

## GOOD SEASON FOR ANGLERS IN N.B. PROMISED

Harry Allen Addresses Gyro—Calls For Re-Seeding of Woods

One of the best fishing seasons in the history of the province is expected this year, Harry Allen, president of the New Brunswick Guide Association told the Gyro Club at their luncheon at the Admiral Beatty Hotel yesterday.

Owing to the lateness of the season, Mr. Allen said, the fish had been for a long time without much food and consequently when the warm weather came they would bite savagely.

Last year the fish were biting at this time but the sport was indifferent when the warm weather became advanced. Mr. Allen also predicted a rapid growing season.

### FOREST PRESERVATION.

The speaker dwelt especially on the necessity for forest preservation and the reseeded of burned or cut over areas. He spoke of the precautions which must be taken against fire in the woods and warned the members that when camping night fires should always be built in a place where they would not have a chance to spread.

Pines should never be kindled at the foot of a tree, he said, as the trunk would act as a chimney and scatter the embers.

Mr. Allen went on to deal with the importance of reseeded and urged the club to stand solidly behind the movement in that direction. While pine and other woods, he said, would yield a pound or more of seed to a bushel of cones. The seed could be planted in shallow holes made with the heel and covered in with the soil, and a pound of seed would be sufficient for a large area. In ten years the newly planted trees would have grown sufficiently to bear cones, and in 30 to 40 years they would be ready to cut. The work could be done by individuals or groups or under government direction.

### N.B. FAVORED.

New Brunswick was favored as regards reforestation work, for its soil was the most productive on the continent as far as the speaker could learn for growth of this kind.

Speaking of the tourist resources of the province, Mr. Allen said that they were unsurpassed. At the recent national game conference in the United States motion pictures from 38 states and provinces had been shown, but the consensus of opinion had been that those from New Brunswick were the best put on exhibition there.

The reversing falls were the greatest drawing card the province had and he recommended that pictures of the falls at the various stages of the tide should be shown, broadcast and especially on trans-Atlantic liners.

At the close of his address Mr. Allen answered queries of the members and guests regarding game problems.

### MR. CROMWELL HEARD.

Harry Cromwell spoke briefly on the automobile industry. Mr. Cromwell described the growth of the industry in Canada and said that in 1924 there were twelve plants representing \$60,000,000 of capital and producing \$88,000,000 worth of cars and parts annually. Ten thousand hands were directly employed and 100,000 people concerned in the industry.

Great additions had been made to the plants of several of the concerns since the figures were compiled.

Ralph M. Tennant presided.

## Deaths

Mrs. George Wasson. It was with much regret that friends today learned of the death of Mrs. Sarah Jane Wasson, wife of George Wasson, 80 Harrison street. She had been ill for about a year but the end came suddenly at the General Public Hospital, where she had been for 11 days. She leaves to mourn her husband, George Wasson, one brother, Fred Logan of New York, one son, Benjamin Hatfield, of 48 Paddock street and two granddaughters, Jennie and Lillian Hatfield of Cambridge, Mass. The funeral will be private from Chamberlain's funeral hall, 145 King street East, Thursday at 2:30 to Greenwood.

A. B. DeForest. A. Burgess (Brant) DeForest died yesterday at the home of his niece, Mrs. M. L. F. Carvell, Fredericton. He was a son of one of the soldiers of the American revolution, which came to New Brunswick years ago in connection with the Ashburton Treaty and who disbanded and settled at Lakeville, Carleton county, on a new land farm.

### Mrs. D. Thibodeau Is Dead At Leger Corner

Special to The Times-Star. MONCTON, April 20.—The death occurred at the family home, Leger Corner, yesterday, of Mrs. Dorothea Thibodeau, wife of Dorothea Thibodeau, retired farmer of that place. She was 81 years of age, and had been in poor health for some weeks. She was a native of Fox Creek and lived in Moncton practically all her life-time. She leaves to mourn her husband, one daughter, Mrs. Thomas Galant, of Amherst, and four sons, Albert, of the C. N. R. shops, Moncton; Camille, of Sackville; Blair, at home; and Eddie, C. N. R. brakeman, of Amherst; one brother, Thomas LeBlanc, of Cambridge, Mass.

NO MORE NOW. Mr. and Mrs. Charles Coleman, 82 Bridge street, entertained the members of the "On-We-Go" Club, and friends at their home last evening. Dancing and cards were enjoyed. Refreshments were served by the hostess, assisted by Mrs. Walter Fullerton and Mrs. Roy Saunders. The club will not meet again until the fall.

Rice, of Maryville, and Rev. C. T. Clark, of Fairville Baptist church, preceded the hearse, and about 50 men of the congregation, as well as the mourners, marched in the cortege. Rev. R. G. Fulton, of Centenary United Church, Rev. J. M. Rice and William Bunnell accompanied the remains to St. Stephen.

