The Secret of Charm Never Changes

Throughout the ages it exerts its power—this charm to which the world bows, changing history and making queens—of nations as well as hearts.

Few can describe it, for charm doesn't depend upon beauty alone. The woman who yields it may be dark or fair, of any race or type.

Only this is certain—she has a perfect skin, fresh, youthful, free from blemishes—the irresistible attraction which all understand and admire.

Begin today to give your complexion the care it needs and this charm will also be yours. It's a beauty secret of ancient Egypt and the beautiful Cleopatra.

Before you sleep, cleanse with Palm and Olive oils

Bad complexions are largely due to lack of proper cleansing. The pores become clogged, then enlarged, then irritated. Blackheads and blotches follow.

Soft and flabby skins often show the lack of a cold water tonic. Rough skins are often caused by using harsh, irritating soaps.

The best preventive is a daily cleansing with Palmolive soap. It makes a balmy, creamy lather, for the base is palm and olive oils. A gentle massage makes it penetrate. A rinsing takes it out, and with it come all accumulations which have clogged the skin.

Finish with a dash of cold water. Then your skin will be fresh and rosy, clear, soft, smooth.

Done at night, with a finishing touch of cold cream, this means that all night long your skin will have a needed chance to rest and breathe.

A lesson from stage women

All women can learn something from the women of the stage, who use much rouge, much powder.

But they remove them before they sleep. And with them the oil, the dirt and perspiration which clog up the pores of the skin.

Their complexions will show you that they do no harm when skins are treated the right way.

Only 10c, yet supreme

Palmolive soap costs little, yet it forms the best skin soap the world ever knew. It employs palm oil from Africa, olive oil from Spain. It combines them in a perfect emollient.

It soothes while it cleanses, softens while it cleans. No price can buy anything better.

The Palmolive price is due to the fact that millions have come to employ it. And we have worked for years to bring it within the reach of all.

On dry skins it is well to apply cold cream, both before and after washing.

Ancient beauties knew the way

Roman beauties, in their famous baths, used palm and olive oils. Egyptian beauties used them in Cleopatra's time.

Now modern science finds no better way to beauty than by scientific blending of these oils.
