.A. says:

"I have personally seen families entirely destitute, the woman clad in her husband's clothing, having none sufficiently warm to withstand the cold, and the children clad in portions of blankets and quilts, with wadding in lieu of footwear. I have seen weeping women and children huddling around a small fire of straw trying to keep warm. I have seen men, with (Continued on Page 3, Column 7.)

FINED FOR FEEDING GARBAGE TO HOGS

St. Catharines, Ont., Feb. 3.—At the instance of the Dominion department of agriculture, Arthur Wilkins was today fined \$50 for feeding garbage to hogs. It was pointed out that 90 per cent of cholera is found in garbage and hogs in vicinity of cities and large towns. The Dominion authorities are rigidly enforcing the regulations in order to prevent the spread of the disease from this source.