The steamer Cochrane was held up by the storm yesterday afternoon and will not sail until seven o'clock this morning for Cape Town and other South African ports with general cargo.

## PYORRHEA

checks 4 out of 5

WHY take chances with dread pyorrhea? Through carelessness, four out of five suffer with it, after the age of forty, and many younger. These are your dentist's statistics.

Tender bleeding gums are the danger signal. If unchecked, the teeth loosen in their sockets and the poison seeps through out the system, frequently producing rheumatism, neuritis and other serious troubles.

If pyorrhea has set in go to your dentist immediately for treatment. He can help you. To prevent pyorrhea consult him at least twice a year, and brush your teeth night and morning with Forhan's for the Gums.

This pleasant dentifrice contains Forhan's Pyorrhea Liquid which has been used at least twice a year for a thorough teeth and gum inspection. It will keep your teeth and gums healthy, prevent decay and forestall serious illness that often has its beginnings in a diseased mouth.

## LIQUOR SMUGGLERS JAILED AT SYDNEY

Two Given Year on Charge After Seizure of Boat Near Shore

SYDNEY, N. S. W., April 20.—One year each in jail was the sentence imposed by Judge Crowe today on John Jones and Ambrose Sampson, fishermen, charged with smuggling liquor into the Dominion.

William Cullins, a third defendant, was acquitted when he could not be identified by Captain Ryan and officers of the revenue cutter which seized the motorboat, three men and 17 kegs of rum at a point which crown witnesses declared to be two and a quarter miles off shore. The defendants swore that they bought the spot where the arrest took place, and on having a navigator survey it later, discovered they were in reality four miles off shore and should have been immune from seizure. The court did not accept this version.

THE ROPE CONTRACT FOR STMR. MA LOLO

The contract for hawsers and rope for the steamer Malolo, the largest, high-powered and swiftest passenger steamship ever built in the United States has been placed with Elwin H. Filler Co. of Philadelphia. This is one of the largest contracts for Manila rope that has been placed for any ship because of the last four years of internal strife. This terminology, he said, was naturally, belittled.

These hawsers are subject to and will meet the tests and conditions prescribed by Lloyd's, American Bureau of Shipping and U. S. Steamboat Inspection Service.

### Middle-Aged Women

ONE of the most critical periods of a woman's life comes between 45 and 50. Most women dread the approach of middle age because they know, only too well, the depressing ailments it brings.

This natural change in a woman's life should be passed in a normal manner, without fear or suffering from such distressing symptoms as hot flashes, smothering spells, fainting spells, headaches, backache or nervous troubles.

When such symptoms are experienced, there usually exists some weakness or disturbance of the feminine system that can be overcome by the use of Lydia E. Pinkham's Vegetable Compound. For more than fifty years the Vegetable Compound has been carrying women safely through this trying period.

Such letters as the following prove our claim:—

### After Long Suffering

South Omaha, Nebraska.—"After fifteen years of terrible suffering each month with sick headaches when passing through Change of Life I began to take Lydia E. Pinkham's Vegetable Compound and I have felt my health steadily improving. After taking your medicine for almost a year and a half, I believe I can say the headaches have left me. I also was troubled with nervousness and with pains in my left side. Many times the doctor told me to have an operation performed. I am feeling fine now and do all my work myself. I am the mother of six, and manage an eight-room house without anybody to help. I feel that I am entirely well. I recommend the Vegetable Compound to any one who complains to me about female troubles."—Mrs. ADOLPH BRATKE, 4316 South 13th St., South Omaha, Nebraska.

### Mrs. Bollerman's Case

West Hoboken, N. J.—"During the Change of Life I was troubled with headaches, weakness, flushes of heat to the face and head and loss of appetite. I would often get so weak I could hardly stand. I thought I would never be right again as no doctor's medicine seemed to help me. They said my trouble would have to take its course. I read about Lydia E. Pinkham's Vegetable Compound in the little books you give away and began to take the medicine. After the first few bottles I began to feel stronger and could eat better and had fewer headaches. I am a well woman today and feel like a different person. You may use this letter for every word is true. I will answer any letters sent to me."—Mrs. JENNIE BOLLERMAN, 516 Smith Street, West Hoboken, New Jersey. Sold by druggists everywhere.

## FAMOUS FEET

how they're kept free from corns...

Evelyn Law's Famous Dancing Feet

"A corn is hardly a luxury for anybody. . . . But for a dancer it is agony. . . . It puts a Spanish Inquisition in her shoe. . . . When I notice any suggestion of callus on the toe, I immediately apply a Blue-jay plaster. So that's why I never have a corn." So writes graceful and beautiful Evelyn Law, famous Ziegfeld dancer.

Small wonder that legions of eminent dancers, screen stars and athletes consider good old Blue-jay part of their "working kit!" For over 25 years it has been vanquishing corns to the tune of tens of millions annually. . . . Blue-jay keeps fit the feet of the famous and the forthrighted. . . . Sold at all drug stores.
