

**HUNGERFORD.**—About 50 have professed faith in Jesus; but in consequence of removals, one death, and some having left the society, the increase is but 27. Prospects are brightening, and the Bible Christian cause is growing in interest. The receipts are more than double the amount raised last year; which speaks well for the liberality of the friends these trying times. Two new Sabbath Schools have been lately organized. The last quarterly meeting was the best we ever saw; there was a panting after holiness.

**PORT PERRY.**—The Pastor says: This Mission is yet in its infancy. We suffer for want of Chapels, having only one in the Mission. A few sinners have been converted, and several perfected in love.

**MARIPOSA.**—Unity has generally prevailed during the year. The two Chapels referred to in last year's Report have been built, and with considerable effort, are freed of debt. God has accepted the free will offering of his people; and, as a proof has made these chapels the place where many have been born for glory.

**PICKERING** has experienced a quickening; the preacher says, "We have a great work at Providence. A long pull, a strong pull, hath pulled the devil's kingdom all in pieces. We have been holding a protracted meeting for 11 weeks, and not over yet. We held it six or seven weeks before scarcely any good was done; then we appointed a day for prayer and fasting. The work broke out after that. I think about 45 have experienced a change.

**SCOTT.**—The pastor in his report says:—During the past year we have not experienced so much to cheer us in the work, as to test our faithfulness in the cause of Zion; yet, in the midst of discouragements, we have had the great "I AM" in our midst, to sustain and cheer our spirits. We have opened four new places for preaching, where we have some prospects. We have also held three protracted services which resulted in the conversion of some souls, and the quickening of others; but not to the extent we hoped for. The new chapel in Scott, though not finished, was opened last October. It is a neat, commodious place. Our Missionary Meetings were in general tolerably good for the times. The congregations are in general encouraging, and we have reason to believe that the cause of Zion is taking deeper root."

**MITCHELL.**—From this station we have received the following statement. This mission is, we believe, improving. Some of the members are aiming at the mark, and striving to gain the prize of their high calling—holiness, which is of God in Christ Jesus. God is among us, and his smile our joy; and we have seen his power displayed since our last report was given, in the salvation of a few souls. Our full members are 38 more than last year, and during the year we have received upwards of 50 on trial.—The hearers of the word are increasing, and "the fields are white unto the harvest." "O Lord revive thy work."

In consequence of the depression of the money market, and the low price of provisions, we have sustained loss in our finances. We hope our friends

will abound in the  
eral things; and
